queen graffiti coloring pages: Don1, the King from Queens Louie Gasparro, 2014-03-28
Among the famous graffiti artists from New York City's 1970s subway era was an unassuming talent from the unassuming borough of Queens. The Italian-American rock and roller who wrote DON 1 MAFIA blasted onto the scene like a meteorite out of nowhere. His influence on this art form transcended the inner city and he became a legend and a household name. But his descent from the top of this name game, a result of the hedonistic lifestyle of New York City at the time, was just as swift, and for years DON1 has lived in obscurity. Fortunately, as a photographer studying at the prestigious school of Art and Design, DON1 documented his iconic work, along with that of his well known contemporaries, using his trusted 35mm camera. This penetrating work takes the reader inside the supernova that was DON1's creative life with nearly 200 never before seen graffiti photos of the most undocumented NYC train lines and an even rarer glimpse at work from his black book.

queen graffiti coloring pages: *Color by Fox* Kristal Brent Zook, 1999-05-13 Following the overwhelming success of *The Cosby Show* in the 1980s, an unprecedented shift took place in television history: white executives turned to black dollars as a way of salvaging network profits lost in the war against video cassettes and cable T.V. Not only were African-American viewers watching disproportionately more network television than the general population but, as Nielsen finally realized, they preferred black shows. As a result, African-American producers, writers, directors, and stars were given an unusual degree of creative control over shows such as *The Fresh Prince of Bel Air*, *Roc*, *Living Single*, and *New York Undercover*. What emerged were radical representations of African-American memory and experience. Offering a fascinating examination of the explosion of black television programming in the 1980s and 1990s, this book provides, for the first time ever, an interpretation of black TV based in both journalism and critical theory. Locating a persistent black nationalist desire--a yearning for home and community--in the shows produced by and for African-Americans in this period, Kristal Brent Zook shows how the Fox hip-hop sitcom both reinforced and rebelled against earlier black sitcoms from the sixties and seventies. Incorporating interviews with such prominent executives, producers, and stars as Keenen Ivory Wayans, Sinbad, Quincy Jones, Robert Townsend, Charles Dutton, Yvette Lee Bowser, and Ralph Farquhar, this study looks at both production and reception among African-American viewers, providing nuanced readings of the shows themselves as well as the sociopolitical contexts in which they emerged. While black TV during this period may seem trivial or buffoonish to some, *Color by Fox* reveals its deep-rooted ties to African-American protest literature and autobiography, and a desire for social transformation.

queen graffiti coloring pages: Graffiti Grrlz Jessica Nydia Pabón-Colón, 2018-06-22 An inside look at women graffiti artists around the world Since the dawn of Hip Hop graffiti writing on the streets of Philadelphia and New York City in the late 1960s, writers have anonymously inscribed their tag names on trains, buildings, and bridges. Passersby are left to imagine who the author might be, and, despite the artists' anonymity, graffiti subculture is seen as a "boys club," where the presence of the graffiti girl is almost unimaginable. In Graffiti Grrlz, Jessica Nydia Pabón-Colón interrupts this stereotype and introduces us to the world of women graffiti artists. Drawing on the lives of over 100 women in 23 countries, Pabón-Colón argues that graffiti art is an unrecognized but crucial space for the performance of feminism. She demonstrates how it builds communities of artists, reconceptualizes the Hip Hop masculinity of these spaces, and rejects notions of "girl power." Graffiti Grrlz also unpacks the digital side of Hip Hop graffiti subculture and considers how it widens the presence of the woman graffiti artist and broadens her networks, which leads to the formation of all-girl graffiti crews or the organization of all-girl painting sessions. A rich and engaging look at women artists in a male-dominated subculture, Graffiti Grrlz reconsiders the intersections of feminism, hip hop, and youth performance and establishes graffiti art as a game that anyone can play.

queen graffiti coloring pages: Racechanges Susan Gubar, 2000 When the actor Ted Danson appeared in blackface at a 1993 Friars Club roast, he ignited a firestorm of protest that landed him on the front pages of the newspapers, rebuked by everyone from talk show host Montel Williams to New York City's then mayor, David Dinkins. Danson's use of blackface was shocking, but was the furious pitch of the response a triumphant indication of how far society has progressed since the days when blackface performers were the toast of vaudeville, or was it also an uncomfortable reminder of how deep the chasm still is separating black and white America? In *Racechanges: White Skin, Black Face in American Culture*, Susan Gubar, who fundamentally changed the way we think about women's literature as co-author of the acclaimed *The Madwoman in the Attic*, turns her attention to the incendiary issue of race. Through a far-reaching exploration of the long overlooked legacy of minstrelsy--cross-racial impersonations or racechanges--throughout modern American film, fiction, poetry, painting, photography, and journalism, she documents the indebtedness of mainstream artists to African-American culture, and explores the deeply conflicted psychology of white guilt. The fascinating racechanges Gubar discusses include whites posing as blacks and blacks passing for white; blackface on white actors in *The Jazz Singer*, *Birth of a Nation*, and other movies, as well as on the faces of black stage entertainers; African-American deployment of racechange imagery during the Harlem Renaissance, including the poetry of Anne Spencer, the black-and-white prints of Richard Bruce Nugent, and the early work of Zora Neale Hurston; white poets and novelists from Vachel Lindsay and Gertrude Stein to John Berryman and William Faulkner writing as if they were black; white artists and writers fascinated by hypersexualized stereotypes of black men; and nightmares and visions of the racechanged baby. Gubar shows that unlike African-Americans, who often are forced to adopt white masks to gain their rights, white people have chosen racial masquerades, which range from mockery and mimicry to an evolving emphasis on inter-racial mutuality and mutability. Drawing on a stunning array of illustrations, including paintings, film stills, computer graphics, and even magazine morphings, *Racechanges* sheds new light on the persistent pervasiveness of racism and exciting aesthetic possibilities for lessening the distance between blacks and whites.
