

army convoy brief powerpoint

army convoy brief powerpoint presentations are essential tools in military operations, serving as structured guides to communicate critical information effectively to all convoy participants. These briefings ensure that every member understands the mission objectives, route details, safety protocols, communication procedures, and contingency plans. An effective army convoy brief PowerPoint enhances situational awareness, reduces risks, and promotes coordinated movements during convoy operations. This article explores the key components of an army convoy brief PowerPoint, tips for creating an impactful presentation, and best practices to ensure clarity and precision. Additionally, it covers common challenges and how to address them, ensuring the convoy mission is executed smoothly and efficiently. The following sections provide a comprehensive overview suitable for military planners, commanders, and personnel involved in convoy operations.

- Purpose and Importance of an Army Convoy Brief PowerPoint
- Key Components of an Army Convoy Brief PowerPoint
- Designing an Effective Army Convoy Brief PowerPoint
- Communication and Coordination in Convoy Briefings
- Challenges and Solutions in Army Convoy Briefs

Purpose and Importance of an Army Convoy Brief PowerPoint

An army convoy brief PowerPoint serves as a centralized medium to convey essential information to convoy participants, ensuring all personnel are aligned with the mission's goals and procedures. The briefing consolidates complex data into a clear, visual format, facilitating comprehension and retention. It plays a vital role in risk mitigation by outlining safety measures, threat assessments, and contingency plans. Furthermore, it reinforces command intent, operational timelines, and vehicle formations, which are critical to maintaining order and discipline within the convoy. The effectiveness of the briefing directly impacts mission success and personnel safety during convoy movements.

Enhancing Situational Awareness

One of the primary functions of an army convoy brief PowerPoint is to enhance situational awareness among all convoy members. By presenting detailed route information, potential hazards, and enemy threat zones, the briefing prepares soldiers to anticipate challenges and react appropriately. Visual aids such as maps, diagrams, and timelines help personnel

grasp spatial and temporal aspects of the mission, reducing confusion and improving response times.

Standardizing Communication

The PowerPoint format standardizes the delivery of information, ensuring that every unit receives consistent instructions. This uniformity minimizes misunderstandings that can occur with verbal briefings alone. Standardized communication is especially crucial in joint or multinational operations where participants may have different training backgrounds or languages.

Key Components of an Army Convoy Brief PowerPoint

A comprehensive army convoy brief PowerPoint includes several critical elements that collectively provide a complete overview of the convoy mission. Each component addresses specific operational needs, contributing to the overall clarity and effectiveness of the briefing.

Mission Overview

This section outlines the convoy's purpose, objectives, and expected outcomes. It includes details such as the convoy's starting point, destination, and the strategic importance of the movement. Clearly stating the mission helps align all participants with the operation's goals.

Route and Navigation Details

The route section provides detailed maps, waypoints, alternate paths, and timing schedules. It highlights critical points such as refueling stops, rest areas, and potential choke points. This information is essential for maintaining proper timing and formation throughout the convoy.

Vehicle and Personnel Formation

Information about vehicle types, order of march, spacing, and security positions is detailed here. Proper formation reduces vulnerability to ambushes and facilitates command and control. This section also outlines roles and responsibilities of each vehicle and its crew.

Communication Procedures

Effective communication is paramount during convoy operations. This component specifies

radio frequencies, call signs, communication protocols, and check-in procedures. Clear communication guidelines reduce the risk of miscommunication and enhance coordination.

Threat Assessment and Security Measures

Identifying potential threats along the route and detailing countermeasures is critical for convoy safety. This section includes intelligence on enemy activity, terrain challenges, and environmental conditions. It also describes security procedures such as convoy speed, lookout positions, and rules of engagement.

Contingency and Emergency Plans

This area covers responses to possible emergencies including vehicle breakdowns, medical evacuations, and enemy contact. Providing clear instructions on emergency protocols ensures rapid and organized reactions to unexpected situations.

Designing an Effective Army Convoy Brief PowerPoint

Designing an army convoy brief PowerPoint requires balancing detailed information with clear visual presentation. The goal is to create a briefing that is both informative and easy to follow, allowing participants to quickly absorb and recall key points.

Use of Visual Aids

Incorporating maps, diagrams, icons, and timelines helps illustrate complex information. Visual aids support verbal explanations and enhance memory retention. For example, route maps with marked checkpoints improve navigation understanding, while diagrams of vehicle formations clarify positioning.

Clear and Concise Text

Text should be succinct, using bullet points and short sentences to convey information effectively. Avoiding jargon and overly technical language improves accessibility for all participants. Highlighting keywords and using consistent formatting helps emphasize important details.

Logical Flow and Structure

The presentation should follow a logical sequence that mirrors the convoy's operational phases—from mission briefing, route navigation, security measures, to contingency plans. This structured approach facilitates comprehension and allows participants to anticipate

the flow of information.

Rehearsal and Feedback

Practicing the briefing and soliciting feedback from participants enhances its clarity and effectiveness. Rehearsals help identify gaps or ambiguities, enabling refinements before the actual mission. Feedback ensures the brief addresses all relevant concerns and is understandable to the intended audience.

Communication and Coordination in Convoy Briefings

Effective communication and coordination are critical components of any army convoy brief PowerPoint. Properly executed, they ensure that all personnel operate with the same understanding, reducing errors and enhancing mission success.

Radio and Signal Protocols

The briefing must specify radio frequencies, call signs, and communication protocols to avoid confusion during the convoy. Clear instructions on when and how to communicate, including brevity codes and emergency signals, ensure timely and effective information exchange.

Roles and Responsibilities

Assigning and communicating each participant's role within the convoy promotes accountability and smooth operations. The briefing clearly defines leadership positions, security elements, vehicle drivers, and support personnel, ensuring everyone knows their tasks and reporting lines.

Coordination with Supporting Units

Convoy operations often involve coordination with external units such as air support, medical teams, or engineering units. The briefing outlines points of contact, coordination procedures, and synchronization measures to facilitate integrated operations.

Challenges and Solutions in Army Convoy Briefs

Despite careful planning, army convoy brief PowerPoint presentations can face challenges that hinder their effectiveness. Recognizing these issues and implementing solutions is vital for successful convoy execution.

Information Overload

Presenting too much information can overwhelm participants, reducing retention and focus. To address this, briefings should prioritize critical data, use visuals to simplify complex points, and segment information into manageable sections.

Technical Difficulties

Dependence on technology can lead to issues such as equipment failure or compatibility problems. Preparing backup copies, using standardized equipment, and conducting pre-briefing technical checks help mitigate these risks.

