Understanding the National Honor Society Reference Letter

The national honor society reference letter serves as an external validation of a student's qualifications beyond their academic transcripts. It provides insights into their character, leadership potential, and commitment to service from individuals who have observed them in specific contexts. Admissions committees for the NHS often use these letters to gain a more holistic understanding of the applicant, looking for evidence that aligns with the society's core tenets: scholarship, service, leadership, and character. A well-written reference letter can illuminate aspects of a student's personality and contributions that might not be apparent solely from grades or extracurricular lists.

The purpose of the reference letter is to offer a credible third-party perspective. It's not just about confirming a student is academically capable, but also about assessing their integrity, their ability to work with others, and their genuine desire to contribute to their community. Admissions committees review these letters carefully to ensure that inductees will uphold the high standards and values of the National Honor Society. Therefore, the

choice of recommender and the content of the letter are of paramount importance.

Who Should Write an NHS Reference Letter?

Selecting the right individuals to write a national honor society reference letter is a critical first step. The recommender should be someone who knows the student well and can speak authoritatively about their qualities in relation to the NHS criteria. This typically includes educators, mentors, or community leaders who have had consistent, meaningful interactions with the student.

Teachers as Recommenders

Teachers are often the most accessible and knowledgeable sources for an NHS reference letter. They observe students in an academic setting, allowing them to comment on scholarship, classroom participation, intellectual curiosity, and the ability to grasp complex concepts. A teacher can also provide insights into a student's character, such as their integrity, respect for others, and work ethic during class activities and assignments.

Club Advisors and Coaches

Individuals who advise extracurricular clubs or coach sports teams can offer valuable perspectives on leadership, teamwork, and commitment. They witness students' abilities to motivate others, handle challenges, persevere through difficulties, and contribute positively to a group dynamic. These experiences are vital for demonstrating the leadership and character components of the NHS application.

Community Leaders and Mentors

For students actively involved in community service or volunteer work, leaders of these organizations can provide a unique viewpoint. They can attest to a student's dedication to service, their empathy, their ability to connect with diverse groups of people, and their initiative in making a positive impact. Mentors, whether formal or informal, who have guided a student through personal or professional development can also offer profound insights into their character and aspirations.

What Makes a Recommender Ideal

An ideal recommender is someone who can provide specific examples and anecdotes that illustrate the student's strengths. They should have a positive impression of the student

and be willing to write a genuinely supportive letter. It is also important that the recommender has known the student for a sufficient period to form a well-informed opinion, ideally at least one academic year or a significant duration of involvement in an activity.

Key Components of a Strong NHS Reference Letter

A compelling national honor society reference letter goes beyond generic praise. It provides concrete evidence of the student's suitability for the National Honor Society. A well-structured letter will address the four pillars of NHS: scholarship, service, leadership, and character, with specific examples for each.

Addressing Scholarship

While the application itself showcases academic achievements, a recommender can elaborate on the student's intellectual curiosity, their approach to learning, and their passion for specific subjects. Comments about the student's engagement in class discussions, their analytical skills, or their willingness to go above and beyond in their studies can add significant weight.

Demonstrating Service

For the service aspect, the recommender should highlight the student's commitment to helping others and their community. This could include specific volunteer activities, the impact of their contributions, and their motivation for engaging in service. Details about initiative taken, consistent dedication, and a genuine desire to make a difference are crucial.

Illustrating Leadership

When discussing leadership, the letter should provide examples of how the student has taken initiative, guided peers, or positively influenced a group. This could be through formal leadership roles or informal instances where they demonstrated problem-solving skills, responsibility, and the ability to inspire or direct others.

Highlighting Character

Character is often assessed through anecdotes that reveal the student's integrity, honesty,

respect, and maturity. The recommender can share instances where the student displayed resilience, ethical behavior, compassion, or a strong sense of responsibility, showcasing their positive moral compass.

