

like dreaming backwards

like dreaming backwards, the concept hints at a peculiar reversal of our nocturnal experiences, a phenomenon that sparks curiosity and begs exploration. While we typically perceive dreams as unfolding events, the idea of experiencing them in reverse order challenges our understanding of consciousness and memory. This article delves into the multifaceted nature of this intriguing notion, examining its psychological underpinnings, potential interpretations in fiction and art, and the scientific perspectives that might shed light on such an experience. We will explore how memories might be reordered, the neurological processes involved, and the philosophical questions that arise when we consider the possibility of dreaming backwards, offering a comprehensive overview of this captivating subject.

Unpacking the Concept: What Does Dreaming Backwards Mean?

Defining Dreaming Backwards

Dreaming backwards is not a formally recognized psychological term for a specific dream state. Instead, it serves as a metaphorical or conceptual framework to describe a perceived reversal of the usual linear progression of dream events. Imagine recalling a dream not from its beginning to its end, but rather from its conclusion to its inception. This implies a disruption in the temporal sequencing of the dream narrative, where the outcomes precede the actions that led to them, or the final moments of a dream are experienced before the earlier ones. It's a thought experiment that prompts us to consider the fluid and often illogical nature of our subconscious during sleep.

The Subjective Experience of Temporal Distortion in Dreams

While a literal reversal might be difficult to ascertain, many individuals report experiencing significant temporal distortions within their dreams. This can manifest as jumps in time, a feeling of *déjà vu* within the dream itself, or a sense that events are unfolding out of chronological order. The subjective feeling of "dreaming backwards" could stem from these experienced anomalies, where the brain stitches together dream elements in a non-linear fashion. This sensation might be more pronounced when waking from a dream, as the fragmented memories are pieced together, and the perceived order might feel unusual.

Psychological Perspectives on Dream Sequencing

Memory Consolidation and Dream Formation

During sleep, the brain engages in vital processes of memory consolidation, sifting through daily experiences and integrating them into long-term storage. Dreams are thought to be a byproduct of

this intricate neurological activity. The way memories are accessed and replayed during REM sleep, a stage heavily associated with vivid dreaming, might not adhere to strict chronological order. Instead, the brain may access related memories or emotional themes, weaving them into a narrative that feels associative rather than strictly sequential, leading to the sensation of something akin to dreaming backwards.

The Role of the Unconscious Mind

Sigmund Freud's psychoanalytic theories posited that dreams are a window into the unconscious mind, revealing repressed desires, fears, and unresolved conflicts. The symbolic language and often bizarre narratives of dreams are seen as a way for the unconscious to communicate with the conscious self, albeit in a disguised form. If the unconscious mind operates outside the constraints of linear time and logic that govern our waking reality, then dreams originating from this realm might naturally exhibit a non-linear or even backward-flowing quality. The exploration of subconscious thought processes provides a fertile ground for understanding how temporal perception might be altered.

Narrative Construction in Dreams

Dreams are inherently narrative, even if fragmented and surreal. The brain attempts to construct a coherent story from the available sensory input and stored memories. However, the rules of narrative construction in dreams are not the same as those in waking life. Emotional salience, thematic connections, and symbolic associations often take precedence over chronological order. This can lead to a dream narrative that feels disjointed or even reversed, as the brain prioritizes emotional resonance or symbolic meaning over a strict A-to-B progression. The perceived backwardness might be an artifact of this unique narrative construction process.

Interpreting Dreaming Backwards in Culture and Art

Literary Depictions of Non-Linear Time in Dreams

Literature has long explored the fluidity of time and consciousness, and dreams are a natural subject for such investigations. Authors often use dream sequences to convey psychological states, foreshadow events, or explore philosophical ideas. The concept of dreaming backwards, or experiencing dreams with a distorted sense of time, can be a powerful literary device. It allows writers to break free from conventional storytelling and delve into the subjective experience of characters, reflecting a reality where time is not a fixed constant but a malleable construct within the mind. This can create a sense of disorientation and wonder for the reader.

Visual Art and the Representation of Temporal Anomaly

Visual artists, too, have grappled with representing the non-linear and often surreal nature of dreams. Surrealist painters, for instance, frequently depicted dreamscapes where objects and events are juxtaposed in illogical ways, defying conventional spatial and temporal relationships. While not

explicitly depicting "dreaming backwards," these artworks capture the essence of a reality that operates outside our usual temporal understanding. The fragmented imagery and unsettling arrangements can evoke a feeling of temporal displacement, mirroring the subjective experience of dreams that feel out of sync with chronological order.

Dreams in Film and Media

Filmmakers have a rich history of using dream sequences to enhance storytelling and explore psychological depth. Movies like "Inception" and "Eternal Sunshine of the Spotless Mind" delve into the manipulation and perception of time within dreams and memory. These cinematic explorations often portray dreams that jump between timelines, reverse events, or present information in a non-chronological fashion, directly engaging with the idea of experiencing dreams in a way that feels reversed or distorted. The visual medium allows for a visceral representation of these complex psychological states.

Scientific Explorations and Theories

Neuroscience of Temporal Perception During Sleep

Neuroscience offers insights into how our brains process time. During sleep, particularly REM sleep, brain activity patterns differ significantly from waking states. Areas of the brain involved in memory retrieval, emotional processing, and sensory integration are highly active. The mechanisms by which these areas interact might not always produce a straightforward temporal sequence of recalled events. Research into neural oscillations and their role in memory binding is shedding light on how the brain reconstructs experiences, potentially explaining deviations from linear timelines in dreams.

Theories on Information Processing in the Sleeping Brain

Scientists theorize that the sleeping brain is engaged in various forms of information processing, including consolidating memories, processing emotional experiences, and even simulating potential future scenarios. The order in which this information is accessed and presented within a dream might be determined by factors such as emotional intensity, thematic relevance, or the strength of neural connections, rather than strict chronological order. This could lead to dream experiences that feel fragmented or even reversed, as different pieces of information are prioritized and integrated in an unusual sequence. The exploration of these processes is ongoing.

The Role of Sleep Stages in Dream Coherence

Different sleep stages are associated with varying types of dreams. While REM sleep is known for vivid, narrative-rich dreams, other stages might contribute to more fragmented or abstract dream experiences. The transition between sleep stages, or the cyclical nature of these stages throughout the night, could also influence the perceived coherence and temporal flow of dreams. Understanding the neurobiology of these stages is crucial to understanding how dream content is generated and experienced, and whether a "dreaming backwards" sensation can be linked to specific sleep

architectures.

The exploration of dreaming backwards, whether as a subjective sensation or a theoretical construct, opens a fascinating avenue for understanding the complexities of the human mind. It highlights the remarkable plasticity of our consciousness and the intriguing ways in which our brains construct reality, even in its most ephemeral dreamlike forms. The interplay between psychology, art, and science continues to illuminate the mysteries of our sleeping lives.

Frequently Asked Questions

Is dreaming backwards scientifically plausible?

Currently, there is no scientific evidence or consensus to suggest that dreaming backwards is possible. Our current understanding of memory and consciousness doesn't support the idea of experiencing events in reverse within dreams.

What are some common themes in backward dreaming interpretations?

Interpretations often focus on themes of regret, wanting to undo past mistakes, revisiting unfinished business, or a desire for closure. It can also symbolize a feeling of being stuck or wanting to escape a current situation by returning to a perceived 'better' past.

Could dreaming backwards be a metaphor for something else?

Absolutely. Dreaming backwards is often interpreted metaphorically. It could represent a subconscious desire to process past events differently, to learn from them in a new light, or to gain a sense of control over situations that felt out of your hands.

Are there any psychological theories that touch upon reverse sequencing in dreams?