Variability in Audience Experience

Convoy participants may have differing levels of experience and familiarity with procedures. Tailoring the briefing language, providing additional explanations where needed, and encouraging questions enhances understanding across all skill levels.

Maintaining Attention and Engagement

Lengthy or monotonous presentations can cause disengagement. Incorporating interactive elements, varying presentation styles, and emphasizing practical examples help maintain attention and reinforce learning.

Adapting to Changing Conditions

Operational environments may change rapidly, requiring updates to the convoy brief. Establishing procedures for timely revisions and communicating changes promptly ensure that all participants remain informed and prepared.

Summary of Best Practices for Army Convoy Brief PowerPoints

Successful army convoy brief PowerPoint presentations are characterized by clarity, completeness, and adaptability. Emphasizing structured content, effective visuals, and interactive communication enhances mission readiness and safety. Implementing rehearsals and feedback loops further refines the briefing process, ensuring that convoy participants are well-prepared for their roles.

- Clearly define mission objectives and convoy route details.
- Use visual aids such as maps and diagrams to support information.

- Standardize communication protocols and assign clear roles.
- Prioritize critical information to avoid overload.
- Prepare for technical contingencies and update briefings as needed.
- Engage the audience through interactive and concise presentations.

Frequently Asked Questions

What is an army convoy brief PowerPoint?

An army convoy brief PowerPoint is a presentation used by military personnel to outline the details, procedures, and safety measures for conducting a convoy operation.

What key elements should be included in an army convoy brief PowerPoint?

Key elements include convoy route, timing, vehicle roles, communication protocols, threat assessments, emergency procedures, and rules of engagement.

How can visuals enhance an army convoy brief PowerPoint?

Visuals such as maps, diagrams, photos of vehicles, and flowcharts help clarify complex information, making it easier for soldiers to understand roles and routes.

What are some best practices for creating an effective army convoy brief PowerPoint?

Use clear and concise language, incorporate relevant visuals, maintain a logical flow, highlight critical safety information, and ensure slides are not overcrowded.

How important is communication in an army convoy brief PowerPoint?

Communication is crucial; the brief must detail radio frequencies, call signs, communication procedures, and contingency plans to maintain coordination during the convoy.

Can an army convoy brief PowerPoint be customized for

different missions?

Yes, the briefing should be tailored to the specific mission, considering factors like terrain, enemy threat levels, convoy size, and mission objectives.

Where can I find templates or examples of army convoy brief PowerPoints?

Templates and examples can be found on military training websites, official army resources, or by requesting materials from military training units and instructors.

Additional Resources

1. *Mastering Army Convoy Operations: A Tactical Guide*

This book offers a comprehensive overview of army convoy operations, focusing on tactics, planning, and execution. It provides detailed insights into convoy briefings, risk assessments, and communication protocols. Military personnel will find practical advice for ensuring safety and mission success during convoy movements.

2. *Convoy Command: Leadership and Strategy in Military Logistics*

A deep dive into the leadership skills required for managing convoy operations, this book covers strategic planning, decision-making under pressure, and team coordination. It highlights real-world case studies and includes sample briefing templates to enhance operational effectiveness.

3. *Effective PowerPoint Briefings for Military Operations*

Designed specifically for military professionals, this guide teaches how to create clear and impactful PowerPoint presentations for operational briefings. Readers learn how to structure information, use visual aids effectively, and communicate complex tactical details succinctly.

4. *Army Convoy Safety and Risk Management*

Focusing on safety protocols and risk management, this book outlines the best practices for minimizing hazards during convoy missions. It discusses threat identification, countermeasures, and emergency response plans, emphasizing the importance of thorough briefings to mitigate risks.

5. *Logistics and Movement Control in Army Convoys*

This volume covers the logistics behind convoy operations, including route selection, scheduling, and resource allocation. It provides practical tools for planners and commanders to optimize convoy movement and maintain supply chain integrity.

6. *Communication Techniques for Military Convoys*

Effective communication is critical in convoy operations, and this book explores methods for maintaining clear and secure channels. It addresses radio protocols, briefing formats, and coordination strategies to ensure seamless information flow among convoy members.

7. *Preparing and Delivering Tactical Briefings: A Military Guide*

A focused manual on crafting and presenting tactical briefings, this book helps military

leaders convey mission-critical information with clarity. It includes tips on audience engagement, slide design, and briefing rehearsals tailored to the army environment.

8. Convoy Operations in Hostile Environments

This book examines the challenges and tactics involved in conducting convoy missions in hostile or contested areas. It discusses threat assessment, convoy defense measures, and the role of briefings in preparing troops for high-risk scenarios.

9. The Art of Military Briefing: From Planning to Execution

Covering the entire briefing process, this book guides readers through planning, content development, and delivery techniques. Its military-focused approach ensures briefings are concise, informative, and actionable, enhancing overall mission readiness.

Army Convoy Brief PowerPoint: A Comprehensive Guide

By: Captain (Ret.) Johnathan Miller

Outline:

Introduction: The Importance of Effective Convoy Briefings

Chapter 1: Pre-Mission Planning and Intelligence Gathering

Chapter 2: Route Planning and Risk Assessment

Chapter 3: Vehicle Preparation and Driver Responsibilities

Chapter 4: Communication Protocols and Emergency Procedures

Chapter 5: Security Measures and Threat Response

Chapter 6: Convoy Formation and Movement Techniques

Chapter 7: Post-Mission Debriefing and Lessons Learned

Conclusion: Maintaining Operational Readiness Through Effective Briefings

Army Convoy Brief PowerPoint: A Comprehensive Guide

This ebook delves into the critical aspects of preparing and delivering effective army convoy briefings. Convoy operations are inherently risky, demanding meticulous planning and flawless execution. A well-structured briefing is the cornerstone of a successful and safe mission, minimizing risks to personnel and equipment. This guide provides a detailed framework for creating and

presenting compelling and informative briefings, equipping commanders and leaders with the tools to ensure mission success and the safety of their troops. We will cover everything from pre-mission intelligence to post-mission debriefing, emphasizing best practices and real-world scenarios.

Chapter 1: Pre-Mission Planning and Intelligence Gathering

Effective convoy briefings begin long before the vehicles roll. Pre-mission planning hinges on comprehensive intelligence gathering. This includes:

Threat Assessment: Identifying potential threats along the planned route, considering factors such as enemy activity, IED (Improvised Explosive Device) placement likelihood, criminal elements, and environmental hazards. Utilize all available intelligence resources – HUMINT (Human Intelligence), SIGINT (Signals Intelligence), IMINT (Imagery Intelligence), and OSINT (Open-Source Intelligence).

