because of mr terupt pdf: A Mouse Called Miika Matt Haig, 2021-11-09 Ratatouille meets Roald Dahl in the funny and fantastical story of a determined mouse on a mission to procure the world's tastiest cheese. From the author of A Boy Called Christmas—now a Netflix movie starring Kristen Wiig, Maggie Smith and Henry Lawfull! When Nikolas left the only home he had ever known, it was a mouse named Miika who kept him company, and it was Miika who accompanied him on his journey to the Far North, in search of his father. But before the events of A Boy Called Christmas, this little mouse was the hero of his own story. A Mouse Called Miika is an epic adventure story on a miniature scale. It's a tale of mice and men (and more mice). It is about one independent mouse who gets fed up with the other mice, and sets out on a quest of his own to prove that cheese exists, and learns to appreciate other creatures. It is also a tale of great love (of cheese) and great danger. And learning the lesson that, with cheese, as with life, what matters most is not how strongly you smell, but how strong you are on the inside. Funny, cheeky, wise, and packed full of Matt Haig's signature warmth. This is set to become a year-round children's favorite.

because of mr terupt pdf: The Speed of Dark Elizabeth Moon, 2003 In the near future, disease will be a condition of the past. Most genetic defects will be removed at birth; the remaining during infancy. Unfortunately, there will be a generation left behind. For members of that missed generation, small advances will be made. Through various programs, they will be taught to get along in the world despite their differences. They will be made active and contributing members of society. But they will never be normal. Lou Arrendale is a member of that lost generation, born at the wrong time to reap the awards of medical science. Part of a small group of high-functioning autistic adults, he has a steady job with a pharmaceutical company, a car, friends, and a passion for fencing. Aside from his annual visits to his counselor, he lives a low-key, independent life. He has learned to shake hands and make eye contact. He has taught himself to use please and thank you and other conventions of conversation because he knows it makes others comfortable. He does his best to be as normal as possible and not to draw attention to himself. But then his quiet life comes under attack. It starts with an experimental treatment that will reverse the effects of autism in adults. With this treatment Lou would think and act and be just like everyone else. But if he was suddenly free of autism, would he still be himself? Would he still love the same classical music-with its complications and resolutions? Would he still see the same colors and patterns in the world-shades and hues that others cannot see? Most importantly, would he still love Marjory, a woman who may never be able to reciprocate his feelings? Would it be easier for her to return the love of anormal? There are intense pressures coming from the world around him-including an angry supervisor who wants to cut costs by sacrificing the supports necessary to employ autistic workers. Perhaps even more disturbing are the barrage of questions within himself. For Lou must decide if he should submit to a surgery that might completely change the way he views the world . . . and the very essence of who he is. Thoughtful, provocative, poignant, unforgettable, *The Speed of Dark* is a gripping exploration into the mind of an autistic person as he struggles with profound questions of humanity and matters of the heart.

because of mr terupt pdf: *Distancing* Martin Kantor MD, 2003-11-30 Kantor focuses on a misunderstood but common condition that brings severe and pervasive anxiety about social contacts and relationships. He offers psychotherapists a specific method for helping avoidants overcome their fear of closeness and commitments, and offers a guide for avoidants themselves to use for developing lasting, intimate, anxiety-free relationships. Fear of intimacy and commitment keeps avoidants from forming close, meaningful relationships. Types of avoidants can include confirmed bachelors, femme fatales, and people who form what appear to be solid relationships only to tire of them and leave with little warning, often devastating their partners/victims. Kantor takes us through the history of this disorder, and into clinical treatment rooms, to see and hear how avoidants think, feel, and recover. He offers psychotherapists a specific method for helping avoidants overcome their fear of closeness and commitments, and offers a guide for avoidants themselves to use for developing lasting, intimate, anxiety-free relationships. The avoidance reduction techniques presented in this book recognize that avoidants not only fear criticism and humiliation, but also fear being flooded by their feelings and being depleted if they express them. Acceptance is feared as much as rejection, because avoidants fear compromising their identity and losing personal freedom. Kantor describes the different therapeutic emphasis required for the four types of avoidants, including those who are withdrawn due to shyness and social phobia, such as people who intensely fear public speaking; those who relate easily, widely, and well, but cannot sustain relationships due to fear of closeness; those whose restlessness causes them to leave steady relationships, often without warning; and those who grow dependent on—and merge with—a single lover or family member and avoid relating to anyone else.