Specific Examples and Anecdotes

The most impactful reference letters are those that include specific, memorable stories. Instead of stating a student is "a good leader," a recommender might describe a time the student successfully organized a group project, resolved a conflict, or motivated their team to achieve a goal. These anecdotes make the student's qualities tangible and convincing.

Crafting an Effective Request for an NHS Reference

When requesting a national honor society reference letter, students should approach the process with professionalism and provide their recommenders with all the necessary information to write a strong letter.

Choosing the Right Recommender

As discussed, selecting someone who knows the student well and can speak to their NHS-qualifying traits is paramount. Consider who has seen your academic growth, your community involvement, and your personal development. Think about who you have a good rapport with and who you believe will write a genuinely positive letter.

Timing is Crucial

Give your recommender ample time to write the letter. A common recommendation is to provide them with at least two to three weeks' notice before the deadline. This allows them to dedicate sufficient time and thought to your reference without feeling rushed. Rushing a recommender can lead to a less impactful letter.

Provide Necessary Information

To assist your recommender, provide them with a packet of information. This should include:

- A clear statement of the deadline for the reference letter.
- A copy of your resume or a list of your accomplishments, activities, and awards.
- Information about the National Honor Society and its criteria (scholarship, service, leadership, character).
- A brief overview of why you are applying for NHS and what it means to you.
- Any specific aspects you would like them to highlight, if appropriate and comfortable.
- A pre-addressed, stamped envelope if the letter needs to be mailed, or clear instructions for online submission.

The Initial Request

When you first approach a potential recommender, do so in person or via a polite email. Express your appreciation for their willingness to consider your request. Briefly explain your goal (applying for NHS) and why you believe they would be a good person to provide a reference for you. After they agree, formally submit the information packet.

Follow-Up and Gratitude

A polite follow-up a week before the deadline can be helpful if you haven't heard back, but avoid being pushy. Once the letter has been submitted, always express your sincere gratitude to your recommender with a thank-you note, email, or even a small token of appreciation.

Tips for Writing a Compelling NHS Reference Letter

A well-crafted national honor society reference letter is persuasive and memorable. Recommenders should aim to make their letter stand out by being specific and authentic.

Be Specific with Examples

Generic statements like "she is a hard worker" are far less impactful than a specific example like, "During the challenging group project on renewable energy, Sarah consistently took the lead in researching complex data, patiently explaining findings to her

peers, and ensuring that every member contributed effectively, ultimately leading the team to an A+."

Focus on the NHS Criteria

Explicitly connect the student's qualities and actions to the four pillars of the National Honor Society: scholarship, service, leadership, and character. Use keywords related to these criteria naturally within the narrative.

Maintain an Enthusiastic and Positive Tone

The tone of the letter should convey genuine admiration and strong support for the student. Enthusiasm can be infectious and signals to the admissions committee that the student is a valuable candidate.

Be Honest and Authentic

While the letter should be positive, it must also be truthful. Exaggeration or dishonesty can be detrimental. The recommender's credibility is crucial, and the letter should reflect their genuine assessment of the student.

Structure the Letter Logically

A standard business letter format is appropriate. Begin with an introduction stating who you are recommending and for what purpose. Dedicate paragraphs to discussing specific qualities, providing examples. Conclude with a strong endorsement.

Keep it Concise Yet Comprehensive

While details are important, the letter should not be overly long. Aim for a single page, ensuring that every sentence adds value and contributes to a strong overall impression of the applicant.

What to Avoid in an NHS Reference Letter

Certain pitfalls can weaken even a well-intentioned national honor society reference letter. Being aware of these can help ensure the letter is as effective as possible.

Generic or Vague Statements

As mentioned, avoid platitudes. Phrases like "good student," "nice person," or "involved in activities" do not provide meaningful insight. Admissions committees look for specific evidence.

Focusing Solely on Academics

While scholarship is vital, NHS also emphasizes service, leadership, and character. A letter that only discusses grades misses crucial opportunities to highlight other essential qualities.

Personal Opinions or Biases

The letter should focus on the student's objective qualifications and observed behaviors. Personal opinions unrelated to the NHS criteria or potential biases should be excluded.