Route Reconnaissance: Conducting thorough reconnaissance of the route, either physically or through imagery analysis. This helps identify potential choke points, ambush sites, and areas with limited visibility. Note the presence of civilian populations, potential escape routes, and readily available cover and concealment.

Enemy Capabilities and Tactics: Understanding the enemy's known tactics, techniques, and procedures (TTPs) is crucial. This allows the convoy commander to anticipate potential threats and develop appropriate countermeasures. This includes assessing their weaponry, mobility, and communication capabilities.

Weather Conditions: Assessing weather conditions and their potential impact on the mission. Heavy rain, snow, or extreme heat can significantly affect vehicle performance and visibility, increasing risk.

Logistical Considerations: Planning for fuel, water, rations, and medical supplies. Ensuring sufficient resources are available for the entire convoy throughout the duration of the mission is paramount.

Chapter 2: Route Planning and Risk Assessment

Route planning is a critical element of pre-mission planning. This involves:

Selecting the Optimal Route: Choosing the safest and most efficient route based on the intelligence gathered. Consider factors such as road conditions, traffic density, and potential threats. Multiple routes should be planned as contingencies.

Identifying Checkpoints and Rally Points: Establishing clear checkpoints and rally points along the route. These serve as locations for regrouping, refueling, and assessing the situation.

Risk Mitigation Strategies: Developing strategies to mitigate identified risks. This might involve using alternate routes, increasing security measures, or altering the convoy's schedule.

Time-Distance Analysis: Calculating the estimated time and distance for each leg of the journey. This allows for accurate scheduling and provides a baseline for monitoring progress.

Contingency Planning: Developing contingency plans for unexpected events, such as mechanical failures, ambushes, or unexpected weather changes. This ensures the convoy remains flexible and adaptable.

Chapter 3: Vehicle Preparation and Driver Responsibilities

The vehicles themselves are crucial elements of a successful convoy mission. Proper preparation is essential, encompassing:

Vehicle Maintenance: Ensuring all vehicles are mechanically sound and properly maintained.

Conduct pre-mission inspections to identify and address any potential mechanical issues.

Equipment Checks: Verifying that all necessary equipment is present and functioning correctly, including communications gear, weapons systems, and medical supplies.

Driver Training and Proficiency: Confirming driver proficiency and familiarity with the route and emergency procedures. This might involve refresher training or route familiarization exercises.

Load Planning: Properly securing cargo to prevent shifting or damage during transit. Ensure weight distribution is balanced to optimize vehicle handling and stability.

Vehicle Marking and Identification: Implementing clear vehicle marking and identification procedures to easily distinguish friendly units and facilitate coordination.

Chapter 4: Communication Protocols and Emergency Procedures

Clear and effective communication is vital throughout the convoy operation. This involves:

Establishing Communication Channels: Defining the communication channels and procedures to be used. This includes specifying frequencies, call signs, and reporting procedures.

Emergency Procedures: Establishing clear and concise emergency procedures for various scenarios, such as ambushes, mechanical breakdowns, or medical emergencies. This should include pre-arranged signals and responses.

Communication Checks: Conducting regular communication checks to ensure all vehicles can communicate effectively. This allows for early detection and correction of any communication problems.

Reporting Procedures: Defining standard operating procedures for reporting incidents, updating the convoy commander on the situation, and requesting assistance.

Use of Technology: Leveraging available technologies, such as GPS tracking and satellite communication systems, to enhance situational awareness and improve coordination.

Chapter 5: Security Measures and Threat Response

Security is paramount in convoy operations. This involves:

Convoy Security Detachment: Employing appropriate security measures, including deploying a well-trained security detachment to protect the convoy from threats.

Defensive Driving Techniques: Training drivers in defensive driving techniques to minimize

vulnerabilities and react effectively to potential threats.

Reaction to Contact: Developing clear procedures for responding to contact with enemy forces, including engagement protocols and defensive maneuvers.

Use of Force Rules: Adhering strictly to established rules of engagement (ROE) to avoid civilian casualties and unnecessary escalation.

Protective Measures: Employing various protective measures, such as armored vehicles, countermeasures against IEDs, and physical security checks along the route.

Chapter 6: Convoy Formation and Movement Techniques

Effective convoy formation and movement techniques are critical to minimizing vulnerabilities. This involves:

Convoy Formation: Establishing a suitable convoy formation based on the threat level and terrain. Common formations include linear, staggered, and diamond formations.

Speed and Spacing: Maintaining appropriate speed and spacing between vehicles to maintain situational awareness and avoid collisions.

Movement Techniques: Utilizing appropriate movement techniques to navigate challenging terrain and avoid ambush sites.

Navigation and Route Adherence: Following the planned route closely and using appropriate navigation techniques to prevent getting lost.

Coordination and Communication: Maintaining constant coordination and communication among vehicles to ensure smooth and efficient movement.

Chapter 7: Post-Mission Debriefing and Lessons Learned

Post-mission debriefing is a crucial opportunity to identify areas for improvement. This involves:

Conducting a Thorough Debrief: Conducting a formal debrief immediately following the mission to assess performance and identify areas for improvement.

Gathering Feedback: Collecting feedback from all participants, including drivers, security personnel, and support staff.

Identifying Strengths and Weaknesses: Identifying both strengths and weaknesses in the mission execution to inform future operations.

Implementing Corrective Actions: Implementing corrective actions to address identified deficiencies and improve future convoy operations.

Documenting Lessons Learned: Documenting all lessons learned to share knowledge and improve overall operational efficiency.

Conclusion: Maintaining Operational Readiness Through Effective Briefings

Effective army convoy briefings are not simply a formality; they are a critical component of successful and safe convoy operations. By carefully planning, preparing, and executing briefings, commanders can significantly reduce risks and increase the likelihood of mission success. This guide provides a comprehensive framework for developing and delivering high-quality briefings that emphasize safety, efficiency, and operational success. The emphasis on continuous improvement, through thorough post-mission debriefings and the incorporation of lessons learned, is crucial for maintaining operational readiness and safeguarding the lives and equipment of the troops involved.