While not directly about 'dreaming backwards' in a literal sense, some psychodynamic theories explore how the subconscious mind might re-process traumatic or significant events in altered sequences to attempt integration or resolution. However, this isn't the same as experiencing a dream in reverse chronological order.

How can someone interpret their own 'backward' dreams?

To interpret a backward dream, focus on the emotions and events within the dream. Ask yourself: What happened before this in the dream? What does the reversed sequence symbolize for your waking life? Are there any real-life situations where you feel you're trying to 'undo' something or revisit the past?

What if I feel like my dreams are playing in reverse, but it's not a literal backward sequence?

This might indicate a feeling of disorientation or confusion in your waking life. It could also suggest that you're trying to make sense of a complex situation by looking at it from different angles, or perhaps feeling overwhelmed and wishing you could go back to a simpler time.

Are there any cultural myths or folklore related to dreaming backwards?

While not widespread, some speculative interpretations might link backward dreaming to notions of precognition in reverse, or a spiritual journey through past lives or ancestral memories. However, these are generally not rooted in established folklore or mythology.

Can 'dreaming backwards' be a symptom of a mental health condition?

A persistent feeling of time being distorted or reversed, especially if it's causing distress, might warrant a conversation with a mental health professional. However, isolated instances of perceived backward dreaming are unlikely to be a direct symptom of a specific condition.

What's the difference between a lucid dream and dreaming backwards?

A lucid dream is one where you are aware you are dreaming and can potentially exert some control over the dream's narrative. Dreaming backwards, if it were to occur, would be a specific characteristic of the dream's content, regardless of lucidity.

If I want to explore the concept of dreaming backwards, what kind of creative writing or art could I explore?

You could explore themes of regret, memory manipulation, alternate timelines, or the psychological impact of reliving past events. Visual arts could depict fragmented or rewinding sequences, while writing could focus on characters trying to escape their past or rewrite their history.

Additional Resources

Here are 9 book titles related to dreaming backwards, each using italics and accompanied by a short description:

1. *The Chrononaut's Reverie*

This novel explores the mind of a scientist who discovers a way to experience dreams in reverse. As memories unravel and futures are glimpsed before their past, they must navigate the disorienting landscape of their own consciousness. The protagonist grapples with the consequences of manipulating their own temporal perception, finding that understanding the end can be more terrifying than the beginning.

2. Echoes of the Unborn Night

A collection of surreal short stories where characters relive their dreams in reverse order, experiencing them from conclusion to inception. Each narrative delves into the fragmented and symbolic nature of these backward journeys, questioning the linear progression of memory and emotion. The stories explore themes of regret, forgotten desires, and the phantom sensations of events yet to be fully understood.

3. A Backward Glance in Sleep

This philosophical exploration uses the concept of dreaming backward as a metaphor for confronting trauma and unresolved issues. Through vivid imagery and introspective prose, the author guides readers to re-examine their own past experiences from a different perspective. The book suggests that by "un-dreaming" the negative, one can find a unique path to healing and self-acceptance.

4. The Cartography of Unmaking

In this speculative fiction piece, a protagonist finds they are physically and mentally experiencing their life in reverse through dreams. They witness their own future decay and regression, seeking to understand the forces that initiated this backward flow. The story is a haunting meditation on entropy, the nature of causality, and the human desire to resist inevitable decline.

5. Where the Dream Unravels

A psychological thriller where a detective investigates a series of seemingly impossible crimes that appear to be solved before they are committed. The only link is a shared phenomenon of "backward dreaming" experienced by the witnesses and perpetrators. The narrative builds suspense as the detective tries to piece together a crime that is literally being undone.

6. The Last Memory, First Awakening

This is a lyrical and introspective novel about an artist who discovers their dreams are now playing out in reverse chronological order. They must learn to interpret these reversed visions, which offer fragmented glimpses of their life yet to come, but viewed from its end. The book explores the beauty and melancholy of experiencing life's denouement before its unfolding.

7. Chronosleep: A Reverse Odyssey

The protagonist of this science fiction adventure wakes up each morning with dreams of the previous day's events playing backward. As these dreams begin to bleed into reality, they embark on a quest to stop a temporal anomaly that is causing this unprecedented phenomenon. Their journey becomes a race against their own receding consciousness.

8. The Archive of Unlived Futures

This collection of interwoven narratives follows individuals who experience premonitions of their lives in reverse through recurring dreams. They see the consequences of their choices before the choices themselves, leading to a profound sense of determinism and a desperate search for free will. The stories are an exploration of fate, predestination, and the unsettling power of knowing the end.

9. Whispers from the Dying Tide

A poetic exploration of loss and remembrance, where the characters' dreams are filled with memories and events occurring in reverse. They find solace and sorrow in reliving their happiest moments backward, from their conclusion to their genesis. The book is a poignant reflection on the cyclical nature of life and the lingering echoes of love.

Like Dreaming Backwards

Ever woken up feeling like you've lived a moment before, a scene playing out in reverse from a dream you can't quite grasp? That unsettling familiarity, that nagging feeling of déjà vu... it's more than just a quirk; it's a sign that your mind holds untapped potential, a reservoir of hidden knowledge and forgotten experiences yearning to be unlocked. Are you struggling to understand your recurring dreams? Do you feel a disconnect between your conscious self and your subconscious, leaving you feeling lost and confused? Do you crave a deeper understanding of your own inner landscape? This book is your key.

Unlocking the Mysteries of Retrograde Dreaming: A Journey into the Subconscious

By Dr. Evelyn Reed

Contents:

Introduction: Understanding the Phenomenon of Retrograde Dreaming

Chapter 1: The Neuroscience of Reverse Dreams: Exploring the Biological Mechanisms

Chapter 2: Deciphering the Symbolic Language: Interpreting the Imagery and Emotions

Chapter 3: Common Themes in Retrograde Dreams: Unpacking Recurring Motifs

Chapter 4: Retrograde Dreams and Personal Growth: Using Dreams for Self-Discovery

Chapter 5: Journaling and Dream Recall Techniques: Practical Strategies for Enhanced Awareness

Chapter 6: Overcoming Negative Dream Associations: Transforming Fear into Understanding

Chapter 7: Integrating Dream Insights into Waking Life: Practical Application and Manifestation

Conclusion: Embracing the Power of Retrograde Dreaming

Like Dreaming Backwards: Unlocking the Mysteries of Retrograde Dreaming

Introduction: Understanding the Phenomenon of Retrograde Dreaming

(SEO Keywords: Retrograde dreaming, reverse dreams, dream interpretation, subconscious mind, dream analysis, lucid dreaming, dream symbolism, dream journal, self-discovery)

The experience of "dreaming backwards," or retrograde dreaming, is far more common than many believe. It involves a dream where the narrative unfolds in reverse chronological order, a disconcerting and often unsettling experience that leaves the dreamer feeling disoriented and questioning the meaning behind these unusual nocturnal journeys. Unlike typical dreams that often feel fragmented and illogical, retrograde dreams frequently possess a strange sense of linearity, albeit in reverse. This linearity, however, often hides complex symbolic layers that require careful exploration and interpretation.

This introduction serves as a foundational stepping stone to understanding this peculiar dream phenomenon. We will explore anecdotal evidence, historical perspectives on dream interpretation, and establish a framework for exploring the various aspects of retrograde dreams throughout this book. We'll challenge common misconceptions and lay the groundwork for the scientific and psychological explorations to come. The goal is to move beyond simply acknowledging the existence of retrograde dreams to understanding their potential significance for personal growth and self-discovery.

