mills and boon novels pdf: Pursuing Happiness: Reading American Romance as Political Fiction Laura Vivanco, 2016-02-01 The dominance of popular romance in the United States fiction market suggests that its trends and themes may reflect the politics of a significant proportion of the population. 'Pursuing Happiness' explores some of the choices, beliefs and assumptions which shape the politics of American Romance novels. In particular, it focuses on what romances reveal about American attitudes towards work, the West, race, gender, community cohesion, ancestral "roots" and a historical connection (or lack of it) to the land.

mills and boon novels pdf: Love, Language, Place, and Identity in Popular Culture María Ramos-García, Laura Vivanco, 2020-01-31 *Love, Language, Place, and Identity in Popular Culture: Romancing the Other* explores the varied representations of Otherness in romance novels and other fiction with strong romantic plots. Contributors' approaches range from sociolinguistics to cultural studies, and the texts analyzed are set on four continents, with particular emphasis on Caribbean and Atlantic islands. What all the essays have in common is the exploration of representations of the Other, be it in an inter-racial or inter-cultural relationship. Chapters are divided into two parts; the first examines place, travel, history, and language in 20th-century texts; while the second explores tensions and transformations in the depiction of Otherness, mainly in texts published in the early 21st century. This book reveals that even at the end of the 20th century, these texts display neocolonialist attitudes towards the Other. While more recent texts show noticeable changes in attitudes, these changes can often fall short, as stereotypes and prejudices are often still present, just below the surface, in popular novels. The understudied field of popular romance, in which the Other is frequently present as a love interest, proves to be a fruitful area in which to explore the potential and the realities of the treatment of Otherness in popular culture. Scholars of literature, communication, romance, and rhetoric will find this book particularly useful.

mills and boon novels pdf: International Handbook of Love Claude-Hélène Mayer, Elisabeth Vanderheiden, 2021-05-04 This handbook includes state-of-the-art research on love in classical, modern and postmodern perspectives. It expands on previous literature and explores topics around love from new cultural, intercultural and transcultural approaches and across disciplines. It provides insights into various love concepts, like romantic love, agape, and eros in their cultural embeddedness, and their changes and developments in specific cultural contexts. It also includes discussions on postmodern aspects with regard to love and love relationships, such as digitalisation, globalisation and the fourth industrial revolution. The handbook covers a vast range of topics in relation to love: aging, health, special needs, sexual preferences, spiritual practice, subcultures, family and other relationships, and so on. The chapters look at love not only in terms of the universal concept and in private, intimate relationships, but apply a broad concept of love which can also, for example, be referred to in postmodern workplaces. This volume is of interest to a wide

readership, including researchers, practitioners and students of the social sciences, humanities and behavioural sciences. In the 1970s through the 90s, I was told that globalization was homogenizing cultures into a worldwide monoculture. This volume, as risky and profound as the many adventures of love across our multiplying cultures are, proves otherwise. The authors' revolutionary and courageous work will challenge our sensibilities and expand the boundaries of what we understand what love is. But that's what love does: It communicates what is; offers what can be; and pleads for what must be. I know you'll enjoy this wonderful book as much as I do! Jeffrey Ady, Associate Professor (retired), Public Administration Program, University of Hawaii at Manoa, Founding Fellow, International Academy for Intercultural Research

The International Handbook of Love is far more than a traditional compendium. It is a breath-taking attempt to synthesize our anthropological and sociological knowledge on love. It illuminates topics as diverse as Chinese love, one-night stands, teen romance or love of leaders and many more. This is a definitive reference in the field of love studies. Eva Illouz, author of *The End of Love: A sociology of Negative relationships*. Oxford University Press. "This is not a volume to be read in a single sitting (though I almost did, due to a protracted hospital stay), nor is it romantic or inspirational reading (though, in some cases, I had hoped for more narrative examples and case studies. Rather it is a highly diverse scholarly effort, a massive resource collection of research papers on love in a variety of contexts, personal and professional settings, and cultures. The work is well referenced providing a large number of resources for deeper exploration. We owe our thanks to the authors and editors of this "handbook" for work well done, though that word in the title should not lead readers to suspect that, enlightening as it is, this book is a vade mecum or practical tour guide that provides ready solutions to the vicissitudes and challenges of our love lives!" mills and boon novels pdf: For Love and Money: the Literary Art of the Harlequin Mills and Boon Romance Laura Vivanco, 2011-01-01 Laura Vivanco's study challenges the idea that Harlequin Mills & Boon romances are merely mass-produced commodities, churned out in accordance with a strict and unchanging formula. She argues that many are well-written, skilfully crafted works, and that some are small masterpieces. *For Love and Money* demonstrates the variety that exists beneath the covers of Harlequin Mills & Boon romances. They range from paranormal romances to novels resembling chick lit, and many have addressed serious issues, including the plight of post-Second World War refugees, threats to marine mammals, and HIV/AIDS. The genre draws inspiration from Shakespearean comedies and Austen's novels, as well as from other forms of popular culture. "Laura Vivanco's 'For Love and Money' is an impressive study of the popular fiction of Harlequin Mills and Boon that is a must read for any student of popular fiction and for those who write and love the genre" —Liz Fielding, author of over 50 Harlequin Mills & Boon romances. "Deep learning, wide reading, and clear thinking are very much in evidence in Vivanco's exploration of HM&B. A welcome addition to popular romance criticism." — Professor Pamela Regis, author of 'A Natural History of the Romance Novel'. Laura Vivanco's analysis of the category romance is both meticulous and inspiring. And while Vivanco limits her examples and discussions to category romances by Harlequin Mills & Boon and the HQN imprint, her application of Frye's mimetic modes begs for expansion to texts and authors across the genre. This piece of literary criticism should serve as a template for romance scholars to move from defending the genre to discussing its values and complexity as a literary art. — Maryan Wherry, 'Journal of Popular Romance Studies'

