Although the relationship of pilgrimage to short-term mission has been previously considered, it's been invariably dismissed: understood in terms of personal spirituality while its social applications and biblical images have been overlooked. Transcending the inner journey, pilgrimage is crossing boundaries, following God in unfamiliar places, both being and befriending the stranger, and walking alongside one another. As the imitation of Christ, pilgrimage embodies humility, service, love, and compassion as well as our vulnerability with others. Espousing the union of God, self, and the Other as the objective of the Christian life, the book casts the mission partnership as one of reciprocal relations based on the body of Christ. Addressing the entirety of the

mission journey, including a spirituality of religious travel, the intragroup experience, and individual Christian formation, the heart of the book explores short-term mission through the lens of the hero's journey. Having loved, served, and listened to others, short-term missionaries return home as more Christlike people where their lifelong journey of faith continues. Mission Bound is written as a pre-departure discussion guide for leaders and participants of short-term mission.

A true story much like the touching movie, Navy SEAL Dogs explores the incomparable relationship between trainer and military dog. From the author of Team Dog, Trident K9 Warriors gave readers an inside look at the Navy SEAL teams' elite K9 warriors-who they are, how they are trained, and the extreme missions they undertake to save lives. From detecting explosives to eliminating the bad guys, these powerful dogs are also some of the smartest and highest skilled working animals on the planet. Mike Ritland's job is to train them. This special edition re-telling presents the dramatic tale of how Ritland discovered his passion and grew up to become the trainer of the nation's most elite military working dogs. Ritland was a smaller-than-average kid who was often picked-on at school-which led him to spend more time with dogs at a young age. After graduating BUD/S training-the toughest military training in the world-to become a SEAL, he was on combat deployment in Iraq when he saw a military working dog in action and instantly knew he'd found his true calling. Ritland started his own company to train and supply working and protection dogs for the U.S. Government, Department of Defense, and other clients. He

also started the Warrior Dog Foundation to help retired Special Operations dogs live long and happy lives after their service. Navy SEAL Dogs is the true story of how Mike Ritland grew from a skinny, bullied child, to a member of our nation's most elite SEAL Teams, to the trainer of the world's most highly skilled K9 warriors.

A National Book Critics Circle Finalist for Nonfiction One of the New York Times 100 Notable Books of 2023 One of The New Republic's Best Books of 2023 "A riveting, vividly detailed collage of political and moral derangement in America." —Joseph O'Neill, New York Times Book Review One of America's finest reporters and essayists explores the powerful currents beneath the roiled waters of a nation coming apart. An unmatched

guide to the religious dimensions of American politics, Jeff Sharlet journeys into corners of our national psyche where others fear to tread. *The Undertow* is both inquiry and meditation, an attempt to understand how, over the last decade, reaction has morphed into delusion, social division into distrust, distrust into paranoia, and hatred into fantasies—sometimes realities—of violence. Across the country, men “of God” glorify materialism, a gluttony of the soul, while citing Scripture and preparing for civil war—a firestorm they long for as an absolution and exaltation. Lies, greed, and glorification of war boom through microphones at hipster megachurches that once upon a time might have preached peace and understanding. Political rallies are as aflame with need and giddy expectation as religious revivals. At a conference for incels, lonely single men come together to rage against women. On the Far Right, everything is heightened—love into adulation, fear into vengeance, anger into white-hot rage. Here, in the undertow, our forty-fifth president, a vessel of conspiratorial fears and fantasies, continues to rise to sainthood, and the insurrectionist Ashli Babbitt, killed on January 6 at the Capitol, is beatified as a martyr of white womanhood. Framing this dangerous vision, Sharlet remembers and celebrates the courage of those who sing a different song of community, and of an America long dreamt of and yet to be fully born, dedicated to justice and freedom for all. Exploring a geography of grief and uncertainty in the midst of plague and rising fascism, *The Undertow* is a necessary reckoning with our precarious present that brings to light a decade of American failures as well as a vision for American possibility.