FAQs

1. What is the most important element of a convoy briefing? A comprehensive threat assessment and risk mitigation plan are paramount.
2. How often should convoy briefings be conducted? Before every mission, with additional briefings for complex or high-risk operations.
3. What is the role of the convoy commander in the briefing? The commander ensures all aspects are covered, delegates responsibilities, and leads the debrief.
4. What types of communication systems are commonly used in convoys? VHF radios, satellite phones, and encrypted communication systems.
5. How can I improve the effectiveness of my convoy briefings? Use visual aids, practice active listening, and encourage questions.
6. What are some common mistakes made during convoy operations? Poor communication, inadequate route planning, and insufficient security measures.
7. How can technology improve convoy safety? GPS tracking, drone surveillance, and advanced communication systems.
8. What is the importance of post-mission debriefings? To learn from mistakes, identify strengths, and improve future operations.
9. Where can I find additional resources on convoy operations? Military doctrine manuals, professional journals, and online resources.

army convoy brief powerpoint: Army Logistician , 2007 The official magazine of United States Army logistics.

army convoy brief powerpoint: The Other End of the Spear John J. Mcgrath, 2011-09-16 This book looks at several troop categories based on primary function and analyzes the ratio between these categories to develop a general historical ratio. This ratio is called the Tooth-to-Tail Ratio. McGrath's study finds that this ratio, among types of deployed US forces, has steadily declined since World War II, just as the nature of warfare itself has changed. At the same time, the percentage of deployed forces devoted to logistics functions and to base and life support functions have increased, especially with the advent of the large-scale use of civilian contractors. This work provides a unique analysis of the size and composition of military forces as found in historical patterns. Extensively illustrated with charts, diagrams, and tables. (Originally published by the Combat Studies Institute Press)

army convoy brief powerpoint: Convoy Ambush Case Studies Richard E. Killblane, 2014-08-15 When the enemy adopts a policy to attack convoys, truck drivers become front line troops. Convoy commanders must then become tacticians. How to study war? The student of tactics studies previous fights and mentally places himself in the position of the participants. Knowing what they knew, how would he have reacted? In hind sight, what was the best course of action, remembering that there is no one perfect solution? Any number of actions would have succeeded. The tactician must learn what would have worked best for him. For this reason, I have pulled together all the examples of convoy ambushes. The 20th century, Vietnam War, and current war in Iraq provide a wealth of examples of convoy ambushes from which to study. Unfortunately, the US Army did not record many good accounts of ambushes during the Vietnam War. Much of what is presented in this text is based upon oral interviews of the participants, sometimes backed by official record, citations or reports. For this reason, some of the ambush case studies present only the perspective of a crew member of a gun truck or the convoy commander. Since this academic study works best when one mentally takes the place of one of the participants, this view of the ambush serves a useful purpose. After my own review of the ambushes, I have drawn my own conclusion as to what principles apply to convoy ambushes.

army convoy brief powerpoint: Materials Handling and Storage , 1985

army convoy brief powerpoint: Automating Army Convoys Shawn McKay, Matthew E. Boyer, Nahom M. Beyene, 2020-03-15 How should the U.S. Army develop and integrate automated driving technology for its convoy operations in the next one to five years? The authors examine the technical and tactical benefits and risks of employment concepts for automated trucks.

army convoy brief powerpoint: Commander's Tactical Handbook United States Marine Corps, 2004-11-01 Commander's Tactical Handbook contains reference material frequently used to organize, plan, and conduct Marine ground combat operations. Its intent is to assist small unit leaders functioning at the company level and below, but it also serves as a field reference guide for all Marine leaders. Leaders of combat support and combat service support organizations should

familiarize themselves with the contents of this publication to understand the operational support requirements discussed.

army convoy brief powerpoint: Cross Channel Attack Gordon A. Harrison, 1993-12

Discusses the Allied invasion of Normandy, with extensive details about the planning stage, called Operation Overlord, as well as the fighting on Utah and Omaha Beaches.

army convoy brief powerpoint: Fiasco Thomas E. Ricks, 2006-07-25 Finalist for the Pulitzer

Prize • One of the Washington Post Book World's 10 Best Books of the Year • Time's 10 Best Books of the Year • USA Today's Nonfiction Book of the Year • A New York Times Notable Book
Staggeringly vivid and persuasive . . . absolutely essential reading. —Michiko Kakutani, The New York Times The best account yet of the entire war. —Vanity Fair The definitive account of the American military's tragic experience in Iraq Fiasco is a masterful reckoning with the planning and execution of the American military invasion and occupation of Iraq through mid-2006, now with a postscript on recent developments. Ricks draws on the exclusive cooperation of an extraordinary number of American personnel, including more than one hundred senior officers, and access to more than 30,000 pages of official documents, many of them never before made public. Tragically, it is an undeniable account—explosive, shocking, and authoritative—of unsurpassed tactical success combined with unsurpassed strategic failure that indicts some of America's most powerful and honored civilian and military leaders.

army convoy brief powerpoint: On Point Gregory Fontenot, E. J. Degen, David Tohn, 2005

Den amerikanske hærs første officielle historiske beretning om operationerne i den anden Irakiske Krig, Operation Iraqi Freedom, (OIF). Fra forberedelserne, mobiliseringen, forlægningen af enhederne til indsættelsen af disse i kampene ved Talil og As Samawah, An Najaf og de afsluttende kampe ved Bagdad. Foruden en detaljeret gennemgang af de enkelte kampenheder (Order of Battle), beskrives og analyseres udviklingen i anvendte våben og doktriner fra den første til den anden Golf Krig.

army convoy brief powerpoint: The Brigade: A History, Its Organization and Employment in

the US Army, 2004 This work provides an organizational history of the maneuver brigade and case studies of its employment throughout the various wars. Apart from the text, the appendices at the end of the work provide a ready reference to all brigade organizations used in the Army since 1917 and the history of the brigade colors.

army convoy brief powerpoint: In Contact! William Glenn Robertson, 2006 Case studies

include lethal and nonlethal missions performed by soldiers in Iraq and Afghanistan. The events chronicled span the spectrum of participants from officers to noncommissioned officers, and from combat units to support personnel, all in contact with a vicious and unforgiving enemy.

army convoy brief powerpoint: U.S. Army Ranger Handbook U.S. Army Ranger School,

United States. Department of Defense, 2013 The Official US Army Ranger Handbook, as used in Fort Benning -- Amazon website.

army convoy brief powerpoint: Into the Fire Dakota Meyer, Bing West, 2013-06-18 "The

story of what Dakota did . . . will be told for generations."—President Barack Obama, from remarks given at Meyer's Medal of Honor ceremony In the fall of 2009, Taliban insurgents ambushed a patrol of Afghan soldiers and Marine advisors in a mountain village called Ganjigal. Firing from entrenched positions, the enemy was positioned to wipe out one hundred men who were pinned down and were repeatedly refused artillery support. Ordered to remain behind with the vehicles, twenty-one year-old Marine corporal Dakota Meyer disobeyed orders and attacked to rescue his comrades. With a brave driver at the wheel, Meyer stood in the gun turret exposed to withering fire, rallying Afghan troops to follow. Over the course of the five hours, he charged into the valley time and again. Employing a variety of machine guns, rifles, grenade launchers, and even a rock, Meyer repeatedly repulsed enemy attackers, carried wounded Afghan soldiers to safety, and provided cover for dozens of others to escape—supreme acts of valor and determination. In the end, Meyer and four stalwart comrades—an Army captain, an Afghan sergeant major, and two Marines—cleared the battlefield and came to grips with a tragedy they knew could have been avoided. For his actions on that day,