Lack of Specific Examples

Without concrete anecdotes, the letter becomes a collection of assertions rather than a demonstration of the student's abilities and character. This makes it difficult for the committee to evaluate the applicant effectively.

Overly Critical or Negative Comments

If a recommender cannot provide a genuinely positive endorsement, they should politely decline to write the letter. Including faint praise or veiled criticism can be more damaging than no letter at all.

Irrelevant Information

Stick to information that directly relates to the student's suitability for the National Honor Society. Anecdotes about unrelated personal matters or lengthy descriptions of the recommender's own accomplishments are not helpful.

The Impact of a Well-Written NHS Reference Letter

A strong national honor society reference letter can be a deciding factor in an applicant's success. It provides a credible, external perspective that complements the student's own application and academic record. When written effectively, it paints a vivid picture of the student as a well-rounded individual who embodies the ideals of the NHS.

Such a letter demonstrates that the student is not only academically proficient but also a person of good character, a dedicated leader, and a committed member of their community. This holistic endorsement reassures the admissions committee that the student will be a valuable and contributing member of the National Honor Society, upholding its esteemed reputation and actively participating in its endeavors. The impact of a powerful reference is significant, reinforcing the student's qualifications and leaving a lasting positive impression.

Frequently Asked Questions

What are the key qualities a recommender should highlight in an NHS reference letter?

A strong NHS reference letter should emphasize qualities such as leadership, service, character, scholarship, and genuine commitment to the NHS's core tenets. Recommenders should provide specific examples that demonstrate the student's initiative, integrity, collaboration skills, and positive impact within the school and community. Generic praise is less effective than concrete anecdotes.

How much lead time should I give my NHS recommender?

It's crucial to give your recommender ample lead time, ideally at least two to three weeks before the deadline. This allows them sufficient time to thoughtfully reflect on your contributions, write a compelling letter, and submit it without feeling rushed. Asking last minute can lead to a less impactful recommendation.

Can a family member write an NHS reference letter?

Generally, it's strongly discouraged for family members to write NHS reference letters. The purpose of the reference letter is to provide an objective perspective on the student's character and achievements from someone who knows them in a professional or academic capacity. Family members' relationships are often perceived as biased.

What is the typical length of an NHS reference letter, and should I provide any materials to my recommender?

A typical NHS reference letter is usually one page, concise but thorough. Yes, you absolutely should provide your recommender with materials to assist them. This can include your resume or list of activities, a brief reminder of your accomplishments and how you've demonstrated NHS criteria, and a copy of the application or deadline. This helps them recall specific details and tailor their letter effectively.

What should I do if my recommender isn't responsive or seems unsure about writing the letter?

If your recommender is unresponsive after a reasonable follow-up (e.g., a week after the initial request), it might be best to politely inquire if they are still able to provide a recommendation. If they seem unsure, it could indicate they don't feel they know you well enough to write a strong letter. In such cases, it's advisable to find another recommender who can speak more confidently and knowledgeably about your qualifications for the NHS.

National Honor Society Reference Letter: A Comprehensive Guide

Introduction: The Power of a Strong Reference Letter

The National Honor Society (NHS) is a prestigious organization recognizing academic excellence, leadership, service, and character. While your grades, activities, and essays are crucial parts of your application, a compelling reference letter can often be the deciding factor. It provides an independent perspective, validating your claims and highlighting aspects of your personality and contributions that may not be fully captured elsewhere. A strong reference letter acts as a powerful endorsement, demonstrating to the selection committee that you are truly deserving of this honor.

This guide will walk you through the process of securing a winning reference letter that showcases your best qualities and increases your chances of acceptance.

Chapter 1: Identifying the Ideal Referee

Choosing the right recommender is paramount. Avoid selecting someone who only knows you superficially. The ideal referee should be able to speak to your character and achievements in detail. Consider the following criteria:

H1: Qualities of an Ideal Referee:

Strong relationship: This person should have observed your qualities firsthand over an extended period.