mills and boon novels pdf: New Frontiers in Popular Romance Susan Fanetti, 2022-06-13 In the twenty-first century, the romance genre has gained a growing academic response, including the creation of the International Association for the Study of Popular Romance. Popular romance has long been so ignored and maligned that seemingly every scholarly work on it opens with a lengthy defense of the genre and its value for academic study. Even the early scholarly works on the genre approach it in ways that, while primarily respectful, make sweeping generalizations about popular romance, its texts, and its readers. This essay collection examines the position of the romance genre in the twenty-first century, and the ways in which romance responds to and influences the culture and community in which it exists. Essays are divided into six sections, which cover the genre's relationship with masculinity, the importance of consent, historical romance, representation, social status and web-based romance fiction.

mills and boon novels pdf: On the move Aitor Ibarrola-Armendariz, Jon Ortiz de Urbina Arruabarrena, 2016-07-29 This volume brings together a selection of the papers and round tables delivered at the 39th AEDEAN Conference, held at the University of Deusto in November 2015. The essays in *On the Move: Glancing Backwards to Build a Future in English Studies* often begin with typically-academic gestures such as retrieving a classic text and finding new ways of studying its genre or characterization; or remarking how certain ungrammatical constructions have gone frequently unnoticed—even in well-known texts—for various reasons; or entangling oneself in contentions about the adequacy of dissecting a literary text or linguistic problem by using innovative analytical tools. In all cases, though, there is the intention of putting forth certain views and notions that will help future scholars to deal in a better light with the dilemmas regularly encountered in literary, linguistic and cultural studies. The book opens with three essays by professors Bartholomae, Pullum and Río, who demonstrate not only their mastery in their respective subjects but also their ability to tailor their contents to multifarious audiences. The next two sections represent the main body of the e-book, with nearly forty contributions on both literature and cultural studies (Part II) and language and linguistics (Part III). These short academic pieces are a representative showcase of the research being done lately in the different areas of expertise. The last section of the volume gathers together the results of four research projects dealing with such engaging topics as postcolonial crime fiction or forgotten texts by Anglo writers about the Spanish Civil War. It is hard to think of any potential reader schooled in English Studies who will not find

something suitable to their interests and tastes in this volume.

mills and boon novels pdf: Desert Passions Hsu-Ming Teo, 2012-11-15 The Sheik—E. M. Hull's best-selling novel that became a wildly popular film starring Rudolph Valentino—kindled "sheik fever" across the Western world in the 1920s. A craze for all things romantically "Oriental" swept through fashion, film, and literature, spawning imitations and parodies without number. While that fervor has largely subsided, tales of passion between Western women and Arab men continue to enthrall readers of today's mass-market romance novels. In this groundbreaking cultural history, Hsu-Ming Teo traces the literary lineage of these desert romances and historical bodice rippers from the twelfth to the twenty-first century and explores the gendered cultural and political purposes that they have served at various historical moments. Drawing on "high" literature, erotica, and popular romance fiction and films, Teo examines the changing meanings of Orientalist tropes such as crusades and conversion, abduction by Barbary pirates, sexual slavery, the fear of renegades, the Oriental despot and his harem, the figure of the powerful Western concubine, and fantasies of escape from the harem. She analyzes the impact of imperialism, decolonization, sexual liberation, feminism, and American involvement in the Middle East on women's Orientalist fiction. Teo suggests that the rise of female-authored romance novels dramatically transformed the nature of Orientalism because it feminized the discourse; made white women central as producers, consumers, and imagined actors; and revised, reversed, or collapsed the binaries inherent in traditional analyses of Orientalism.

mills and boon novels pdf: Creating Destruction , 2011-01-01 This volume offers new and fascinating insights into some of the most urgent and relevant dimensions of violence in our time. Specialists from a broad range of disciplines explore some of the reasons and ways in which humans choose to harm one another. The two sections of the book engage a common theme, namely how ideological constructions influence, facilitate, and shape the understanding of our own involvement in violence. Whilst the first section focuses on one specific form of violence, namely genocide, the second explores our construction of violent images: verbally, visually, aurally, legally, socially, imaginably. This book should be required reading for anyone who wants to understand the multi-faceted and complex dimensions of violence in our contemporary, global world.