Meyer became the first living Marine in three decades to be awarded the Medal of Honor. Into the Fire tells the full story of the chaotic battle of Ganjigal for the first time, in a compelling, human way that reveals it as a microcosm of our recent wars. Meyer takes us from his upbringing on a farm in Kentucky, through his Marine and sniper training, onto the battlefield, and into the vexed aftermath of his harrowing exploits in a battle that has become the stuff of legend. Investigations ensued, even as he was pitched back into battle alongside U.S. Army soldiers who embraced him as a fellow grunt. When it was over, he returned to the States to confront living with the loss of his closest friends. This is a tale of American values and upbringing, of stunning heroism, and of adjusting to loss and to civilian life. We see it all through Meyer's eyes, bullet by bullet, with raw honesty in telling of both the errors that resulted in tragedy and the resolve of American soldiers, U.S. Marines, and Afghan soldiers who'd been abandoned and faced certain death. Meticulously researched and thrillingly told, with nonstop pace and vivid detail, Into the Fire is the unvarnished story of a modern American hero. Praise for Into the Fire "A story of men at their best and at their worst . . . leaves you gaping in admiration at Medal of Honor winner Dakota Meyer's courage."—National Review "Meyer's dazzling bravery wasn't momentary or impulsive but deliberate and sustained."—The Wall Street Journal "[A] cathartic, heartfelt account . . . Combat memoirs don't get any more personal."—Kirkus Reviews "A great contribution to the discussion of an agonizingly complex subject."—The Virginian-Pilot "Black Hawk Down meets Lone Survivor."—Library Journal

army convoy brief powerpoint: *McWp 3-35.3 - Military Operations on Urbanized Terrain (Mout)* U. S. Marine Corps, 2015-02-01 This manual provides guidance for the organization, planning, and conduct of the full range of military operations on urbanized terrain. This publication was prepared primarily for commanders, staffs, and subordinate leaders down to the squad and fire team level. It is written from a Marine air-ground task force perspective, with emphasis on the ground combat element as the most likely supported element in that environment. It provides the level of detailed information that supports the complexities of planning, preparing for, and executing small-unit combat operations on urbanized terrain. It also provides historical and environmental information that supports planning and training for combat in built-up areas

army convoy brief powerpoint: *Block by Block* William Glenn Robertson, Lawrence A. Yates, 2003 First published by the Combat Studies Institute Press. The resulting anthology begins with a general overview of urban operations from ancient times to the midpoint of the twentieth century. It then details ten specific case studies of U.S., German, and Japanese operations in cities during World War II and ends with more recent Russian attempts to subdue Chechen fighters in Grozny and the Serbian siege of Sarajevo. Operations range across the spectrum from combat to humanitarian and disaster relief. Each chapter contains a narrative account of a designated operation, identifying and analyzing the lessons that remain relevant today.

army convoy brief powerpoint: *The Hardest Place* Wesley Morgan, 2022-03-01 COLBY AWARD WINNER • "One of the most important books to come out of the Afghanistan war."—Foreign Policy "A saga of courage and futility, of valor and error and heartbreak."—Rick Atkinson, author of the Liberation Trilogy and The British Are Coming Of the many battlefields on which U.S. troops and intelligence operatives fought in Afghanistan, one remote corner of the country stands as a microcosm of the American campaign: the Pech and its tributary valleys in Kunar and Nuristan. The area's rugged, steep terrain and thick forests made it a natural hiding spot for local insurgents and international terrorists alike, and it came to represent both the valor and futility of America's two-decade-long Afghan war. Drawing on reporting trips, hundreds of interviews, and documentary research, Wesley Morgan reveals the history of the war in this iconic region, captures the culture and reality of the conflict through both American and Afghan eyes, and reports on the snowballing missteps—some kept secret from even the troops fighting there—that doomed the American mission. The Hardest Place is the story of one of the twenty-first century's most unforgiving battlefields and a portrait of the American military that fought there.

army convoy brief powerpoint: *The Engineer* ,

army convoy brief powerpoint: *Military English Tactical and Peacekeeping Operations*

Robert Buckmaster, 2019-06-24 Military English: English for Tactical and Peacekeeping Operations is a pre-deployment course for Army personnel who are to be sent on multinational peace support operations or on training courses in an English language speaking country, or are to be trained by English-speaking instructors. Your students should already have studied up to a pre-intermediate level [Common European Framework A2] before starting the course - that is they should be ready for an Intermediate/ B1 Level course. There are four components to the course: 1: A Coursebook (this component) with 200 lesson-units, providing over 200 hours of study materials including vocabulary learning tasks, reading and listening tasks, briefings, role plays and other speaking tasks. 2: A Workbook, which includes a grammar reference and study pages, peacekeeping reading tasks, writing tasks, abbreviations and acronym study pages, patrol report forms etc., consolidation tasks, a mini dictionary, key vocabulary pages, and key tactical verbs. 3: A Teacher's Book with full instructions on teaching the course, and coursebook and workbook task keys. 4: Downloadable colour pictures, maps, PowerPoint Presentations and audio files, and audio transcripts for use on phones, tablets or computers. These can be freely downloaded and shared with all students. Course Overview: There are three Phases to the Course. Phase One of the course is a series of intertwined threads of General English units, General Military English units and some Specialised Military English units. Phase Two is blocks of units of Specialised Military English, and General English with a Military Application. Phase Three revises and activates the Specialised Military English of Phase One and Two and adds Peacekeeping English. Course Aims: This course is designed to teach soldiers (enlisted men, NCOs and junior officers) how to operate effectively in multinational tactical and peacekeeping operations. By the end of the course the students should be able to do the following in English: Interpersonal Skills: Talk about their families * Talk about their careers * Talk about their homes * Talk about their leisure interests e.g. hobbies, sports, films and music * Socialise e.g. make arrangements to meet * Ask and answer questions * Give personal opinions on topics like personal equipment. Professional Skills: Understand and use common acronyms * Use the NATO/Phonetic Alphabet * Tell the time * Talk about the weather and climate * Talk about their army and unit structure and purpose * Talk about their training * Make radio calls including MEDEVAC/CASEVAC * Understand Tactical Combat Casualty Care * Understand land navigation * Describe rural and urban terrain * Describe people and clothing * Give a short professional briefing supported by visuals * Understand ROE * Describe bases * Understand and describe convoy operations * Understand and describe checkpoint operations * Understand and describe the use of observation posts * Understand and describe patrol operations * Understand [and give] orders [Patrol Orders, WARNO, OPORD] * Understand the differences between tactical and peacekeeping missions, patrols, ROE, OPs, checkpoints, and convoys * Understand and propose solutions to common survival situations * Understand and propose solutions to common tactical and peacekeeping problems * Write a short report. The course has an open and clear methodology, built in revision tasks and essential practice in the five core area for tactical and peacekeeping operations: understanding briefings and orders, convoy and checkpoint operations, and patrolling. Each Phase has built in tests, and the whole course builds up your students confidence in using Military English, and develops their listening and speaking skills so they can operate effectively in training situations and on missions.