Credibility: The recommender should hold a position of authority or influence, demonstrating their expertise in evaluating your capabilities. This could be a teacher, counselor, coach, or employer.

Articulate communication skills: The referee should be able to express themselves clearly and concisely in writing.

Familiarity with your achievements: They should be aware of your accomplishments in academics, extracurricular activities, and community involvement.

H2: Who to Choose and Who to Avoid:

Good choices: Teachers who taught you in challenging courses, coaches who supervised you in leadership roles, counselors who know you well, or employers who oversaw your work.

Poor choices: Acquaintances, family members (unless they have a uniquely relevant professional relationship with you), or individuals who haven't observed your qualifications closely.

Chapter 2: Preparing Your Referee

Don't just ask your referee for a letter; empower them with the necessary information. This proactive approach demonstrates your commitment and significantly improves the quality of the recommendation.

H1: The Essential Information Package:

Your resume: A concise summary of your academic achievements, extracurricular involvement, and volunteer experiences. Highlight quantifiable achievements whenever possible (e.g., "Increased club membership by 20%").

NHS application: Provide a copy of your application, including your personal statement. This allows your recommender to contextualize their letter and highlight relevant aspects of your personality and goals.

List of specific achievements: Don't rely solely on your resume. Compile a list of your most significant accomplishments, providing specific examples and quantifiable results. Focus on

showcasing qualities relevant to the NHS pillars: scholarship, service, leadership, and character.
Personal statement: Allow them to read your personal statement, providing them context about your motivations and aspirations.
Deadlines: Clearly communicate all relevant deadlines to avoid delays.

H2: The Importance of Specific Examples:

Generic statements are weak. Your recommender needs concrete examples to support their claims. For example, instead of writing "John is a leader," they should write "John took the initiative to organize a fundraising event that raised \$5000 for the local homeless shelter, demonstrating his leadership and commitment to community service." Provide your referee with specific anecdotes that demonstrate your abilities in each of the NHS pillars.

Chapter 3: Crafting the Perfect Reference Letter Template

A well-structured letter significantly improves its impact. Provide your referee with a template or example to guide their writing process. This section is about showing what makes a great NHS reference letter, not necessarily giving a word-for-word example since every situation is unique.

H1: Key Components of a Strong Reference Letter:

Opening: Start with a compelling introduction that establishes the recommender's credibility and connection to you.
Body Paragraphs: Dedicate each paragraph to a specific NHS pillar (scholarship, service, leadership, character), providing concrete examples and anecdotes to support each claim.
Closing: End with a strong concluding statement that reiterates your suitability for the NHS and expresses confidence in your future success.
Specific Examples: Each paragraph should focus on a specific example that showcases the candidate's qualities. Vivid descriptions and quantifiable results are essential.
Tone: The tone should be professional, enthusiastic, and sincere. Avoid exaggeration or hyperbole.

H2: Avoiding Common Mistakes:

Generic statements: Avoid vague generalizations. Provide specific examples to support your claims.
Grammatical errors: Ensure the letter is free of spelling and grammatical errors.
Lack of specificity: The letter should highlight specific achievements and qualities, not just summarize your resume.
Overly effusive praise: While positive, the letter should sound authentic and believable. Avoid hyperbole.

Chapter 4: Reviewing and Refining the Letter

Before submitting the letter, ensure it is polished and impactful.

H1: The Review Process:

Proofreading: Carefully review the letter for grammatical errors, typos, and clarity.

Feedback: Ask your referee for feedback on the letter's structure, clarity, and impact.

Format: Ensure the letter is professionally formatted and uses appropriate business letter conventions.

H2: Ensuring Impact and Accuracy:

Strong verbs: Use strong action verbs to showcase your achievements dynamically.

Quantifiable results: Whenever possible, quantify your achievements to demonstrate their impact.

Accuracy: Double-check all facts and details to ensure accuracy.