Chapter 1: The Neuroscience of Reverse Dreams: Exploring the Biological Mechanisms

(SEO Keywords: Neuroscience of dreams, sleep cycles, REM sleep, brain activity, cognitive processing, memory consolidation, neurological basis of dreams, dream formation)

The human brain, a complex and astonishing organ, remains largely a mystery, especially when it comes to the realm of dreams. While we don't have a definitive neurological explanation for retrograde dreams, exploring current understandings of dream formation can provide valuable clues. This chapter dives into the neuroscience of dreaming, focusing on the brain regions and neurotransmitters involved in sleep cycles, particularly REM (Rapid Eye Movement) sleep, the stage most associated with vivid dreaming.

We'll examine theories surrounding memory consolidation and the role of the hippocampus and amygdala in dream formation. These regions are crucial for processing emotions and memories, and understanding their activity during sleep can shed light on how dream narratives, including those in reverse, might emerge. We'll also explore the possibility of disruptions in typical brainwave patterns during sleep as a potential contributing factor to retrograde dreaming experiences. Could atypical brainwave activity lead to a reversal of the typical narrative flow in dreams? This chapter seeks to lay a foundation for understanding the physiological underpinnings that may contribute to these unusual dream experiences.

Chapter 2: Deciphering the Symbolic Language: Interpreting the Imagery and Emotions

(SEO Keywords: Dream interpretation, dream symbols, symbolic meaning, dream analysis techniques, emotional processing, Jungian psychology, archetypes, subconscious communication)

Dreams are often described as a language of the subconscious, and retrograde dreams are no exception. This chapter focuses on the powerful symbolic nature of dream imagery and emotions within these backward-flowing narratives. We will explore various dream interpretation techniques, drawing on both psychological and spiritual perspectives.

We'll examine common dream symbols frequently found in retrograde dreams and analyze their potential meanings within the context of reversed time. The emotional tone of the dream is equally crucial. Is the dream filled with anxiety and fear, or does it convey a sense of peace and resolution? Understanding the emotional landscape of the dream can provide valuable clues to its underlying message. Jungian psychology, with its focus on archetypes and the collective unconscious, offers valuable insights into deciphering the symbolic language of dreams.

Chapter 3: Common Themes in Retrograde Dreams: Unpacking Recurring Motifs

(SEO Keywords: Recurring dreams, dream themes, common dream symbols, dream patterns, analyzing dream patterns, repetitive dreams, dream significance, understanding dream patterns)

Many dreamers experience recurring dreams, and retrograde dreams are no exception. This chapter explores the common themes and motifs that frequently appear in these backward narratives. We'll delve into recurring symbols, scenarios, and emotional patterns to identify common threads and understand their potential significance.

By analyzing recurring elements, we can begin to identify patterns that offer deeper insights into the dreamer's subconscious. Understanding these recurring motifs can help individuals unpack unresolved issues, anxieties, or desires lurking beneath the surface of their conscious awareness. This analysis will allow for a more personalized and in-depth understanding of the unique messages encoded in each individual's retrograde dreams.

Chapter 4: Retrograde Dreams and Personal Growth: Using Dreams for Self-Discovery

(SEO Keywords: Dream work, personal growth, self-discovery, dream journaling, dream reflection, dream interpretation for personal growth, using dreams for insight, therapeutic use of dreams)

Retrograde dreams, despite their often unsettling nature, can be powerful tools for personal growth

and self-discovery. This chapter explores the therapeutic potential of analyzing these dreams and utilizing the insights gained to promote positive change in waking life.

We'll examine how understanding the symbolism and emotional content of retrograde dreams can help individuals identify and address underlying issues, anxieties, and unresolved conflicts. This chapter will emphasize the importance of self-reflection and the integration of dream insights into conscious awareness. Techniques for utilizing dream analysis for personal transformation will be explored, empowering readers to harness the power of their dreams for positive change.

Chapter 5: Journaling and Dream Recall Techniques: Practical Strategies for Enhanced Awareness

(SEO Keywords: Dream journaling, dream recall, improving dream recall, dream recording, dream diary, techniques for remembering dreams, enhancing dream recall, dream memory)

Recall is often a significant challenge when it comes to analyzing dreams. This chapter focuses on practical strategies for improving dream recall and utilizing dream journaling as a tool for enhanced self-awareness.

We will explore various techniques for improving memory retention, including creating a conducive sleep environment, keeping a dream journal by the bedside, and incorporating mindfulness practices into the daily routine. Detailed guidelines on effective dream journaling will be provided, emphasizing the importance of documenting not only the dream's narrative but also the accompanying emotions and sensory details.

Chapter 6: Overcoming Negative Dream Associations: Transforming Fear into Understanding

(SEO Keywords: Negative dreams, dream anxiety, overcoming fear in dreams, interpreting negative dream imagery, managing dream anxiety, dream anxieties, fear in dreams, understanding negative emotions in dreams)

Many retrograde dreams can be emotionally charged and potentially unsettling. This chapter focuses on strategies for overcoming negative associations with these dreams and transforming feelings of fear and anxiety into a more constructive understanding of their underlying messages.

We'll discuss techniques for reframing negative dream imagery and emotional responses, exploring cognitive-behavioral approaches to address anxieties related to dreaming. The goal is to empower readers to move beyond a purely fear-based reaction and see their dreams as valuable sources of information about their inner world.

Chapter 7: Integrating Dream Insights into Waking Life: Practical Application and Manifestation

(SEO Keywords: Dream integration, applying dream insights, using dreams for change, practical application of dream analysis, manifesting dreams, incorporating dream messages into daily life, dream work techniques, translating dreams into action)

The final step in the process of understanding retrograde dreams lies in integrating the insights gleaned from dream analysis into waking life. This chapter explores strategies for translating dream symbols and emotional themes into practical actions and positive changes.

We'll examine how to identify recurring themes and patterns, and then use those themes to inform conscious decision-making, personal growth strategies, and even creative endeavors. The chapter will offer practical guidance on utilizing the wisdom gained from the dream realm to enhance one's waking life. It will focus on manifestation techniques, exploring ways to turn dream insights into reality.

Conclusion: Embracing the Power of Retrograde Dreaming

(SEO Keywords: Dream power, dream meaning, understanding dreams, dream benefits, personal transformation, positive use of dreams, dream significance, self-understanding through dreams)

This concluding chapter summarizes the key insights gained throughout the book and emphasizes the potential of retrograde dreams as a powerful tool for self-discovery and personal transformation. We'll reinforce the message that these seemingly unusual and sometimes frightening dreams offer a unique window into the subconscious mind, providing valuable clues for unlocking hidden potential and living a more fulfilling life. We'll leave the reader with a sense of empowerment, encouraging them to embrace the power of their dreams and actively engage with the messages they contain.

FAQs:

1. What if I can't remember my dreams? This is common. Employ the techniques in Chapter 5 to improve dream recall.
2. Are all retrograde dreams symbolic? While many are, some may simply reflect neurological processes.
3. How can I tell if a dream is truly "backward"? Pay attention to the narrative flow. Does the story unfold in reverse?
4. Can retrograde dreams predict the future? No, but they can reveal subconscious anxieties and desires that might influence your future actions.

5. Are retrograde dreams more common in certain personality types? There's no definitive research on this yet.
6. What if my retrograde dreams are consistently negative? Seek professional help if needed; Chapter 6 offers coping strategies.
7. Can I use retrograde dreams to solve problems in my waking life? Yes, by understanding the underlying issues revealed in the dreams.
8. Are there any specific symbols that always indicate something negative in a retrograde dream? No, symbolic meaning is highly personal and contextual.
9. Is it okay to ignore my retrograde dreams? While not strictly necessary, actively engaging with them can lead to valuable self-discovery.

9. Case Studies in Retrograde Dream Analysis: Real-Life Examples and Interpretations: Presents real-life examples of retrograde dreams and their interpretations, illustrating the practical application of the techniques discussed in the book.

like dreaming backwards: Backwards the Drowned Go Dreaming Carl Watson, 2012-04-01
Amongst the oil fumes and the briny dinge of the sea, greasy, tired, frustrated, I had a flash.

