She used her novels—beginning with Interview with a Vampire—to wrestle with otherworldly themes while in her own life, she experienced both loss (the death of her daughter and, later, her beloved husband, Stan Rice) and joys (the birth of her son, Christopher). And she writes about how, finally, after years of questioning, she experienced the

intense conversion and re-embracing of her faith that lie behind her most recent novels about the life of Christ.

anne rice the witching hour pdf: The Troll Inside You Ármann Jakobsson, 2017 What do medieval Icelanders mean when they say troll? What did they see when they saw a troll? What did the troll signify to them? And why did they see them? The principal subject of this book is the Norse idea of the troll, which the author uses to engage with the larger topic of paranormal experiences in the medieval North. The texts under study are from 13th-, 14th-, and 15th-century Iceland. The focus of the book is on the ways in which paranormal experiences are related and defined in these texts and how those definitions have framed and continue to frame scholarly interpretations of the paranormal. The book is partitioned into numerous brief chapters, each with its own theme. In each case the author is not least concerned with how the paranormal functions within medieval society and in the minds of the individuals who encounter and experience it and go on to narrate these experiences through intermediaries. The author connects the paranormal encounter closely with fears and these fears are intertwined with various aspects of the human experience including gender, family ties, and death. *The Troll Inside You* hovers over the boundaries of scholarship and literature. Its aim is to prick and provoke but above all to challenge its audience to reconsider some of their preconceived ideas about the medieval past.

anne rice the witching hour pdf: Environmental History of Water Petri S. Juuti, Tapio Katko, H. Vuorinen, 2007-02-01 The World Water Development Report 2003 pointed out the extensive problem that: 'Sadly, the tragedy of the water crisis is not simply a result of lack of water but is, essentially, one of poor water governance.' Cross-sectional and historical intra-national and international comparisons have been recognized as a valuable method of study in different sectors of human life, including technologies and governance. *Environmental History of Water* fills this gap, with its main focus being on water and sanitation services and their evolution. Altogether 34 authors

have written 30 chapters for this multidisciplinary book which divides into four chronological parts, from ancient cultures to the challenges of the 21st century, each with its introduction and conclusions written by the editors. The authors represent such disciplines as history of technology, history of public health, public policy, development studies, sociology, engineering and management sciences. This book emphasizes that the history of water and sanitation services is strongly linked to current water management and policy issues, as well as future implications. Geographically the book consists of local cases from all inhabited continents. The key penetrating themes of the book include especially population growth, health, water consumption, technological choices and governance. There is great need for general, long-term analysis at the global level. Lessons learned from earlier societies help us to understand the present crisis and challenges. This new book, *Environmental History of Water*, provides this analysis by studying these lessons.

anne rice the witching hour pdf: *Nursery Realms* Gary Westfahl, George Edgar Slusser, 1999 Child characters are surprisingly common in horror, fantasy, and science fiction literature and films. Children represent innocence and virtue and symbolize the classic question of fantastic literature: What is the future of the human race, and how will science and society improve or impair that future? This collection of essays explores the roles of children in the literature and film of the fantastic. The works vary in critical approach from textual analyses to psychological, historical, and gender- and ethnicity-based interpretations and draw their subject matter from contemporary and classic literary and film pieces. *The Triumph of Teen Prop: Terminator II and the End of History* is a playful discussion of teen propaganda movies and social issues. *E.T. as Fairy Tale* examines how Stephen Spielberg's combination of science fiction, fantasy, and fairy tale elements blends logic and childhood magic. Howard M. Lenhoff connects mythical creatures with biology in *A Real-World Source for the 'Little People': A Comparison of Fairies to Individuals with Williams Syndrome*. The literary selection ranges from Alida Allison's study of childhood in Isaac Bashevis Singer's writings to Bud Foote's interpretation of childhood roles in the characters of selected Stephen King works. Other essays consider Henry James's *The Turn of the Screw*, Anne Rice's *The Witching Hour*, and the childhood classic *Peter Pan*.