Chapter 5: Following Up and Expressing Gratitude

Don't forget to thank your recommender. This demonstrates your appreciation for their time and effort.

H1: Showing Appreciation:

Send a thank-you note or email expressing your sincere gratitude.

Offer to help with anything they may need in return.

Keep them updated on your application status.

H2: Maintaining Professionalism:

Respect their time and deadlines.

Communicate clearly and professionally.

Conclusion: Securing Your NHS Success

By following these strategies, you can significantly increase your chances of receiving a strong reference letter and achieving your goal of acceptance into the National Honor Society. Remember, this is a collaborative effort, and your proactive approach will significantly contribute to the success of your application.

FAQs

1. How far in advance should I ask for a reference letter? At least 2-3 weeks before the deadline to allow ample time for writing and revisions.
2. What if my recommender is too busy? Choose another recommender or approach them early to discuss the timeline.
3. Can I write a draft of the letter for my referee? No, the letter must be written by the recommender to maintain authenticity. However, providing them with detailed information is crucial.
4. How long should the reference letter be? Aim for 1-2 pages, concise and impactful.
5. What if my recommender is hesitant to write a strong letter? Choose a different recommender who can genuinely speak to your strengths.

national honor society reference letter: Letter from Birmingham Jail Martin Luther King,
2025-01-14 A beautiful commemorative edition of Dr. Martin Luther King's essay Letter from

Birmingham Jail, part of Dr. King's archives published exclusively by HarperCollins. With an afterword by Reginald Dwayne Betts On April 16, 1923, Dr. Martin Luther King Jr., responded to an open letter written and published by eight white clergymen admonishing the civil rights demonstrations happening in Birmingham, Alabama. Dr. King drafted his seminal response on scraps of paper smuggled into jail. King criticizes his detractors for caring more about order than justice, defends nonviolent protests, and argues for the moral responsibility to obey just laws while disobeying unjust ones. Letter from Birmingham Jail proclaims a message - confronting any injustice is an acceptable and righteous reason for civil disobedience. This beautifully designed edition presents Dr. King's speech in its entirety, paying tribute to this extraordinary leader and his immeasurable contribution, and inspiring a new generation of activists dedicated to carrying on the fight for justice and equality.

national honor society reference letter: Soundbite Sara Harberson, 2021-04-06 Crack the code to college admissions and help students craft the ultimate statement of self-identity and get into their school of choice with this groundbreaking guide from America's College Counselor. On average, an admissions committee takes seconds to decide whether to admit a student. They must sum up the student in one sentence that will tell them if a student is going to be a good fit for their program. What is the best way to transform this admissions process from a stressful, pressure-cooker arms race into an empowering journey that paves the way to the best individual outcome? Written by a college admissions insider turned consultant, Soundbite guides parents and students through the admissions process from start to finish. Armed with her knowledge of how the system works, Sara Harberson shares tried-and-tested exercises that have helped thousands of students gain admission to their school of choice. The soundbite, her signature tool, presents an opportunity for students to take the reins to craft their ultimate statement of self-identity and formulate their own personal definition of what is best. With this soundbite in place as their foundation, students achieve maximum impact when they present themselves to colleges. In doing so, the tables are turned: the student's fate no longer rests on a soundbite composed by an admissions officer. Instead, the student employs their own soundbite to define themselves on their own terms. Soundbite shifts the way we talk about the admissions process—from Getting You In to Getting the Best You In.

national honor society reference letter: Inside the Spiral Suzaan Boettger, 2023-04-11 An expansive and revelatory study of Robert Smithson's life and the hidden influences on his iconic creations This first biography of the major American artist Robert Smithson, famous as the creator of the Spiral Jetty, deepens understanding of his art by addressing the potent forces in his life that were shrouded by his success, including his suppressed early history as a painter; his affiliation with Christianity, astrology, and alchemy; and his sexual fluidity. Integrating extensive investigation and acuity, Suzaan Boettger uncovers Smithson's story and, with it, symbolic meanings across the span of his painted and drawn images, sculptures, essays, and earthworks up to the Spiral Jetty and beyond, to the circumstances leading to what became his final work, Amarillo Ramp. While Smithson is widely known for his monumental earthwork at the edge of the Great Salt Lake, Inside the Spiral delves into the arc of his artistic production, recognizing it as a response to his family's history of