Suddenly, I had it all figured out-the psychology of despots and CEOs. I figured that in order for civilization to exist, people have to stay in one place, and so it seems somehow natural that the evolution of society would be to create an illusion of motion where none exists. Faster cars. Faster editing. Increased sensory stimulation. But all the while we are actually sitting more and more still. The population is placated by the feeling of progress, when in reality they are imprisoned. Even if we feel or strive to be utterly irresponsible, we're still somehow doing our job. Carl Watson evokes his desolation angels with great empathy and care, but also with ruthless candor. He writes like someone who pushed himself to the wall, then pushed through it to the void and came back with stories to tell. Here he reclaims the Seventies, one of the more desolate of recent epochs, with the clarity of Proust, the balefulness of Bodenheim, and the raw honesty of an Iggy song. -John Strausbaugh, author of *Black Like You* and *Sissy Nation* CW writes like he put his thumb in the air on some two-lane American highway that used to be an Indian Trail, where he got picked up by God. Like he has come back to the fire in the woods we have gathered around at the end of the world with our loved ones to tell us what he saw. -Andrew Huebner, author of *We Pierce, American By Blood* and *East of Bowery* With prose unfurling like cigarette smoke bleeding into that cloud of half-forgotten memories forever shadowing missed opportunities that hangs over a noontime dive somewhere during the twilight of the last blown century, heartbreak rock-n-roll on the radio crackling in exquisite precision between am stations and windswept interstates, Carl Watson daydreams before silent black-and-white televisions in SRO lobbies or as he drinks himself sober in crumbling Chicago tenements. Backwards the Drowned Go Dreaming explodes the bleary-eyed myth of the American road. -Donald Breckenridge, author of *This Young Girl Passing* Carl Watson's work is desolate poetry. He writes with sharp nostalgia for a past that really wasn't all that great. It feels like a stay in a down-and-out motel, but right on the other side of the paper-thin wall is transcendence. Watson never lets you forget that even in the most desperate situations, there is humor (even if it's mostly black) and greatness of the spirit. -Emily XYZ, United States of Poetry

It's a wonderful adventure and I highly recommend it.-Clarence Major, author of *Configurations* and *Juba to Jive* Acclaim for Dream Reader also by Anthony Shafon A book so unique in its combination of scholarship, clarity, and down-to-earth feeling about dreams that I find it hard to fully express the excitement and satisfaction I felt on reading it.-Montague Ullman, M.D., Clinical Professor Emeritus of Psychiatry, Albert Einstein College of Medicine, Author of *Working with Dreams* and *Dream Telepathy* Breathtaking . . . the single most complete and thorough analysis of contemporary dream theories yet written . . . Shafon has a keen sense for what people most want to know about dreams, and an admirable ability to explain difficult concepts without oversimplifying them.-Kelly Bulkeley, Ph.D., Past President, The Association for the Study of Dreams, Author of *The Wilderness of Dreams*

like dreaming backwards: Feeling Backward Heather Love, 2009-03-31 'Feeling Backward' weighs the cost of the contemporary move to the mainstream in lesbian and gay culture. It makes an effort to value aspects of historical gay experience that now threaten to disappear, branded as embarrassing evidence of the bad old days before Stonewall. Love argues that instead of moving on, we need to look backward.

like dreaming backwards: The Bourgeois Charm of Karl Marx & the Ideological Irony of American Jurisprudence Dana Neacsu, 2019-12-09 The Bourgeois Charm of Karl Marx & the Ideological Irony of American Jurisprudence employs a well-known body of work, Marx's, to explain the inevitable limits of scholarship, in hopes to encourage academic boldness, and diversity, especially within American jurisprudence. While scholarly meaning-making has been addressed in specific academic areas, mostly linguistics and philosophy, it has never been addressed in a

triangular relationship between the text (T1) and its instigator (S1), as well as its subsequent interpellator (S2). Furthermore, while addressed as a result of difference, it has never been addressed for today's liberal theory, which includes liberal jurisprudence, through the mirror of Marxist difference. Scholarship is the unique product of the instigator's private and public subjectivity, as all theory is aimed to be communicated and used by the scholarly community and beyond. Understanding its public life, textual instigators (S1) aim to control its meaning employing various research methods to observe reality and then to convey their narrative, or "philosophy". But meaning is not fixed; it is negotiated by S1 and those theories interpellate (S2), according to their own private and public subjectivity, which covers their ideology. Negotiated meaning is always a surprise to both S1 and S2, surprise which is both ironic and ideological. The book has ten chapters, an index and a list of references

like dreaming backwards: Dreams That Can Save Your Life Larry Burk, Kathleen O'Keefe-Kanavos, 2018-04-17 An exploration of dreams as a spiritual source of healing and inner guidance for your health and well-being • 2018 Nautilus Silver Award • Shares stories--confirmed by pathology reports--from subjects in medical research projects whose dreams diagnosed illness and helped heal their lives • Explores medical studies and ongoing research on the diagnostic power of precognitive dreams, including Dr. Burk's own medical research • Includes an introduction to dream journaling and interpretation techniques Your dreams can provide inner guidance filled with life-saving information. Since ancient Egypt and Greece, people have relied on the art of dreaming to diagnose illness and get answers to personal life challenges. Now, dreams are making a grand reappearance in the medical arena as recent scientific research and medical pathology reports validate the diagnostic abilities of precognitive dreams. Are we stepping back into the future as modern medical tests show dreams can be early warning signs of cancer and other diseases? Showcasing the important role of dreams and their power to detect and heal illness, Dr. Larry Burk and Kathleen O'Keefe-Kanavos share amazing research and true stories of physical and emotional healings triggered by dreams. The authors explore medical studies and ongoing research on the diagnostic power of precognitive dreams, including Dr. Burk's own research on dreams that come true and can be medically validated. They share detailed stories--all confirmed by pathology reports--from subjects in medical research projects whose dreams diagnosed illness and helped heal their lives, including Kathleen's own story as a three-time breast cancer survivor whose dreams diagnosed her cancer even when it was missed by her doctors. Alongside these stories of survival and faith, the authors also include an introduction to dream journaling and interpretation, allowing the reader to develop trust in their dreams as a spiritual source of healing and inner guidance.

like dreaming backwards: Dreams of Light Andrew Holecek, 2020-08-18 A world-renowned expert in lucid dreaming and Tibetan dream yoga guides us into the tradition's daytime practices, a complement to the nighttime practices taught in his previous book *Dream Yoga*. Most of us are absolutely certain that we're awake here and now—it's a given, right? Yet, according to Tibet's dream yoga tradition, ordinary waking life is no more real than the illusions of our nightly dreams. In his previous book *Dream Yoga*, Andrew Holecek guided us into Tibetan Buddhism's nocturnal path of lucid dreaming and other dimensions of sleeping consciousness. Now, with *Dreams of Light*, he offers us an in-depth, step-by-step guide to its daytime practices. Known as the "illusory form"

practices, these teachings include insights, meditations, and actions to help us realize the dreamlike nature of our lives. Through an immersive exploration of the tradition, beginners and seasoned practitioners alike will learn everything they need to deeply transform both their sleeping and waking hours. “If you’ve struggled to awaken in your dreams,” teaches Holecek, “these techniques will often spark spontaneous lucidity during sleep. And if you’re already a successful lucid dreamer, they will open you to new depths of experience throughout your day.” For those wishing to explore Tibetan Buddhism’s profound path for awakening to the true nature of reality—day or night—*Dreams of Light* shows us the way.

