I have taken the time and energy, and meticulously challenged and, debunked this mans information. planet rizq: **The Nuwaubian Nation** Susan Palmer, 2016-12-05 The Nuwaubian Nation takes the reader on a journey into an African-American spiritual movement. The United Nuwaubian Nation has changed shape since its inceptions in the 1970s, transforming from a Black Hebrew mystery school into a Muslim utopian community in Brooklyn, N.Y.; from an Egyptian theme park into an Amerindian reserve in rural Georgia. This book follows the extraordinary career of Dwight York, who

in his teens started out in a New York street gang, but converted to Islam in prison. Emerging as a Black messiah, York proceeded to break the Paleman's spell of Kingu and to guide his people through a series of racial/religious identities that demanded dramatic changes in costume, gender roles and lifestyle. Dr. York's Blackosophy is analyzed as a new expression of that ancient mystical worldview, Gnosticism. Referring to theories in the sociology of deviance and media studies, the author tracks the escalating hostilities against the group that climaxed in a Waco-style FBI raid on the Nuwaubian compound in 2002. In the ensuing legal process we witness Dr. York's dramatic reversals of fortune; he is now serving a 135-year sentence as his Black Panther lawyer prepares to take his case to the Supreme Court. This book presents fresh and important insights into racist spirituality and the social control of unconventional religions in America.

Focusing on contemporary global UFO groups including the Raelian Movement, Heaven's Gate, Unarius and the Ansaaru Allah Community, it gives a clear profile of modern UFO controversies and beliefs.

planet rizq: Metaphysical Africa Michael Muhammad Knight, 2021-11-30 The Ansaru Allah Community, also known as the Nubian Islamic Hebrews (AAC/NIH) and later the Nuwaubians, is a deeply significant and controversial African American Muslim movement. Founded in Brooklyn in the 1960s, it spread through the prolific production and dissemination of literature and lecture tapes and became famous for continuously reinventing its belief system. In this book, Michael Muhammad Knight studies the development of AAC/NIH discourse over a period of thirty years, tracing a surprising consistency behind a facade of serial reinvention. It is popularly believed that the AAC/NIH community abandoned Islam for Black Israelite religion, UFO religion, and Egyptosophy. However, Knight sees coherence in AAC/NIH media, explaining how, in reality, the community taught that the Prophet Muhammad was a Hebrew who adhered to Israelite law; Muhammad's heavenly ascension took place on a spaceship; and Abraham enlisted the help of a pharaonic regime to genetically engineer pigs as food for white people. Against narratives that treat the AAC/NIH community as a postmodernist deconstruction of religious categories, Knight demonstrates that AAC/NIH discourse is most productively framed within a broader African American metaphysical history in which boundaries between traditions remain quite permeable. Unexpected and engrossing, *Metaphysical Africa* brings to light points of intersection between communities and traditions often regarded as separate and distinct. In doing so, it helps move the field of religious studies beyond conventional categories of "orthodoxy" and "heterodoxy," challenging assumptions that inform not only the study of this particular religious community but also the field at large.

The paranormal is alive and well in the American cultural landscape. In *UFOs, Chemtrails, and Aliens*, Donald R. Prothero and Tim Callahan explore why such demonstrably false beliefs thrive despite decades of education and scientific debunking. Employing the ground rules of science and the standards of scientific evidence, Prothero and Callahan discuss a wide range of topics including the reliability of eyewitness testimony, psychological research into why people want to believe in aliens and UFOs, and the role conspiratorial thinking plays in UFO culture. They examine a variety of UFO sightings and describe the standards of evidence used to determine whether UFOs are actual alien spacecraft. Finally, they consider our views of aliens and the strong cultural signals that provide the shapes and behaviors of these beings. While their approach is firmly based in science, Prothero and Callahan also share their personal experiences of Area 51, Roswell, and other legendary sites, creating a narrative that is sure to engross both skeptics and believers.

planet rizq: *Fiction, Invention and Hyper-reality* Carole M. Cusack, Pavol Kosnác, 2016-11-18 The twentieth century was a period of rapid change for religion. Secularisation resulted in a dramatic fall in church attendance in the West, and the 1950s and 1960s saw the introduction of new religions including the International Society for Krishna Consciousness (ISKCON), the Church of Scientology, and the Children of God. New religions were regarded with suspicion by society in

general and Religious Studies scholars alike until the 1990s, when the emergence of a second generation of 'new new' religions – based on popular cultural forms including films, novels, computer games and comic books – and highly individualistic spiritualities confirmed the utter transformation of the religio-spiritual landscape. Indeed, Scientology and ISKCON appeared almost traditional and conservative when compared to the radically de-institutionalised, eclectic, parodic, fun-loving and experimental fiction-based, invented and hyper-real religions. In this book, scholarly treatments of cutting-edge religious and spiritual trends are brought into conversation with contributions by representatives of Dudeism, the Church of All Worlds, the Temple of the Jedi Order and Tolkien spirituality groups. This book will simultaneously entertain, shock, challenge and delight scholars of religious studies, as well as those with a wider interest in new religious movements.