loss, which prompted his birth and shaped his strange intelligence. Smithson configured his personal conflicts within painterly depictions of Christ's passion, the rhetoric of science fiction, imagery from occult systems, and the impersonal posture of conceptual sculpture. Aiming to achieve renown, he veiled his personal passions and transmuted his professional persona, becoming an acclaimed innovator and fierce voice in the New York art scene. Featuring copious illustrations never before published of early work that eluded Smithson's destruction, as well as photographs of Smithson and his wife, the noted sculptor Nancy Holt, and recollections from nearly all those who knew him throughout his life, *Inside the Spiral* offers unprecedented insight into the hidden impulses of one of modern art's most enigmatic figures. With great sensitivity to the experiences of loss and existential strife that defined his distinct artistic language, this biographical analysis provides an expanded view of Smithson's iconic art pilgrimage site and the experiences and works that brought him to its peculiar blood red water.

national honor society reference letter: The Immortal Life of Henrietta Lacks Rebecca Skloot, 2010-02-02 #1 NEW YORK TIMES BESTSELLER • "The story of modern medicine and bioethics—and, indeed, race relations—is refracted beautifully, and movingly."—Entertainment Weekly NOW A MAJOR MOTION PICTURE FROM HBO® STARRING OPRAH WINFREY AND ROSE BYRNE • ONE OF THE "MOST INFLUENTIAL" (CNN), "DEFINING" (LITHUB), AND "BEST" (THE PHILADELPHIA INQUIRER) BOOKS OF THE DECADE • ONE OF ESSENCE'S 50 MOST IMPACTFUL BLACK BOOKS OF THE PAST 50 YEARS • WINNER OF THE CHICAGO TRIBUNE HEARTLAND PRIZE FOR NONFICTION NAMED ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • Entertainment Weekly • O: The Oprah Magazine • NPR • Financial Times • New York • Independent (U.K.) • Times (U.K.) • Publishers Weekly • Library Journal • Kirkus Reviews • Booklist • Globe and Mail Her name was Henrietta Lacks, but scientists know her as HeLa. She was a poor Southern tobacco farmer who worked the same land as her slave ancestors, yet her cells—taken without her knowledge—became one of the most important tools in medicine: The first "immortal" human cells grown in culture, which are still alive today, though she has been dead for more than sixty years. HeLa cells were vital for developing the polio vaccine; uncovered secrets of cancer, viruses, and the atom bomb's effects; helped lead to important advances like in vitro fertilization, cloning, and gene mapping; and have been bought and sold by the billions. Yet Henrietta Lacks remains virtually unknown, buried in an unmarked grave. Henrietta's family did not learn of her "immortality" until more than twenty years after her death, when scientists investigating HeLa began using her husband and children in research without informed consent. And though the cells had launched a multimillion-dollar industry that sells human biological materials, her family never saw any of the profits. As Rebecca Skloot so brilliantly shows, the story of the Lacks family—past and present—is inextricably connected to the dark history of experimentation on African Americans, the birth of bioethics, and the legal battles over whether we control the stuff we are made of. Over the decade it took to uncover this story, Rebecca became enmeshed in the lives of the Lacks family—especially Henrietta's daughter Deborah. Deborah was consumed with questions: Had scientists cloned her mother? Had they killed her to harvest her cells? And if her mother was so important to medicine, why couldn't her children afford health insurance? Intimate in feeling, astonishing in scope, and impossible to put down, *The Immortal Life of Henrietta Lacks* captures the beauty and drama of scientific discovery, as well as its human consequences.

