In dieser Abhandlung stehen aber nicht die Probleme eines „typischen“ Falls der Bestechung im Mittelpunkt, sondern die Auswirkungen der Täuschung im Rahmen der §§ 331, 332 StGB. Dabei sind mehrere Täuschungsansatzpunkte möglich. Der Täter kann über seine Amtsträgereigenschaft täuschen, er kann auf der Ebene der Begehung der Diensthandlung, der Pflichtwidrigkeit sowie der Tathandlung täuschen. Es wird auf die Fragen eingegangen, ob sich der Amtsträger in all diesen Fällen trotz der Täuschungshandlungen der Vorteilsannahme bzw. der Bestechlichkeit strafbar gemacht hat, ob sich die Täuschungshandlung bzw. Täuschungsabsicht auf die Tatbestände der §§ 331f. StGB auswirkt und wenn ja, im Rahmen welches Tatbestandsmerkmals und mit welchen Folgen.

af imt 1109: Judeans in Babylonia Tero Alstola, 2019-12-16 In Judeans in Babylonia, Tero Alstola presents a comprehensive investigation of deportees in the sixth and fifth centuries BCE. By using cuneiform documents as his sources, he offers the first book-length social historical study of the Babylonian Exile, commonly regarded as a pivotal period in the development of Judaism. The results are considered in the light of the wider Babylonian society and contrasted against a comparison group of Neirabian deportees. Studying texts from the cities and countryside and tracking developments over time, Alstola shows that there was notable diversity in the Judeans' socio-economic status and integration into Babylonian society.