planet rizq: Nuwaubian Pan-Africanism Emeka C. Anaedozie, 2019-12-03 This book examines the contemporary operational and theoretical parameters of Pan-Africanism and black nationalism in the post-civil rights era. It uses the Nuwaubian movement as a case study to explore this essential strand in African Diasporan history, culture, and tradition. The author argues that the Nuwaubian Nation, like their contemporaries such as the Nation of Islam, represents contemporary efforts of African descendants to dialectically and culturally fight oppression. He argues that unlike the classical Back to Africa movements, the contemporary ones do not seek to primarily relocate to Africa, but to go to Africa culturally and bring back Africa to the diaspora. This effort can be seen in the Nuwaubian attempts at unearthing and importing classical African traditions, mores, and values in their various communities across the United States, especially in Eatonton, Georgia. Their aim was to chart an identity for their adherents and inspire racial pride for people of African descent.

planet rizq: The Aliites Spencer Dew, 2019-08-20 "Citizenship is salvation," preached Noble Drew Ali, leader of the Moorish Science Temple of America in the early twentieth century. Ali's message was an aspirational call for black Americans to undertake a struggle for recognition from the state, one that would both ensure protection for all Americans through rights guaranteed by the law and correct the unjust implementation of law that prevailed in the racially segregated United States. Ali and his followers took on this mission of citizenship as a religious calling, working to carve out a place for themselves in American democracy and to bring about a society that lived up to what they considered the sacred purpose of the law. In *The Aliites*, Spencer Dew traces the history and impact of Ali's radical fusion of law and faith. Dew uncovers the influence of Ali's teachings, including the many movements they inspired. As Dew shows, Ali's teachings demonstrate an implicit yet critical component of the American approach to law: that it should express our highest ideals for society, even if it is rarely perfect in practice. Examining this robustly creative yet largely overlooked lineage of African American religious thought, Dew provides a window onto religion, race, citizenship, and law in America.

planet rizq: Soul Sacrifice Ruby S. Garnett, 2011-11 A shockingly TRUE account of a woman living part of her teenage years and young adulthood as a Muslim wife and eventually became part of a 'Harem' inside of one of the most influential underground cults in the United States. Assuming the pen name of Ruby Garnett at the request of her family, the author recounts the circumstances that led her to eventually be enticed by the religious extremist dogma of one of the most charismatic, influential underground cult leaders Black America has seen since the likes of Father Divine... Garnett has a candidly-intimate conversation with the reader about her state of mind from beginning to end. She wrote *Soul Sacrifice* for the children that came forward to let someone know about the sexual abuse they suffered at the hands of Nuwabian cult leader Malachi York. Despite the threats, harrassment and lack of support (from some of their own brainwashed parents), these brave survivors of abuse are the reason this story needs to be heard...

planet rizq: Historical Dictionary of New Religious Movements George D. Chryssides, 2012 New religious movements--commonly known as cults--are defined as organizations that have arisen within the last 200 years. Most treatments of these movements have typically resorted to sensationalism rather than objectivity, and New religious movements tend to receive negative media

publicity. Despite their unfavorable portrayal in popular culture, however, new religious movements are a global phenomenon and much remains to be studied about these movements. In this newly updated second edition of the Historical Dictionary of New Religious Movements, George D. Chryssides traces the rise and development of new religious movements throughout the world. An updated introduction summarizes the phenomenon of new religious movements and lays out the changes to the dictionary since the 2001 edition, while the main body of the dictionary consists of close to 600 cross-referenced entries on key figures, ideas, themes, and places related to various new religious movements. An index organizes the information in the dictionary, and a comprehensive bibliography leads the researcher to further sources. This book is an excellent access point for students, researchers, and anyone wanting to know more about new religious movements.

planet rizq: New Religions [2 volumes] Eugene V. Gallagher, Lydia Willsky-Ciollo, 2021-02-15 A valuable resource for students and general audiences, this book provides a unique global perspective on the history, beliefs, and practices of emergent faith communities; new religious traditions; and religious movements worldwide, from the 19th century to the present. *New Religions: Emerging Faiths and Religious Cultures in the Modern World* provides insightful global perspectives on the emergent faith communities and new traditions and movements of the last two centuries. Readers will gain access to the information necessary to explore the significance, complexities, and challenges that modern religious traditions have faced throughout their history and that continue to impact society today. The work identifies the themes and issues that have often brought new religions into conflict with the larger societies of which they are a part. Coverage includes new religious groups that emerged in America, such as the Seventh-day Adventists, the Latter-day Saints, and the Jehovah's Witnesses; alternative communities around the globe that emerged from the major Western and Eastern traditions, such as Aum Shinrikyo and Al-Qaeda; and marginalized groups that came to a sudden end, such as the Peoples Temple, Heaven's Gate, and the Branch Davidians. The entries highlight thematic and broader issues that run across the individual religious traditions, and will also help students analyze and assess the common difficulties faced by emergent religious communities.