This edited collection explores the fracturing of couple culture but also its persistence. Looking at a variety of media sites—including film, television, popular print fiction, new media and new technologies—this volume's diverse range of contributors examine how mediated scenes of intimacy proliferate, while real-life experiences are cast in a newly uncertain light. The collection thus challenges a latent but growing tendency towards perceptions of romantic decline, in a variety of cultural contexts and with attention to the impact of COVID-19. This is an accessible and timely collection suitable for scholars in gender studies, media, cultural studies and communication studies.

mills and boon novels pdf: Popular Culture in Africa Stephanie Newell, Onookome Okome, 2013-11-12 This volume marks the 25th anniversary of Karin Barber's ground-breaking article, Popular Arts in Africa, which stimulated new debates about African popular culture and its defining categories. Focusing on performances, audiences, social contexts and texts, contributors ask how African popular cultures contribute to the formation of an episteme. With chapters on theater, Nollywood films, blogging, and music and sports discourses, as well as on popular art forms, urban and youth cultures, and gender and sexuality, the book highlights the dynamism and complexity of contemporary popular cultures in sub-Saharan Africa. Focusing on the streets of Africa, especially city streets where different cultures and cultural personalities meet, the book asks how the category of the people is identified and interpreted by African culture-producers, politicians, religious leaders, and by the people themselves. The book offers a nuanced, strongly historicized perspective in which African popular cultures are regarded as vehicles through which we can document ordinary people's vitality and responsiveness to political and social transformations.

mills and boon novels pdf: Edinburgh Companion to Charles Dickens and the Arts Claire Wood, Juliet John, 2024-05-31 The Edinburgh Companion to Charles Dickens and the Arts explores Dickens's rich and complex relationships with a myriad of art forms and the far-reaching resonance of his works across the arts overall. This volume reassesses Dickens's prescient philosophy of art, both through a historical and a present-day lens and in the context of debates about the cultural value of the arts. Across thirty-three original essays, it outlines the ways in which Dickens broke down oppositions between high and low art, money and the aesthetic, the extraordinary and the ordinary, and art for its own sake and the social good. In doing so, it considers how Dickens prefigured the arts of the future, including rap music, television, fanfiction and global cinema.

mills and boon novels pdf: Discursos e Identidades en la Ficción Romántica / Discourses and Identities in Romance Fiction María Isabel González-Cruz, 2022-03-01 Despreciado por la crítica por su condición de literatura popular y femenina, el género romántico no solo continúa imbatible en el mercado editorial con su elevado índice de ventas, sino que en las últimas décadas está siendo objeto de interesantes estudios académicos. Discursos e Identidades en la Ficción Romántica se suma a esta corriente, al abordar el análisis interdisciplinar de un corpus de novelas publicadas en lengua inglesa entre 1955 y 2004. Ambientados en las islas atlánticas de Madeira y Canarias, estos textos encierran una variedad de discursos que ponen de manifiesto una visión muy anglófona de los lugares visitados por las protagonistas. Además del esperado discurso de género, en sus páginas se detecta un discurso del paraíso que resalta el exotismo de las islas, despertando en ocasiones la concienciación medioambiental, aunque también se perciben actitudes lingüísticas e incluso raciales, a medida que las autoras indagan en el descubrimiento del Otro. Ni los personajes ni los narradores son ajenos al choque de identidades y al contacto lingüístico (anglo-español y anglo-portugués), de manera que los conflictos que generan la identidad nacional, la identidad de género y la identidad étnica se vislumbran claramente tras la aparente sencillez de la intriga amorosa de este tipo de novelas. Disdained by critics for its status as popular and feminine literature, romance fiction not only remains unbeatable in the publishing market in terms of sales,

but has also been the subject of interesting academic studies in recent decades. *Discourses and Identities in Romance Fiction* joins this trend by addressing the interdisciplinary analysis of a corpus of novels published in English between 1955 and 2004. Set on the Atlantic islands of Madeira and the Canaries, these texts develop a variety of discourses that reveal a very Anglophone vision of the places visited by their protagonists. In addition to the expected gender discourse, these romances tend to include a paradise narrative that highlights the exoticism of the islands, sometimes awakening environmental awareness. Linguistic and even racial attitudes also come to the forefront, as the writers explore and describe the features of the Other. Neither the characters nor the narrators are oblivious to the clash of identities and the linguistic contact (English-Spanish and English-Portuguese) exposed in this type of novels, revealing the conflicts generated by national, gender and/or ethnic identities behind the apparent simplicity of their love plots.

Fabrizio, 2018-05-16 *Horror Literature and Dark Fantasy: Challenging Genres* is a collection of scholarly essays intended to address the parent whose unreasoning opposition to horror entails its removal from a school curriculum, the school administrator who sees little or no redeeming literary value in horror, and the teacher who wants to use horror to teach critical literacy skills but does not know how to do so effectively. The essays herein are intended to offer opportunities for teachers in secondary schools and higher education to enrich their classes through a non-canonical approach to literary study. This book is a deliberate attempt to enlarge the conversation surrounding works of horror and argue for their inclusion into school curricula to teach students critical literacy skills.