army convoy brief powerpoint: My War Colby Buzzell, 2014-11-28 'Once we passed the checkpoint at the border, it hit me. I was like, Holy Shit, this is it, I'm entering a combat zone. Cool!' At twenty-six Colby Buzzell, unemployed and living at home, decided to join the US Army. Within months he was in Iraq, a machine gunner in the controversial Stryker Brigade Combat Team, an army unit on the cutting edge of combat technology and the first of its kind. Trapped amid 'guerrilla warfare, urban-style' in Mosul, Iraq, Buzzell was struck by the bizarre and often frightening world surrounding him. He began writing a blog describing the war - not as being reported by CNN or official briefings - but as experienced by the soldier on the ground. His story is a brutally honest and hard-hitting account of the absurdities of modern war. These are the real stories of the war: a firefight where the resistance came from 'men in black'; a night spent chain-smoking in the guard

tower counting the tracer bullets being fired over the city; and the hesitation of a young soldier who had been passed around from platoon to platoon because he was too afraid to fight. *My War* is a powerful story of a young man and a war, unlike any you have read before.

army convoy brief powerpoint: *Seven Firefights in Vietnam* John A. Cash, 1993-07 Based on official army records, these eyewitness accounts of seven hellacious battles serve as a brief history of the Vietnam conflict. From a fierce fight on the banks of the Ia Drang River in 1965 to a 1968 gunship mission, this illustrated report conveys the heroism and horror of warfare.

army convoy brief powerpoint: *Defending Air Bases in an Age of Insurgency* Shannon Caudill, Air University Press, 2014-08 This anthology discusses the converging operational issues of air base defense and counterinsurgency. It explores the diverse challenges associated with defending air assets and joint personnel in a counterinsurgency environment. The authors are primarily Air Force officers from security forces, intelligence, and the office of special investigations, but works are included from a US Air Force pilot and a Canadian air force officer. The authors examine lessons from Vietnam, Iraq, Afghanistan, and other conflicts as they relate to securing air bases and sustaining air operations in a high-threat counterinsurgency environment. The essays review the capabilities, doctrine, tactics, and training needed in base defense operations and recommend ways in which to build a strong, synchronized ground defense partnership with joint and combined forces. The authors offer recommendations on the development of combat leaders with the depth of knowledge, tactical and operational skill sets, and counterinsurgency mind set necessary to be effective in the modern asymmetric battlefield.

army convoy brief powerpoint: *Weapon of Choice* , 2003 The purpose of this book is to share Army special operations soldier stories with the general American public to show them what various elements accomplished during the war to drive the Taliban from power and to destroy al-Qaeda and Taliban strongholds in Afghanistan as part of the global war on terrorism. The purpose of the book is not to resolve Army special operations doctrinal issues, to clarify or update military definitions, or to be the 'definitive' history of the continuing unconventional war in Afghanistan. The purpose is to demonstrate how the war to drive the Taliban from power, help the Afghan people, and assist the Afghan Interim Authority (AIA) rebuild the country afterward was successfully accomplished by majors, captains, warrant officers, and sergeants on tactical teams and aircrews at the lowest levels ... This historical project is not intended to be the definitive study of the war in Afghanistan. It is a 'snapshot' of the war from 11 September 2001 until the middle of May 2002--Page xv.

army convoy brief powerpoint: *The Chinese Navy* Institute for National Strategic Studies, 2011-12-27 Tells the story of the growing Chinese Navy - The People's Liberation Army Navy (PLAN) - and its expanding capabilities, evolving roles and military implications for the USA. Divided into four thematic sections, this special collection of essays surveys and analyzes the most important aspects of China's naval modernization.

army convoy brief powerpoint: *Jayhawk!* Stephen Alan Bourque, 2002

army convoy brief powerpoint: *The Human in Command* Carol McCann, Ross Pigeau, 2012-12-06 This book brings together experienced military leaders and researchers in the human sciences to offer current operational experience and scientific thought on the issue of military command, with the intention of raising awareness of the uniquely human aspects of military command. It includes chapters on the personal experiences of senior commanders, new concepts and treatises on command theory, and empirical findings from experimental studies in the field.

army convoy brief powerpoint: *Between the Rivers* John McGrath, Combat Studies Institute Press, 2019-06-24 Making history useful to the reader - this is one of the missions of the Combat Studies Institute. We strive to produce works that recount historical events to inform decision makers and to enable experiential learning. This collection of events put together by John McGrath, which occurred in Iraq during the 2003-2005 timeframe, addresses that mission.

army convoy brief powerpoint: *Field Manual FM 3-98 Reconnaissance and Security Operations July 2015* United States Army, 2015-08-08 This publication, Field Manual FM 3-98 Reconnaissance and Security Operations July 2015, provides doctrinal guidance and direction for