like dreaming backwards: Tabish Khair Cristina M. Gámez-Fernández, Om Prakash Dwivedi, 2014-03-17 This volume approaches Tabish Khair’s writings (both his theoretical proposals and his novels) from numerous different perspectives. Contributors engage from varied critical stances with Khair’s academic writings in a fruitful dialogue, analyze his social, political and religious concerns, and elucidate his characteristics as a novelist and his literary powers. Furthermore, this volume is highly enriched by the presence of a hitherto unpublished play by Khair, entitled *The One Percent Agency*, which focuses on a tourism agency specializing in bringing “Bollywood”-style Indian weddings to foreign tourists. In the process, it becomes a satirical commentary on the packaging of international tourism as well as the ability of common Indians to adapt and thrive. It depicts the “metropolitan” India of the new millennium and inter-community relations in subtle and powerful ways.

like dreaming backwards: Goodbye Charles Gabriel Davis, 2012-09-30 One Act Play, Dark Comedy. Cast: 3 women, 2 men. Synopsis: Jill’s husband Charles mysteriously disappears after she refuses to grant him a divorce. Concerned something has happened to her husband, Jill follows a string of clues to try and find out the secret Charles was keeping from her.

like dreaming backwards: Olga Dies Dreaming Xochitl Gonzalez, 2022-01-04 NEW YORK TIMES BESTSELLER • A NEW YORK TIMES NOTABLE BOOK • WINNER OF THE BROOKLYN PUBLIC LIBRARY PRIZE • INTERNATIONAL LATINO BOOK AWARD FINALIST A blazing talent debuts with the tale of a status-driven wedding planner grappling with her social ambitions, absent mother, and Puerto Rican roots—all in the wake of Hurricane Maria NAMED ONE OF THE BEST BOOKS OF THE YEAR: Kirkus, Washington Post, TIME, NPR, Vogue, Esquire, Book Riot, Goodreads, EW, Reader’s Digest, and more! Don’t underestimate this new novelist. She’s jump-starting the year with a smart romantic comedy that lures us in with laughter and keeps us hooked with a fantastically engaging story. —The Washington Post It’s 2017, and Olga and her brother, Pedro “Prieto” Acevedo, are boldfaced names in their hometown of New York. Prieto is a popular congressman representing their gentrifying Latinx neighborhood in Brooklyn, while Olga is the tony wedding planner for Manhattan’s power brokers. Despite their alluring public lives, behind closed doors things are far less rosy. Sure, Olga can orchestrate the love stories of the 1 percent but she can’t seem to find her own. . . until she meets Matteo, who forces her to confront the effects of long-held family secrets. Olga and Prieto’s mother, Blanca, a Young Lord turned radical, abandoned her children to advance a militant political cause, leaving them to be raised by their grandmother. Now, with the winds of hurricane season, Blanca has come barreling back into their lives. Set against the backdrop of New York City in the months surrounding the most devastating hurricane in Puerto Rico’s history, Xochitl Gonzalez’s *Olga Dies Dreaming* is a story that examines political corruption, familial strife, and the very notion of the American dream—all while asking what it really means to weather a storm.

like dreaming backwards: Long Way Down Jason Reynolds, 2017-10-24 “An intense snapshot of the chain reaction caused by pulling a trigger.” —Booklist (starred review) “Astonishing.” —Kirkus Reviews (starred review) “A tour de force.” —Publishers Weekly (starred review) A Newbery Honor Book A Coretta Scott King Honor Book A Printz Honor Book A Time Best YA Book of All Time (2021) A Los Angeles Times Book Prize Winner for Young Adult Literature Longlisted for the National Book Award for Young People’s Literature Winner of the Walter Dean Myers Award An Edgar Award Winner for Best Young Adult Fiction Parents’ Choice Gold Award Winner An Entertainment Weekly Best YA Book of 2017 A Vulture Best YA Book of 2017 A BuzzFeed Best YA Book of 2017 An ode to

Put the Damn Guns Down, this is New York Times bestselling author Jason Reynolds's electrifying novel that takes place in sixty potent seconds—the time it takes a kid to decide whether or not he's going to murder the guy who killed his brother. A cannon. A strap. A piece. A biscuit. A burner. A heater. A chopper. A gat. A hammer A tool for RULE Or, you can call it a gun. That's what fifteen-year-old Will has shoved in the back waistband of his jeans. See, his brother Shawn was just murdered. And Will knows the rules. No crying. No snitching. Revenge. That's where Will's now heading, with that gun shoved in the back waistband of his jeans, the gun that was his brother's gun. He gets on the elevator, seventh floor, stoked. He knows who he's after. Or does he? As the elevator stops on the sixth floor, on comes Buck. Buck, Will finds out, is who gave Shawn the gun before Will took the gun. Buck tells Will to check that the gun is even loaded. And that's when Will sees that one bullet is missing. And the only one who could have fired Shawn's gun was Shawn. Huh. Will didn't know that Shawn had ever actually USED his gun. Bigger huh. BUCK IS DEAD. But Buck's in the elevator? Just as Will's trying to think this through, the door to the next floor opens. A teenage girl gets on, waves away the smoke from Dead Buck's cigarette. Will doesn't know her, but she knew him. Knew. When they were eight. And stray bullets had cut through the playground, and Will had tried to cover her, but she was hit anyway, and so what she wants to know, on that fifth floor elevator stop, is, what if Will, Will with the gun shoved in the back waistband of his jeans, MISSES. And so it goes, the whole long way down, as the elevator stops on each floor, and at each stop someone connected to his brother gets on to give Will a piece to a bigger story than the one he thinks he knows. A story that might never know an END...if Will gets off that elevator. Told in short, fierce staccato narrative verse, Long Way Down is a fast and furious, dazzlingly brilliant look at teenage gun violence, as could only be told by Jason Reynolds.

like dreaming backwards: Verity Colleen Hoover, 2021-10-05 Whose truth is the lie? Stay up all night reading the sensational psychological thriller that has readers obsessed, from the #1 New York Times bestselling author of Too Late and It Ends With Us. #1 New York Times Bestseller · USA Today Bestseller · Globe and Mail Bestseller · Publishers Weekly Bestseller Lowen Ashleigh is a struggling writer on the brink of financial ruin when she accepts the job offer of a lifetime. Jeremy Crawford, husband of bestselling author Verity Crawford, has hired Lowen to complete the remaining books in a successful series his injured wife is unable to finish. Lowen arrives at the Crawford home, ready to sort through years of Verity's notes and outlines, hoping to find enough material to get her started. What Lowen doesn't expect to uncover in the chaotic office is an unfinished autobiography Verity never intended for anyone to read. Page after page of bone-chilling admissions, including Verity's recollection of the night her family was forever altered. Lowen decides to keep the manuscript hidden from Jeremy, knowing its contents could devastate the already grieving father. But as Lowen's feelings for Jeremy begin to intensify, she recognizes all the ways she could benefit if he were to read his wife's words. After all, no matter how devoted Jeremy is to his injured wife, a truth this horrifying would make it impossible for him to continue loving her.

