Let's face it: Life is something we all make up as we go along. No matter how carefully we formulate a "script," it is bound to change when we interact with people with scripts of their own. *Improv Wisdom* shows how to apply the maxims of improvisational theater to real-life challenges—whether it's dealing with a demanding boss, a tired child, or one of life's never-ending surprises. Patricia Madson distills thirty years of experience into thirteen simple strategies, including "Say Yes," "Start Anywhere," "Face the Facts," and "Make Mistakes, Please," helping readers to loosen up, think on their feet, and take on everything life has to offer with skill, chutzpah, and a sense of humor.

But music and sound are often marginalized, despite the significance of music, voice talent, sound design and effects for both the films and their marketing. Drawn to Sound unpacks animation film sound and music tracks, and contextualises them within the screen and music industries. Focusing on feature-length, widely-distributed films released in the post-WW2 period, the book highlights work from key centres of animation production, such as the USA, the UK, Japan, significant studios including Disney, Aardman Animation and Studio Ghibli, and major auteurs like Tim Burton. Chapters by animation experts such as Paul Wells and Daniel Goldmark and by film music authorities including Philip Hayward, Ian Inglis and Janet Halfyard offer international perspectives on the history and aesthetics of music and sound in animation film. Contributions from authors in Japan, Australia, England, the USA and Canada explore animation soundtracks, their creators and their production approaches. Different disciplinary perspectives from music, media, cultural and animation studies offer models for future analysis. As the first of its kind, this anthology is an