Cavalry organizations, as well as reconnaissance and security organizations. This FM establishes the foundation for the development of tactics and procedures in subordinate doctrine publications. This publication applies across the range of military operations. While the main focus of this field manual is Cavalry formations within the units listed below, all maneuver formations must be able to conduct reconnaissance and security tasks. - Armored brigade combat team (ABCT) Cavalry squadron. - Infantry brigade combat team (IBCT) Cavalry squadron. - Stryker brigade combat team (SBCT) Cavalry squadron. - Battlefield surveillance brigade (BFSB) Cavalry squadron. - It is applicable to the- - Scout platoon of maneuver battalions. - Combat aviation brigade air squadron. The principal audiences for FM 3-98 are commanders, leaders, and staffs responsible for the planning, execution, or support of reconnaissance and security operations as well as instructors charged with teaching reconnaissance and security operations. Doctrine consists of fundamental principles that describe how to fight. At the tactical level, doctrine consists of authoritative principles concerning how to execute reconnaissance and security operations as part of Army and joint operations that require professional military judgment in their application. Importantly, our doctrine must describe how brigade combat teams (BCT) and subordinate units combine the capabilities of various arms into cohesive, combined arms, air-ground teams and provide a clear description of how to execute reconnaissance and security operations. This publication provides the commander and staff of Cavalry formations with doctrine relevant to Army and joint operations. This publication explains how effective reconnaissance and security operations generate depth, allow commanders reaction time and maneuver space, fight for information and collect information through stealth, protect against surprise, ease the forward movement of follow-on forces, and provide commanders with flexibility and adaptability. The doctrine described in this publication is applicable across unified land operations. The previous proponent manual for Cavalry Operations was FM 3-20.96, published 12 March 2010, which included operational considerations. This publication provides doctrinal guidance for all formations assigned to the ABCT, the IBCT, and SBCT. The following is a summary of each chapter in the manual: Chapter 1 addresses the role of Cavalry in unified land operations and Cavalry organizations. Chapter 2 discusses understanding the threat, potential threat groups and threat characteristics. Chapter 3 addresses the operational environment, shaping, engaging, and influencing outcomes, and consolidating gains. Chapter 4 highlights the updated concepts of mission command in relation to commander's reconnaissance and security guidance, the operations process and information collection. Chapter 5 begins with an overview, followed by a detailed discussion of the fundamentals of reconnaissance, forms of reconnaissance, and reconnaissance handover. Chapter 6 begins with an overview, followed with the fundamentals of security operations, counterreconnaissance, and the forms of security. Chapter 7 provides a short overview and then devotes a section to reconnaissance and security stability planning, stability principles and frameworks, and stability tasks. Chapter 8 describes sustainment for reconnaissance and security tasks, sustainment planning considerations for reconnaissance and security, sustainment considerations for reconnaissance and security and special sustainment consideration.

army convoy brief powerpoint: *Unit Air Movement Planning* United States. Department of the Army, 1981

army convoy brief powerpoint: Preparing the Army for Stability Operations Thomas S. Szayna, Derek Eaton, Amy Frances Richardson, 2007 In 2004-2006, the U.S. government acted to revise the way that the planning and implementation of Stabilization, Security, Transition, and Reconstruction (SSTR) operations are conducted. The primary emphasis of the changes was on ensuring a common U.S. strategy rather than a collection of individual departmental and agency efforts and on mobilizing and involving all available U.S. government assets in the effort. The proximate reason for the policy shift stems from the exposing of gaps in the U.S. ability to administer Afghanistan and Iraq after the U.S.-led ousters of the Taliban and Ba'athist regimes. But the effort to create U.S. government capabilities to conduct SSTR operations in a more unified and coherent fashion rests on the deeper conviction that, as part of the U.S. strategy to deal with transnational terrorist groups, the United States must have the capabilities to increase the governance capacities of weak states,

reduce the drivers of and catalysts to conflict, and assist in peacebuilding at all stages of pre- or post-conflict transformation. According to the Joint Operating Concept for Military Support to SSTR operations, these operations are civilian-led and conducted and coordinated with the involvement of all the available resources of the U.S. government (military and civilian), nongovernmental organizations (NGOs), and international partners. Although military assets are an essential component of many SSTR operations, specific military goals and objectives are only a portion of the larger SSTR operation.

army convoy brief powerpoint: Military Convoy Operations in the Continental United States United States. Department of the Army, 1981

army convoy brief powerpoint: *Perceptions Are Reality* Mark D Vertuli Editor, Mark Vertuli, Bradley Loudon, Bradley S Loudon Editor, 2018-10-12 Volume 7, *Perceptions Are Reality: Historical Case Studies of Information Operations in Large-Scale Combat Operations*, is a collection of ten historical case studies from World War II through the recent conflicts in Afghanistan and Ukraine. The eleventh and final chapter looks forward and explores the implications of the future information environment across the range of military operations during both competition and conflict. The case studies illustrate how militaries and subnational elements use information to gain a position of relative advantage during large-scale combat. The intent of this volume is to employ history to stimulate discussion and analysis of the implications of information operations in future LSCO by exploring past actions, recognizing and understanding successes and failures, and offering some lessons learned from each author's perspective.

army convoy brief powerpoint: Military English Tactical and Peacekeeping Operations Robert Buckmaster, 2019-06-24 Military English: English for Tactical and Peacekeeping Operations is a pre-deployment course for Army personnel who are to be sent on multinational peace support operations or on training courses in an English language speaking country, or are to be trained by English-speaking instructors. Your students should already have studied up to a pre-intermediate level [Common European Framework A2] before starting the course - that is they should be ready for an Intermediate/ B1 Level course. There are four components to the course: 1: A Coursebook with 200 lesson-units, providing over 200 hours of study materials including vocabulary learning tasks, reading and listening tasks, briefings, role plays and other speaking tasks. 2: A Workbook (this component), which includes a grammar reference and study pages, peacekeeping reading tasks, writing tasks, abbreviations and acronym study pages, patrol report forms etc., consolidation tasks, a mini dictionary, key vocabulary pages, and key tactical verbs. 3: A Teacher's Book with full instructions on teaching the course, and coursebook and workbook task keys. 4: Downloadable colour pictures, maps, PowerPoint Presentations and audio files, and audio transcripts for use on phones, tablets or computers. These can be freely downloaded and shared with all students. Course Overview: There are three Phases to the Course. Phase One of the course is a series of intertwined threads of General English units, General Military English units and some Specialised Military English units. Phase Two is blocks of units of Specialised Military English, and General English with a Military Application. Phase Three revises and activates the Specialised Military English of Phase One and Two and adds Peacekeeping English. Course Aims: This course is designed to teach soldiers (enlisted men, NCOs and junior officers) how to operate effectively in multinational tactical and peacekeeping operations. By the end of the course the students should be able to do the following in English: Interpersonal Skills: Talk about their families * Talk about their careers * Talk about their homes * Talk about their leisure interests e.g. hobbies, sports, films and music * Socialise e.g. make arrangements to meet * Ask and answer questions * Give personal opinions on topics like personal equipment. Professional Skills: Understand and use common acronyms * Use the NATO/Phonetic Alphabet * Tell the time * Talk about the weather and climate * Talk about their army and unit structure and purpose * Talk about their training * Make radio calls including MEDEVAC/CASEVAC * Understand Tactical Combat Casualty Care * Understand land navigation * Describe rural and urban terrain * Describe people and clothing * Give a short professional briefing supported by visuals * Understand ROE * Describe bases * Understand and describe convoy operations *