planet rizq: Deadline Poets Society Bill Osinski, 2021-01-14 Not so long ago, newspapers were trusted by their readers. In return, newspapers trusted their readers wanted high-quality journalism. Thorough, factual coverage was standard; and insightful, vivid prose was the bonus. The best daily newspapers were important parts of their communities and of their readers' lives. In "Deadline Poets Society", Bill Osinski celebrates that bygone era. For nearly four decades and for eleven different newspapers, Bill sought to provide a special stylistic touch that would offer readers a whimsical, dramatic, insightful, wry, or heartwarming trip to a place they might never go, a chance to meet people they would never otherwise meet. Along the way, he met people like the suburban super-mom who devoted herself to improving the lives of residents of leprosy colonies, a mother who lost three sons in a coal-mine explosion, a man who was blatantly railroaded to death row, a college freshman who strutted around campus though he had no legs, a young girl who was repeatedly abused by the middle-aged man who claimed to be her god, a man who built himself a covered bridge in his front yard, and a Vietnamese war orphan seeking the American military personnel who had saved her life 35 years ago. Bill and his family moved 17 times during his newspaper years, and he had more editors than he can remember. But his first loyalties were always to the people like the ones in the fifty or so stories in this collection. They freely shared their stories with him and trusted him to tell those stories truly and well.

planet rizq: Real Black John L. Jackson Jr., 2005-11-15 New York's urban neighborhoods are full of young would-be emcees who aspire to keep it real and restaurants like Sylvia's famous soul food eatery that offer a taste of authentic black culture. In these and other venues, authenticity is considered the best way to distinguish the real from the phony, the genuine from the fake. But in *Real Black*, John L. Jackson Jr. proposes a new model for thinking about these issues--racial sincerity. Jackson argues that authenticity caricatures identity as something imposed on people, imprisoning them within stereotypes--turning them into racial objects and inanimate things, instead of living, breathing human beings. Contending that such assumptions deny people agency--not to mention humanity--in their search for identity, Jackson counterposes sincerity, an internal and more productive analytical model for thinking about race. Moving in and around Harlem and Brooklyn, Jackson offers a kaleidoscope of subjects and stories that directly and indirectly address how race is negotiated in today's world--including tales of name-changing hip-hop emcees, book-vending numerologists, urban conspiracy theorists, corrupt police officers, mixed-race neo-Nazis, and high-school gospel choirs forbidden to catch the Holy Ghost. Enlisting *Anthroman*, his cape-crusading critical alter ego, Jackson records and retells these interconnected sagas in virtuosic detail and, in the process, shows us how race is defined and debated, imposed and confounded every single day.

Tired of your country’s bad politics? Feeling powerless to change things? Start your own utopia instead! This nonfiction graphic novel collects the stories of 30 self-made places around the world built with a dream of utopia, whether a safe haven, an inspiring structure, or a better-run country. These are the empowering and eccentric visions of creators who struck out against the laws of their homelands, the approval of their peers, and even nature itself to reshape the world around them. Readers will travel around the

globe, from the Gay and Lesbian Kingdom of the Coral Sea Islands to the Indian rock garden of Nek Chand, the micronation of Sealand to the pirate-founded, anti-slavery community of Libertatia. planet rizq: Blue-Eyed Devil Michael Muhammad Knight, 2009-03-25 Michael Muhammad Knight embarks on a quest for an indigenous American Islam in a series of interstate odysseys. Traveling 20,000 miles by Greyhound in sixty days, he squats in run-down mosques, pursues Muslim romance, is detained at the U.S.-Canadian border with a trunkload of Shia literature, crashes Islamic Society of North America conventions, stink-palms Cat Stevens, and limps across Chicago to find the grave of Noble Drew Ali, filling dozens of notebooks along the way. The result is this semi-autobiographical book, with multiple histories of Fard and the landscape of American Islam woven into Knight's own story. In the course of his adventures, Knight sorts out his own relationship to Islam as he journeys from punk provocateur to a recognized voice in the community, and watches first-hand the collapse of a liberal Islamic dream. The book's extensive cast of characters includes anarchist Sufi heretics, vegan kungfu punks, tattoo-sleeved converts in hard-core bands, spiritual drug dealers, Islamic feminists, slick media entrepreneurs, sages of the street, the grandsons of Elijah Muhammad and Malcolm X, and a group called Muslims for Bush.