national honor society reference letter: *You Have the Power* Frances Moore Lappe, Jeffrey Perkins, 2005-04-21 Frances Moore Lappé-author of the million-selling *Diet for a Small Planet*-and Jeffrey Perkins offer the radical notion that our fears can be a source of energy to create the lives and the world we want. Now more than ever, it seems, our lives and the lives of our loved ones are at risk. Our normal response is to retreat. But what if fear were not a negative force but a positive one-a source of energy and strength? Sharing their own intimate journeys with fear, as well as the experiences of others, the authors offer seven liberating notions that can help unleash your power to

walk into the unknown and create a more fulfilling, authentic life.

national honor society reference letter: **Reynolds Pamphlet** Alexander Hamilton, 2021-05-11 The Reynolds Pamphlet (1797) is an essay by Alexander Hamilton. Written while Hamilton was serving as Secretary of the Treasury, the Pamphlet was intended as a defense against accusations that Hamilton had conspired with James Reynolds to misuse funds meant to cover unpaid wages to Revolutionary War veterans. Admitting to an affair with Maria, Reynolds' wife, Hamilton claims that the accusation is nothing more than an attempt at blackmail. This revelation not only endangered Hamilton's career as a public figure, but constituted perhaps the earliest sex scandal in American history. "The bare perusal of the letters from Reynolds and his wife is sufficient to convince my greatest enemy that there is nothing worse in the affair than an irregular and indelicate amour. For this, I bow to the just censure which it merits. I have paid pretty severely for the folly and can never recollect it without disgust and self condemnation. It might seem affectation to say more." Accused of corruption in his role as Secretary of the Treasury, Alexander Hamilton was forced to confess his adultery, bringing shame to himself as a married man and supposedly honorable public figure, yet saving his political career in the process. Looking back on his affair with Maria Reynolds from a distance of five years, Hamilton expresses regret for his foolishness, yet wholeheartedly denies her husband's accusation that he had been involved in his scheme to misuse

government funds. Perhaps the first sex scandal in American history, the Reynolds affair sent shockwaves throughout the burgeoning republic, leaving many to question the motives and character of their leaders for the first time, though certainly not the last. With a beautifully designed cover and professionally typeset manuscript, this edition of Alexander Hamilton's Reynolds Pamphlet is a classic of American literature reimagined for modern readers.

national honor society reference letter: Simply Bev... James H. Cox, 2010 This biography of Beverly Kimes, was written by her beloved husband, Jim Cox. This is not a book about the illustrious career of Beverly Kimes, first woman editor of *Automobile Quarterly*, renowned author, or the foremost classic car historian of her time. But, a story about Beverly Kimes; daughter, sister, friend, mentor, wife, and inspiration to women and men who had the distinct honor of having her be part of their lives. Determination is everything. This was her mantra, the creed that she lived by from the time she was a small girl growing up West Chicago, until the day she died in 2008. Beverly Kimes was a woman on a mission: to do whatever it was she was destined to do (and she did plenty!) by taking on a leadership role, and helping those who travelled with her. This biography chronicles Beverly's early years, taken from copious notes, letters and pictures found in numerous personal scrapbooks saved over the years. It follows her adult life in New York, through her rise up the ranks to editor of *Automobile Weekly*, her notoriety as an automobile historian, and life with her husband, family and friends. How does someone so determined for greatness, make it happen in a career she initially knew nothing about? When she went to her interview with Scott Baily at *Automobile Quarterly*, she told him, The only thing I know about automobiles, is that I have a driver's license. This inspiring story is about a woman, in a man's world, overcoming odds, getting involved, and touching the hearts of all types of people worldwide along the way. The road to greatness was not easy for Beverly, in fact it took its rocky turns. Life was filled with obstacles due to illness, circumstances, or just plain fate. But she travelled on, nonetheless, with dignity and style. And for all who had come to know and love her, it was a hell of a ride!

national honor society reference letter: Ask a Manager Alison Green, 2018-05-01 From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly, warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job

market or new to management, or anyone hoping to improve their work experience.”—Library Journal (starred review) “I am a huge fan of Alison Green’s Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor.”—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* “Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way.”—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*