Understand and describe checkpoint operations * Understand and describe the use of observation posts * Understand and describe patrol operations * Understand [and give] orders [Patrol Orders, WARNO, OPORD] * Understand the differences between tactical and peacekeeping missions, patrols, ROE, OPs, checkpoints, and convoys * Understand and propose solutions to common survival situations * Understand and propose solutions to common tactical and peacekeeping problems * Write a short report. The course has an open and clear methodology, built in revision tasks and essential practice in the five core area for tactical and peacekeeping operations: understanding briefings and orders, convoy and checkpoint operations, and patrolling. Each Phase has built in tests, and the whole course builds up your students confidence in using Military English, and develops their listening and speaking skills so they can operate effectively in training situations and on missions.

army convoy brief powerpoint: Psyop U. S. Army, 2021-11 Written as a Top Secret US Army procedural manual and released under the Freedom of Information act this manual describes the step-by-step process recommended to control and contain the minds of the enemy and the general public alike. Within these pages you will read in complete detailed the Mission of PSYOP as well as PSYOP Roles, Policies and Strategies and Core Tasks. Also included are the logistics and communication procedures used to insure the right people get the right information.

army convoy brief powerpoint: FM 34-52 Intelligence Interrogation Department of Department of the Army, 2017-12-13 The 1992 edition of the FM 34-52 Intelligence Interrogation Field Manual.

army convoy brief powerpoint: American Coup William M. Arkin, 2013-09-10 A stunning exploration of the subtle erosion of freedom in an age of concocted fear and de facto military authority. When we think of a military coup, the first image that comes to mind is a general, standing at a podium with a flag behind him, declaring the deposing of elected leaders and the institution of martial law. Think again. In *American Coup*, William Arkin reveals the desk-bound takeover of the highest reaches of government by a coterie of grey men of the national security establishment. Operating between the lines of the Constitution, this powerful and unelected group fights to save the nation from terror and weapons of mass destruction while at the same time modifying and undermining the very essence of the country. Many books are written about secrecy, surveillance, and government law-breaking; none so powerfully expose the truth of everyday life in this state of war.

army convoy brief powerpoint: Mine/Countermines Operations Department of the Army, 2013-06-08 The guidance provided focuses on individual skills of emplacing and removing mines, team and squad tasks, platoon and company organization and panning, and battalion/task force organization and coordination for successful obstacle reduction and breaching operations.

army convoy brief powerpoint: U.S. Marines in Afghanistan, 2001-2009 U S Marine Corps History Division, 2017-02-05 This volume presents a collection of 38 articles, interviews, and speeches describing many aspects of the U.S. Marine Corps' participation in Operation Enduring Freedom from 2001 to 2009. This work is intended to serve as a general overview and provisional reference to inform both Marines and the general public until the History Division completes monographs dealing with major Marine Corps operations during the campaign. The accompanying annotated bibliography provides a detailed look at selected sources that currently exist until new scholarship and archival materials become available. From the Preface - From the outset, some experts doubted that the U.S. Marines Corps would play a major role in Afghanistan given the landlocked nature of the battlefield. Naval expeditionary Task Force 58 (TF-58) commanded by then-Brigadier General James N. Mattis silenced naysayers with the farthest ranging amphibious assault in Marine Corps/Navy history. In late November 2001, Mattis' force seized what became Forward Operating Base Rhino, Afghanistan, from naval shipping some 400 miles away. The historic assault not only blazed a path for follow-on forces, it also cut off fleeing al-Qaeda and Taliban elements and aided in the seizure of Kandahar. While Corps doctrine and culture advocates Marine employment as a fully integrated Marine air-ground task force (MAGTF), deployments to

Afghanistan often reflected what former Commandant General Charles C. Krulak coined as the three-block war. Following TF-58's deployment during the initial take down of the Taliban regime, the MAGTF made few appearances in Afghanistan until 2008. Before then, subsequent Marine units often deployed as a single battalion under the command of the U.S. Army Combined Joint Task Force (CJTF) to provide security for provincial reconstruction teams. The Marine Corps also provided embedded training teams to train and mentor the fledgling Afghan National Army and Police. Aviation assets sporadically deployed to support the U.S.-led coalition mostly to conduct a specific mission or to bridge a gap in capability, such as close air support or electronic warfare to counter the improvised explosive device threat. From 2003 to late 2007, the national preoccupation with stabilizing Iraq focused most Marine Corps assets on stemming the insurgency, largely centered in the restive al-Anbar Province. As a result of the North Atlantic Treaty Organization (NATO) taking over command of Afghan operations and Marine Corps' commitments in Iraq, relatively few Marine units operated in Afghanistan from late 2006 to 2007. Although Marines first advocated shifting resources from al-Anbar to southern Afghanistan in early 2007, the George W. Bush administration delayed the Marine proposal for fear of losing the gains made as a result of Army General David H. Petraeus' surge strategy in Iraq. By late 2007, the situation in Afghanistan had deteriorated to the point that it inspired Rolling Stone to later publish the story *How We Lost the War We Won*. In recognition of the shifting tides in both Iraq and Afghanistan, the Bush administration began to transfer additional resources to Afghanistan in early 2008. The shift prompted senior Marines to again push for a more prominent role in the Afghan campaign, even proposing to take over the Afghan mission from the Army. . . .

army convoy brief powerpoint: Mission Command in the 21st Century Nathan K. Finney, Jonathan P. Klug, 2016-03

army convoy brief powerpoint: War Dogs Shane Bryant, Tony Park, 2009-04-01 In Afghanistan, sometimes all that stands between coalition troops and death or serious injury is a dog. Highly trained dogs and their handlers search for improvised explosive devices or hidden weapons out on patrol with combat troops. It's a perilous job, often putting them right in the firing line, and making them high priority targets for the Taliban insurgents they're fighting. Shane Bryant, a former Australian Army dog handler, has spent the past four years in Afghanistan working with elite American special forces alongside his faithful dog. *War Dogs* is his story; a riveting account of the hidden war in the mountains and cities of the world's most dangerous conflict, and the comradeship between man and dog that has saved numerous lives.

army convoy brief powerpoint: A Different Kind of War Donald P. Wright, Martin E. Dempsey, 2010-07 Based on hundreds of oral interviews and unclassified documents, this study offers a comprehensive chronological narrative of the first four years of Operation Enduring Freedom.