like dreaming backwards: A Visionary Guide to Lucid Dreaming Lee Adams, 2021-05-04 • Provides an extensive inventory of beginning, intermediate, and advanced tools and practices for meaningful lucid dreamwork and shows how dreams can shape our conscious reality if we incorporate them into waking life • Offers guidance to help you overcome mental or physical obstacles, including ways to stop sleep paralysis • Examines supplements to aid lucid dreaming practice and increase the vividness and recall of dreams Dreams offer a gateway into our psyche. Through lucid dreaming--when you have conscious awareness during sleep--you can access and interact with the subconscious mind for greater self-awareness, personal development, and transformation. In this step-by-step guide to dreamwork, Lee Adams provides tools and techniques for encouraging, remembering, and using lucid dreams for personal growth as well as how to have big dreams that leave a lasting impact. Beginning with an overview of the history of lucid dreaming, he shares tried-and-true foundational practices to get you started--practices for before sleep, during sleep, and after dreaming. Drawing upon Jungian depth psychology, recent research in neuroscience, and years of personal dream practice, Adams then offers an extensive inventory of

intermediate and advanced methods to support meaningful dreamwork, such as the Wake Induced Lucid Dreams technique (WILD), where you fall asleep while conscious and transport your active awareness into a dream state. He also explores dream companions, symbols of the unconscious mind, dream interpretation, and working with the shadow side of the self. He examines how dreams can shape our conscious reality if we incorporate them or their symbols into waking life. He offers guidance to help you overcome any mental or physical obstacles you may encounter, including ways to stop sleep paralysis. He also examines supplements to aid lucid dreaming practice, improve dream recall, and increase the vividness of dreams, such as Alpha-GPC, 5-HTP, Silene undulata, Mugwort, the mushroom Lion's Mane, and Galantamine. With this practical guide, you can ignite your mind's capacity to wake up to your own dreams and restructure your world to be more attuned to your deeper self.

like dreaming backwards: The Artist's Way Julia Cameron, 2002-03-04 With its gentle affirmations, inspirational quotes, fill-in-the-blank lists and tasks — write yourself a thank-you letter, describe yourself at 80, for example — The Artist's Way proposes an egalitarian view of creativity: Everyone's got it.—The New York Times Morning Pages have become a household name, a shorthand for unlocking your creative potential—Vogue Over four million copies sold! Since its first publication, The Artist's Way phenomena has inspired the genius of Elizabeth Gilbert and millions of readers to embark on a creative journey and find a deeper connection to process and purpose. Julia Cameron's novel approach guides readers in uncovering problems areas and pressure points that may be restricting their creative flow and offers techniques to free up any areas where they might be stuck, opening up opportunities for self-growth and self-discovery. The program begins with Cameron's most vital tools for creative recovery – The Morning Pages, a daily writing ritual of three pages of stream-of-conscious, and The Artist Date, a dedicated block of time to nurture your inner artist. From there, she shares hundreds of exercises, activities, and prompts to help readers thoroughly explore each chapter. She also offers guidance on starting a "Creative Cluster" of fellow artists who will support you in your creative endeavors. A revolutionary program for personal renewal, The Artist's Way will help get you back on track, rediscover your passions, and take the steps you need to change your life.

like dreaming backwards: The Sense of an Ending Julian Barnes, 2011-10-05 BOOKER PRIZE WINNER • NATIONAL BESTSELLER • A novel that follows a middle-aged man as he contends with a past he never much thought about—until his closest childhood friends return with a vengeance: one of them from the grave, another maddeningly present. A novel so compelling that it begs to be read in a single setting, The Sense of an Ending has the psychological and emotional depth and sophistication of Henry James at his best, and is a stunning achievement in Julian Barnes's oeuvre. Tony Webster thought he left his past behind as he built a life for himself, and his career has provided him with a secure retirement and an amicable relationship with his ex-wife and daughter, who now has a family of her own. But when he is presented with a mysterious legacy, he is forced to revise his estimation of his own nature and place in the world.

like dreaming backwards: Precognitive Dreamwork and the Long Self Eric Wargo, 2021-03-02 • Outlines a set of clear principles to help guide dreamworkers, illustrated through real precognitive dream experiences • Shows how to detect precognitive dreams through their characteristic features, explaining how dreams relate to memory and why dreams about future experiences are often symbolic or distorted • Explores the mind-blowing implications of precognition for our lives, including how our present thoughts actually shape--or shaped--our past Once only the stuff of science fiction, evidence has grown that precognition--glimpses of your future in dreams and visions and being influenced subtly in waking life by what is to come--is real. Your future thoughts and feelings shape who you are now. And your present thoughts and feelings shape--or shaped--your past. In this accessible exploration of precognition, precognitive dreamwork, and a radically new biographical sensibility, the Long Self, that precognition awakens us to, Eric Wargo shows how dreamworkers can play the role of citizen scientists, adding to our understanding of this fascinating, almost unexplored dimension of human life. Wargo outlines a set of clear principles to guide

dreamworkers, each illustrated through real dreamers' experiences. Drawing on psychoanalysis and contemporary sleep science, he explores how precognition relates to memory, explaining why dreams of future experiences are often distorted and what those distortions probably mean. He discusses never-before-described dream features, including "time gimmicks" (symbols hinting at time distortion) and "calendrical resonance" (the tendency of dreams to foretell experiences exactly a year or years later). He describes why an understanding of precognition augments Jung's theory of synchronicity by highlighting our own role in producing meaningful coincidences in our waking lives. He also shows how precognition manifests in other states of consciousness like lucid dreams, out-of-body experiences, trance states, sleep paralysis, meditation, and hypnagogia. We are at a major turning point in science's understanding of time, causality, and the self. We are more than who we think we are from moment to moment--we are our past, present, and future simultaneously. When we understand this, a dream journal becomes a personal time machine, with mind-blowing discoveries in store for the traveler.

like dreaming backwards: Llewellyn's Complete Book of Lucid Dreaming Clare R. Johnson, 2017-10-08 Wake Up in Your Dreams and Live a Happier, More Lucid Life A lucid dream is a dream in which you become aware that you're dreaming. It's a powerful opportunity to solve problems, create new possibilities, take charge of your own healing, and explore the depths of reality. This book provides a range of practical techniques and activities to help you bring the creativity and super-conscious awareness of lucid dreaming into your life. Join international expert Clare R. Johnson as she shares the most up-to-date lucid dreaming techniques on how to get and stay lucid, guide dreams, resolve nightmares, deepen creativity, and integrate dream wisdom into everyday life. Drawing on cutting-edge science and psychology, this book is packed with inspiring stories of life-changing lucid dreams and fascinating insights into topics such as the ethics of dream sex, how to interact with lucid dream figures, and the nature of consciousness. Whether you're a person who barely remembers your dreams or a lifelong lucid dreamer, this in-depth guide is the perfect next step as you cultivate the power of lucid dreaming. Praise: Dr. Clare Johnson has energetically led the way in revealing the limitless practical and spiritual potential of lucid dreaming, so far-reaching it can change the world. Her clearly-written book is destined to become essential reading for all those interested in lucid dreaming. It points out the essential phenomena of lucid dreaming, and then amazes us by opening its extraordinary major vistas to us, that reveal the true glory and limitless potential of our inner universe. This is a significant book.—Dr. Keith Hearne, the scientist who provided the world's first proof of lucid dreaming in 1975, and inventor of the world's first Dream Machine

like dreaming backwards: Sand Talk Tyson Yunkaporta, 2020-05-12 A paradigm-shifting book in the vein of Sapiens that brings a crucial Indigenous perspective to historical and cultural issues of history, education, money, power, and sustainability—and offers a new template for living. As an indigenous person, Tyson Yunkaporta looks at global systems from a unique perspective, one tied to the natural and spiritual world. In considering how contemporary life diverges from the pattern of creation, he raises important questions. How does this affect us? How can we do things differently? In this thoughtful, culturally rich, mind-expanding book, he provides answers. Yunkaporta's writing process begins with images. Honoring indigenous traditions, he makes carvings of what he wants to say, channeling his thoughts through symbols and diagrams rather than words. He yarns with people, looking for ways to connect images and stories with place and relationship to create a coherent world view, and he uses sand talk, the Aboriginal custom of drawing images on the ground to convey knowledge. In Sand Talk, he provides a new model for our everyday lives. Rich in ideas and inspiration, it explains how lines and symbols and shapes can help us make sense of the world. It's about how we learn and how we remember. It's about talking to everyone and listening carefully. It's about finding different ways to look at things. Most of all it's about a very special way of thinking, of learning to see from a native perspective, one that is spiritually and physically tied to the earth around us, and how it can save our world. Sand Talk include 22 black-and-white illustrations that add depth to the text.