The centuries-long genocidal program of the US settler-colonial regimen has largely been omitted from history. Now, for the first time, acclaimed historian and activist Roxanne Dunbar-Ortiz offers a history of the United States told from the perspective of Indigenous peoples and reveals how Native Americans, for centuries, actively resisted expansion of the US empire. With growing support for movements such as the campaign to abolish Columbus Day and replace it with Indigenous Peoples’ Day and the Dakota Access Pipeline protest led by the Standing Rock Sioux Tribe, *An Indigenous Peoples’ History of the United States* is an essential resource providing historical threads that are crucial for understanding the present. In *An Indigenous Peoples’ History of the United States*, Dunbar-Ortiz adroitly challenges the founding myth of the United States and shows how policy against the Indigenous peoples was colonialist and designed to seize the territories of the original inhabitants, displacing or eliminating them. And as Dunbar-Ortiz reveals, this policy was praised in popular culture, through writers like James Fenimore Cooper and Walt Whitman, and in the highest offices of government and the military. Shockingly, as the genocidal policy reached its zenith under President Andrew Jackson, its ruthlessness was best articulated by US Army general Thomas S. Jesup, who, in 1836, wrote of the Seminoles: “The country can be rid of them only by exterminating them.” Spanning more than four hundred years, this classic bottom-up peoples’ history radically reframes US history and explodes the silences that have haunted our national narrative. *An Indigenous Peoples' History of the United*

mount rushmore template: *All The Wild That Remains: Edward Abbey, Wallace Stegner, and the American West* David Gessner, 2015-04-20 An homage to the West and to two great writers who set the standard for all who celebrate and defend it. Archetypal wild man Edward Abbey and proper, dedicated Wallace Stegner left their footprints all over the western landscape. Now, award-winning nature writer David Gessner follows the ghosts of these two remarkable writer-environmentalists from Stegner's birthplace in Saskatchewan to the site of Abbey's pilgrimages to Arches National Park in Utah, braiding their stories and asking how they speak to the lives of all those who care about the West. These two great westerners had very different ideas about what it meant to love the land and try to care for it, and they did so in distinctly different styles. Boozy, lustful, and irascible, Abbey was best known as the author of the novel *The Monkey Wrench Gang* (and also of the classic nature memoir *Desert Solitaire*), famous for spawning the idea of guerrilla actions—known to admirers as monkeywrenching and to law enforcement as domestic terrorism—to disrupt commercial exploitation of western lands. By contrast, Stegner, a buttoned-down, disciplined, faithful family man and devoted professor of creative writing, dedicated himself to working through the system to protect western sites such as Dinosaur National Monument in Colorado. In a region beset by droughts and fires, by fracking and drilling, and by an ever-growing population that seems to be in the process of loving the West to death, Gessner asks: how might these two farseeing environmental thinkers have responded to the crisis? Gessner takes us on an inspiring, entertaining journey as he renews his own commitment to cultivating a meaningful relationship with the wild, confronting American overconsumption, and fighting environmental injustice—all while reawakening the thrill of the words of his two great heroes.

This is the story of how, with the odd misstep along the way, the owners of the Bond franchise, Eon Productions, have contrived to keep James Bond abreast of the zeitgeist and at the top of the charts for 45 years, through 21 films featuring six Bonds, three M's, two Q's and three Moneypennies. Thanks to the films, Fleming's original creation has been transformed from a black sheep of the post-war English upper classes into a figure with universal appeal, constantly evolving to keep pace with changing social and political circumstances. Having interviewed people concerned with all aspects of the films, Sinclair McKay is ideally placed to describe how the Bond 'brand' has been managed over the years as well as to give us the inside stories of the supporting cast of Bond girls, Bond villains, Bond cars and Bond gadgetry. Sinclair McKay, formerly assistant features editor of the *Daily Telegraph*, works as a freelance writer and journalist. He is also the author of *A Thing of Unspeakable Horror: The History of Hammer Films*, which the *Guardian* called 'A splendid history' and the *Independent on Sunday* described as 'Brisk, cheerful and enthusiastic.'
