the morning miracle pdf: Metamorphosis Franz Kafka, 2021-03-19 Franz Kafka, the author has very nicely narrated the story of Gregor Samsa who wakes up one day to discover that he has metamorphosed into a bug. The book concerns itself with the themes of alienation and existentialism. The author has written many important stories, including "The Judgement", and much of his novels "Amerika", "The Castle", "The Hunger Artist". Many of his stories were published during his lifetime but many were not. Over the course of the 1920s and 30s Kafka's works were published and translated instantly becoming landmarks of twentieth-century literature. Ironically, the story ends on an optimistic note, as the family puts itself back together. The style of the book epitomizes Kafka's writing. Kafka very interestingly, used to present an impossible situation, such as a man's transformation into an insect, and develop the story from there with perfect realism and intense attention to detail. The Metamorphosis is an autobiographical piece of writing, and we find that parts of the story reflect Kafka's own life.

the morning miracle pdf: Candide By Voltaire, 2019-06-10 *Candide* is a French satire by Voltaire, a philosopher of the Age of Enlightenment. It begins with a young man, Candide, who is living a sheltered life in an Edenic paradise and being indoctrinated with Leibnizian optimism (or simply Optimism) by his mentor, Pangloss. The work describes the abrupt cessation of this lifestyle, followed by Candide's slow, painful disillusionment as he witnesses and experiences great hardships in the world. Voltaire concludes with Candide, if not rejecting optimism outright, advocating a deeply practical precept, we must cultivate our garden, in lieu of the Leibnizian mantra of Pangloss,

all is for the best in the best of all possible worlds. *Candide* is characterized by its sarcastic tone, as well as by its erratic, fantastical and fast-moving plot. A picaresque novel it parodies many adventure and romance clichés, the struggles of which are caricatured in a tone that is mordantly matter-of-fact. Still, the events discussed are often based on historical happenings, such as the Seven Years' War and the 1755 Lisbon earthquake. As philosophers of Voltaire's day contended with the problem of evil, so too does *Candide* in this short novel, albeit more directly and humorously. Voltaire ridicules religion, theologians, governments, armies, philosophies, and philosophers through allegory; most conspicuously, he assaults Leibniz and his optimism. As expected by Voltaire, *Candide* has enjoyed both great success and great scandal. Immediately after its secretive publication, the book was widely banned because it contained religious blasphemy, political sedition and intellectual hostility hidden under a thin veil of naïveté. However, with its sharp wit and insightful portrayal of the human condition, the novel has since inspired many later authors and artists to mimic and adapt it. Today, *Candide* is recognized as Voltaire's magnum opus and is often listed as part of the Western canon; it is arguably taught more than any other work of French literature. It was listed as one of The 100 Most Influential Books Ever Written.

the morning miracle pdf: The Little Book of Morning Routines Krystian Szastok, 2019-12-23
Learn how you can take charge and transform your day through a simple, minimum 5 minute morning routine. You will learn new ways to boost your energy in the mornings, how to build your morning routine and how to stick to the habit of morning routines. Krystian Szastok has written this book based on his research and practice of morning routines over many years, he has been coached and mentored by extremely successful entrepreneurs and life coaches to maximise his everyday success and bring a mix of self discovery and motivation to your morning. The book doesn't just cover morning routines, but also helps you discover your inner calling and add more purpose to your life. These qualities and accomplishments will bring you closer to others in your life, and help you grow new relationships. From inside of the book: Imagine if you could wake up, get inspired, get some exercise, read, meditate, plan your day, hydrate, have your morning coffee, work on your side projects, and send messages to your loved ones - all before the majority of the world is even awake. I did all this today (as I'm writing this book) by waking up at 4am and just 'doing it'. You can accomplish these things too, just start waking up 15 minutes earlier than you would usually - take small steps. I used to wake up at 7am for a year, because that felt like my absolute earliest (due to climate I wasn't functioning well, it was way too hot in Asia for me). Who is this book for? If you're someone who wants to achieve more in your life - this book is for you. If you're a freelancer or a business owner and you have a lot of daily responsibilities, this book is for you. If you're in a relationship and want to connect better with your partner, or if you're currently single, this is a book for you. Whatever stage of life you're at or lifestyle you're leading, adding morning routines will skyrocket your daily performance.
