parent congratulations letter for sorority initiation: Wicked Gregory Maguire, 2009-10-13 The New York Times bestseller and basis for the Tony-winning hit musical, soon to be a major motion picture starring Cynthia Erivo and Ariana Grande With millions of copies in print around the world, Gregory Maguire's *Wicked* is established not only as a commentary on our time but as a novel to revisit for years to come. *Wicked* relishes the inspired inventions of L. Frank Baum's 1900 novel, *The Wonderful Wizard of Oz*, while playing sleight of hand with our collective memories of the 1939 MGM film starring Margaret Hamilton (and Judy Garland). In this fast-paced, fantastically real, and supremely entertaining novel, Maguire has populated the largely unknown world of Oz with the power of his own imagination. Years before Dorothy and her dog crash-land, another little girl makes her presence known in Oz. This girl, Elphaba, is born with emerald-green skin—no easy burden in a land as mean and poor as Oz, where superstition and magic are not strong enough to explain or overcome the natural disasters of flood and famine. Still, Elphaba is smart, and by the time she enters Shiz University, she becomes a member of a charmed circle of Oz's most promising young citizens. But Elphaba's Oz is no utopia. The Wizard's secret police are everywhere. Animals—those creatures with voices, souls, and minds—are threatened with exile. Young Elphaba, green and wild and misunderstood, is determined to protect the Animals—even if it means combating the mysterious Wizard, even if it means risking her single chance at romance. Ever wiser in guilt and sorrow, she can find herself grateful when the world declares her a witch. And she can even make herself glad for that young girl from Kansas. Recognized as an iconoclastic tour de force on its initial publication, the novel has inspired the blockbuster musical of the same name—one of the longest-running plays in Broadway history. Popular, indeed. But while the novel's distant cousins hail from the traditions of magical realism, mythopoeic fantasy, and sprawling nineteenth-century sagas of moral urgency, Maguire's *Wicked* is as unique as its green-skinned witch.

parent congratulations letter for sorority initiation: Critical Communities and Aesthetic Practices Francis Halsall, Julia Jansen, Sinéad Murphy, 2011-11-17 *Critical Communities and Aesthetic Practices* brings together eminent international philosophers to discuss the inter-dependence of critical communities and aesthetic practices. Their contributions share a hermeneutical commitment to dialogue, both as a model for critique and as a generator of community. Two conclusions emerge: The first is that one's relationships with others will always be central in determining the social, political, and artistic forms that philosophical self-reflection will

take. The second is that our practices of aesthetic judgment are bound up with our efforts as philosophers to adapt ourselves and our objects of interest to the inescapably historical and indeterminate conditions of experience. The papers collected here address the issue that critical communities and aesthetic practices are never politically neutral and can never be abstracted from their particular contexts. It is for this reason that the contributors investigate the politics, not of laws, parties or state constitutions, but of open, indefinably critical communities such as audiences, peers and friends. *Critical Communities and Aesthetic Practices* is distinctive in providing a current selection of prominent positions, written for this volume. Together, these comprise a pluralist, un-homogenized collection that brings into focus contemporary debates on critical and aesthetic practices.

Now with an expanded chapter and appendix on leading millennials, based on Simon Sinek's viral video *Millennials in the workplace* (150+ million views). Imagine a world where almost everyone wakes up inspired to go to work, feels trusted and valued during the day, then returns home feeling fulfilled. This is not a crazy, idealized notion. Today, in many successful organizations, great leaders create environments in which people naturally work together to do remarkable things. In his work with organizations around the world, Simon Sinek noticed that some teams trust each other so deeply that they would literally put their lives on the line for each other. Other teams, no matter what incentives are offered, are doomed to infighting, fragmentation and failure. Why? The answer became clear during a conversation with a Marine Corps general. Officers eat last, he said. Sinek watched as the most junior Marines ate first while the most senior Marines took their place at the back of the line. What's symbolic in the chow hall is deadly serious on the battlefield: Great leaders sacrifice their own comfort—even their own survival—for the good of those in their care. Too many workplaces are driven by cynicism, paranoia, and self-interest. But the best ones foster trust and cooperation because their leaders build what Sinek calls a Circle of Safety that separates the security inside the team from the challenges outside. Sinek illustrates his ideas with fascinating true stories that range from the military to big business, from government to investment banking.

parent congratulations letter for sorority initiation: Hoping to Help Judith N. Lasker, 2016-02-19 Overseas volunteering has exploded in numbers and interest in the last couple of decades. Every year, hundreds of thousands of people travel from wealthier to poorer countries to participate in short-term volunteer programs focused on health services. Churches, universities, nonprofit service organizations, profit-making voluntourism companies, hospitals, and large corporations all sponsor brief missions. Hoping to Help is the first book to offer a comprehensive assessment of global health volunteering, based on research into how it currently operates, its benefits and drawbacks, and how it might be organized to contribute most effectively. Given the enormous human and economic investment in these activities, it is essential to know more about them and to understand the advantages and disadvantages for host communities. Most people assume that poor communities benefit from the goodwill and skills of the volunteers. Volunteer trips are widely advertised as a means to give back and make a difference. In contrast, some claim that health volunteering is a new form of colonialism, designed to benefit the volunteers more than the host communities. Others focus on unethical practices and potential harm to the presumed beneficiaries. Judith N. Lasker evaluates these opposing positions and relies on extensive research—interviews with host country staff members, sponsor organization leaders, and volunteers, a national survey of sponsors, and participant observation—to identify best and worst practices. She adds to the debate a focus on the benefits to the sponsoring organizations, benefits that can contribute to practices that are inconsistent with what host country staff identify as most likely to be useful for them and even with what may enhance the experience for volunteers. Hoping to Help illuminates the activities and goals of sponsoring organizations and compares dominant practices to the preferences of host country staff and to nine principles for most effective volunteer trips.

parent congratulations letter for sorority initiation: In Search of Sisterhood Paula J. Giddings, 2009-10-06 In Search of Sisterhood is the definitive history of the largest Black women's organization in the United States, and is filled with compelling, fascinating anecdotes told by the Delta Sigma Theta members themselves, illustrated with rare early photographs of the Delta women. This book contains the story of Delta Sigma Theta Sorority (DST), and details the increasing involvement of Black women in the political, social, and economic affairs of America. Founded at a time when liberal arts education was widely seen as either futile, dangerous, or impractical for Blacks—and especially Black women—DST is, in Giddings's words, a compelling reflection of Black women's aspirations for themselves and for society. Giddings notes that unlike other organizations with racial goals, Delta Sigma Theta was created to change and benefit individuals rather than society. As a sorority, it was formed to bring women together as sisters, but at the same time to address the divisive, often class-related issues confronting Black women in our society. There is, in Giddings's eyes, a tension between these goals that makes Delta Sigma Theta a fascinating microcosm of the struggles of Black women and their organizations. DST members have included Mary McLeod Bethune, Mary Church Terrell, Margaret Murray Washington, Shirley Chisholm, Barbara Jordan, and, on the cultural side, Leontyne Price, Lena Horne, Ruby Dee, Judith Jamison, and Roberta Flack.