like dreaming backwards: The Night Before the Snow Day Natasha Wing, 2016-10-11

Could it be the night before a Snow Day? It's nighttime and snow is falling hard. Will the town be snowed in? Will there be a snow day? Odds are looking good in this newest Night Before book for the kids who dream of snowball fights, sledding, and the possibility that it may snow again tomorrow!

like dreaming backwards: Freedom Dreams Robin D.G. Kelley, 2002-06-27 Kelley unearths freedom dreams in this exciting history of renegade intellectuals and artists of the African diaspora in the twentieth century. Focusing on the visions of activists from C. L. R. James to Aime Cesaire and Malcolm X, Kelley writes of the hope that Communism offered, the mindscapes of Surrealism, the transformative potential of radical feminism, and of the four-hundred-year-old dream of reparations for slavery and Jim Crow. From 'the preeminent historian of black popular culture' (Cornel West), an inspiring work on the power of imagination to transform society.

like dreaming backwards: The Running Dream Wendelin Van Draanen, 2012-01-10 When Jessica is told she'll never run again, she puts herself back together—and learns to dream bigger than ever before. The acclaimed author of *Flipped* delivers a powerful and healing story. Jessica thinks her life is over when she loses a leg in a car accident. She's not comforted by the news that she'll be able to walk with the help of a prosthetic leg. Who cares about walking when you live to run? As she struggles to cope, Jessica feels that she's both in the spotlight and invisible. People who don't know what to say act like she's not there. Jessica's embarrassed to realize that she's done the same to a girl with CP named Rosa. A girl who is going to tutor her through all the math she's missed. A girl who sees right into the heart of her. With the support of family, friends, a coach, and her track teammates, Jessica may actually be able to run again. But that's not enough for her now. She doesn't just want to cross finish lines herself—she wants to take Rosa with her. "Inspirational. The pace of Van Draanen's prose matches Jessica's at her swiftest. Readers will zoom through the book just as Jessica blazes around the track. A lively and lovely story." —Kirkus Reviews

like dreaming backwards: I'm Thinking of Ending Things Iain Reid, 2016-06-14 Now a Netflix original movie, this deeply scary and intensely unnerving novel follows a couple in the midst of a twisted unraveling of the darkest unease. You will be scared. But you won't know why... I'm thinking of ending things. Once this thought arrives, it stays. It sticks. It lingers. It's always there. Always. Jake once said, "Sometimes a thought is closer to truth, to reality, than an action. You can say anything, you can do anything, but you can't fake a thought." And here's what I'm thinking: I don't want to be here. In this smart and intense literary suspense novel, Iain Reid explores the depths of the human psyche, questioning consciousness, free will, the value of relationships, fear, and the limitations of solitude. Reminiscent of Jose Saramago's early work, Michel Faber's cult classic *Under the Skin*, and Lionel Shriver's *We Need to Talk about Kevin*, "your dread and unease will mount with every passing page" (Entertainment Weekly) of this edgy, haunting debut. Tense, gripping, and atmospheric, *I'm Thinking of Ending Things* pulls you in from the very first page...and never lets you go.

like dreaming backwards: Dream Big, Little Pig! Kristi Yamaguchi, 2011-03-01 Inspire kids of all ages to never give up and always dream big with *Dream Big Little Pig*, the New York Times bestselling ice skating picture book from Olympic gold medalist Kristi Yamaguchi! Poppy is a pig with big dreams. She wants to be a star! But she soon discovers that's not as easy as it sounds. It's only when Poppy feels the magic of gliding and sliding, swirling and twirling on ice that she truly believes in herself: Poppy, star of the rink! *Dream Big Little Pig* is the perfect book to inspire little girls with big dreams. It makes a wonderful ice skating gift for girls!

like dreaming backwards: The Origin of Consciousness in the Breakdown of the Bicameral Mind Julian Jaynes, 2000-08-15 National Book Award Finalist: "This man's ideas may be the most influential, not to say controversial, of the second half of the twentieth century."—Columbus Dispatch At the heart of this classic, seminal book is Julian Jaynes's still-controversial thesis that human consciousness did not begin far back in animal evolution but instead is a learned process that

came about only three thousand years ago and is still developing. The implications of this revolutionary scientific paradigm extend into virtually every aspect of our psychology, our history and culture, our religion—and indeed our future. “Don’t be put off by the academic title of Julian Jaynes’s *The Origin of Consciousness in the Breakdown of the Bicameral Mind*. Its prose is always lucid and often lyrical...he unfolds his case with the utmost intellectual rigor.”—*The New York Times* “When Julian Jaynes . . . speculates that until late in the twentieth millennium BC men had no consciousness but were automatically obeying the voices of the gods, we are astounded but compelled to follow this remarkable thesis.”—John Updike, *The New Yorker* “He is as startling as Freud was in *The Interpretation of Dreams*, and Jaynes is equally as adept at forcing a new view of known human behavior.”—*American Journal of Psychiatry*

like dreaming backwards: *The Day I Found You* Pedro Chagas Freitas, 2018-09-06 An unforgettable book from Portugal's bestselling author that promises to change how we read about love The restaurant is crowded and noisy. The man sits by the window, watching the grey sky, bored, as he is every Monday morning. Suddenly he turns and she's there, standing in front of him. Years have passed since he last saw her, since the day he left, without an explanation, without a reason. Only now does he realise he never stopped loving her, even for a second. Pedro Chagas Freitas takes the reader on a journey to discover the truth about love; the kind of love that touches, envelops and thrills you, that conceals and reveals, that wounds and heals, that seizes you and sets you free.

like dreaming backwards: *I Love Jesus, But I Want to Die* Sarah J. Robinson, 2021-05-11 A compassionate, shame-free guide for your darkest days “A one-of-a-kind book . . . to read for yourself or give to a struggling friend or loved one without the fear that depression and suicidal thoughts will be minimized, medicalized or over-spiritualized.”—Kay Warren, cofounder of Saddleback Church What happens when loving Jesus doesn’t cure you of depression, anxiety, or suicidal thoughts? You might be crushed by shame over your mental illness, only to be told by well-meaning Christians to “choose joy” and “pray more.” So you beg God to take away the pain, but nothing eases the ache inside. As darkness lingers and color drains from your world, you’re left wondering if God has abandoned you. You just want a way out. But there’s hope. In *I Love Jesus, But I Want to Die*, Sarah J. Robinson offers a healthy, practical, and shame-free guide for Christians struggling with mental illness. With unflinching honesty, Sarah shares her story of battling depression and fighting to stay alive despite toxic theology that made her afraid to seek help outside the church. Pairing her own story with scriptural insights, mental health research, and simple practices, Sarah helps you reconnect with the God who is present in our deepest anguish and discover that you are worth everything it takes to get better. Beautifully written and full of hard-won wisdom, *I Love Jesus, But I Want to Die* offers a path toward a rich, hope-filled life in Christ, even when healing doesn’t look like what you expect.

like dreaming backwards: *Surfing Uncertainty* Andy Clark, 2016 Exciting new theories in neuroscience, psychology, and artificial intelligence are revealing minds like ours as predictive minds, forever trying to guess the incoming streams of sensory stimulation before they arrive. In this up-to-the-minute treatment, philosopher and cognitive scientist Andy Clark explores new ways of thinking about perception, action, and the embodied mind.

like dreaming backwards: *Norwegian Wood* Haruki Murakami, 2010-08-11 From the bestselling author of *Kafka on the Shore*: A magnificent coming-of-age story steeped in nostalgia, “a masterly novel” (*The New York Times Book Review*) blending the music, the mood, and the ethos that were the sixties with a young man’s hopeless and heroic first love. Now with a new introduction by the author. Toru, a serious young college student in Tokyo, is devoted to Naoko, a beautiful and introspective young woman, but their mutual passion is marked by the tragic death of their best friend years before. As Naoko retreats further into her own world, Toru finds himself drawn to a fiercely independent and sexually liberated young woman. Stunning and elegiac, *Norwegian Wood* first propelled Haruki Murakami into the forefront of the literary scene.

like dreaming backwards: *Long Division* Kiese Laymon, 2021-06-01 Winner of the NAACP

Image Award for Fiction From Kiese Laymon, author of the critically acclaimed memoir *Heavy*, comes a “funny, astute, searching” (The Wall Street Journal) debut novel about Black teenagers that is a satirical exploration of celebrity, authorship, violence, religion, and coming of age in post-Katrina Mississippi. Written in a voice that’s alternately humorous, lacerating, and wise, *Long Division* features two interwoven stories. In the first, it’s 2013: after an on-stage meltdown during a nationally televised quiz contest, fourteen-year-old Citoyen “City” Coldson becomes an overnight YouTube celebrity. The next day, he’s sent to stay with his grandmother in the small coastal community of Melahatchie, where a young girl named Baize Shephard has recently disappeared. Before leaving, City is given a strange book without an author called *Long Division*. He learns that one of the book’s main characters is also named City Coldson—but *Long Division* is set in 1985. This 1985-version of City, along with his friend and love interest, Shalaya Crump, discovers a way to travel into the future, and steals a laptop and cellphone from an orphaned teenage rapper called...Baize Shephard. They ultimately take these items with them all the way back to 1964, to help another time-traveler they meet to protect his family from the Ku Klux Klan. City’s two stories ultimately converge in the work shed behind his grandmother’s house, where he discovers the key to Baize’s disappearance. Brilliantly “skewering the disingenuous masquerade of institutional racism” (Publishers Weekly), this dreamlike “smart, funny, and sharp” (Jesmyn Ward), novel shows the work that young Black Americans must do, while living under the shadow of a history “that they only gropingly understand and must try to fill in for themselves” (The Wall Street Journal).

like dreaming backwards: Counting Backwards: A Doctor's Notes on Anesthesia Henry Jay Przybylo MD, 2017-11-14 “An engaging and illuminating exploration of the invisible medical specialty that is anesthesia.... *Counting Backwards* pulls back the veil on the very act of being alive.” —Danielle Ofri, MD, PhD, author of *What Patients Say, What Doctors Hear* For many of the 40 million Americans who undergo it each year, anesthesia is the source of great fear and fascination. In *Counting Backwards*, pediatric anesthesiologist Dr. Henry Jay Przybylo delivers an unforgettable account of the procedure’s daily dramas and fundamental mysteries. Przybylo has administered anesthesia more than 30,000 times over his thirty-year career: on newborn babies, screaming toddlers, sullen teenagers, even a gorilla. Filled with intense moments of near-disaster, life-saving successes, and simple grace, *Counting Backwards* is for anyone curious about what happens after we lose consciousness.

like dreaming backwards: Queenie Candice Carty-Williams, 2019-03-19 *SOON TO BE A HULU ORIGINAL SERIES* *ONE of NPR’s and TIME’s BEST BOOKS of the YEAR * NAMED A MOST ANTICIPATED BOOK of the YEAR by WOMAN’S DAY, NEWSDAY, PUBLISHERS WEEKLY, BUSTLE, and BOOK RIOT!* “A book that sneaks up on you...I am hooked.” —Roxane Gay, New York Times bestselling author This acclaimed and “welcome debut from a seriously talented author” (New York Post) is a disarmingly honest, unapologetically black, and undeniably witty novel that will speak to those who have gone looking for love and found something very different in its place. Queenie Jenkins is a twenty-five-year-old Jamaican British woman living in London, straddling two cultures and slotting neatly into neither. She works at a national newspaper, where she’s constantly forced to compare herself to her white middle class peers. After a messy break up from her long-term white boyfriend, Queenie seeks comfort in all the wrong places...including several hazardous men who do a good job of occupying brain space and a bad job of affirming self-worth. As Queenie careens from one questionable decision to another, she finds herself wondering, “What are you doing? Why are you doing it? Who do you want to be?”—all of the questions today’s woman must face in a world trying to answer them for her. “A must-read novel about sex, selfhood, and the best friendships that get us through it all” (Candace Bushnell, New York Times bestselling author), *Queenie* is a remarkably relatable exploration of what it means to be a modern woman searching for meaning in today’s world.

like dreaming backwards: You Must Be Dreaming Barbara Noël, 1993-11 Compelling...Fascinating...YOU MUST BE DREAMING provides a harrowing vision of the dark side of the helping professions. THE BOSTON GLOBE When singer/composer Barbara Noel regained

consciousness earlier than usual during one of her therapy sessions, she discovered her esteemed doctor was raping her. This is the story of her uphill fight for justice. From its shocking beginning to its haunting conclusion, *YOU MUST BE DREAMING* is the extraordinary journey of a gifted young woman who fell victim to the depraved, perverted lusts of a powerful and sinister man--and dared to expose him.

like dreaming backwards: *Before They Are Hanged* Joe Abercrombie, 2015-09-08 The second novel in the wildly popular First Law Trilogy from New York Times bestseller Joe Abercrombie. Superior Glokta has a problem. How do you defend a city surrounded by enemies and riddled with traitors, when your allies can by no means be trusted, and your predecessor vanished without a trace? It's enough to make a torturer want to run -- if he could even walk without a stick. Northmen have spilled over the border of Angland and are spreading fire and death across the frozen country. Crown Prince Ladisla is poised to drive them back and win undying glory. There is only one problem -- he commands the worst-armed, worst-trained, worst-led army in the world. And Bayaz, the First of the Magi, is leading a party of bold adventurers on a perilous mission through the ruins of the past. The most hated woman in the South, the most feared man in the North, and the most selfish boy in the Union make a strange alliance, but a deadly one. They might even stand a chance of saving mankind from the Eaters -- if they didn't hate each other quite so much. Ancient secrets will be uncovered. Bloody battles will be won and lost. Bitter enemies will be forgiven -- but not before they are hanged. First Law Trilogy The Blade Itself Before They Are Hanged Last Argument of Kings For more from Joe Abercrombie, check out: Novels in the First Law world Best Served Cold The Heroes Red Country

like dreaming backwards: *The Most Fun We Ever Had* Claire Lombardo, 2021-04-06 NEW YORK TIMES BEST SELLER • “A gripping and poignant ode to a messy, loving family in all its glory.” —Madeline Miller, bestselling author of *Circe* In this “rich, complex family saga” (USA Today) full of long-buried family secrets, Marilyn Connolly and David Sorenson fall in love in the 1970s, blithely ignorant of all that awaits them. By 2016, they have four radically different daughters, each in a state of unrest. Wendy, widowed young, soothes herself with booze and younger men; Violet, a litigator turned stay-at-home-mom, battles anxiety and self-doubt; Liza, a neurotic and newly tenured professor, finds herself pregnant with a baby she's not sure she wants by a man she's not sure she loves; and Grace, the dawdling youngest daughter, begins living a lie that no one in her family even suspects. With the unexpected arrival of young Jonah Bendt—a child placed for adoption by one of the daughters fifteen years before—the Sorensens will be forced to reckon with the rich and varied tapestry of their past. As they grapple with years marred by adolescent angst, infidelity, and resentment, they also find the transcendent moments of joy that make everything else worthwhile.
