According to Improving Diagnosis in Health Care, diagnostic errors-inaccurate or delayed diagnoses-persist throughout all settings of care and continue to harm an unacceptable number of patients. It is likely that most people will experience at least one diagnostic error in their lifetime, sometimes with devastating consequences. Diagnostic errors may cause harm to patients by preventing or delaying appropriate treatment, providing unnecessary or harmful treatment, or resulting in psychological or financial repercussions. The committee concluded that improving the diagnostic process is not only possible, but also represents a moral, professional, and public health imperative. Improving Diagnosis in Health Care, a continuation of the landmark Institute of Medicine reports To Err Is Human (2000) and Crossing the Quality Chasm (2001), finds that diagnosis-and, in particular, the occurrence of diagnostic errors-has been largely unappreciated in efforts to improve the quality and safety of health care. Without a dedicated focus on improving diagnosis, diagnostic errors will likely worsen as the delivery of health care and the diagnostic process continue to increase in complexity. Just as the diagnostic process is a collaborative activity, improving diagnosis will require collaboration and a widespread commitment to change among health care professionals, health care organizations, patients and their families, researchers, and policy makers. The recommendations of Improving Diagnosis in Health Care contribute to the growing momentum for change in this crucial area of health care quality and safety.

world history unit 7 test answers: Appeasing Hitler Tim Bouverie, 2020-03-19 The Sunday Times Bestseller 'Astonishing' ANTONY BEEVOR 'One of the most promising young historians to enter our field for years' MAX HASTINGS On a wet afternoon in September 1938, Neville Chamberlain stepped off an aeroplane and announced that his visit to Hitler had averted the greatest crisis in recent memory. It was, he later assured the crowd in Downing Street, 'peace for our time'. Less than a year later, Germany invaded Poland and the Second World War began. This is a vital new history of the disastrous years of indecision, failed diplomacy and parliamentary infighting that enabled Nazi domination of Europe. Drawing on previously unseen sources, it sweeps from the advent of Hitler in 1933 to the beaches of Dunkirk, and presents an unforgettable portrait of the ministers, aristocrats and amateur diplomats whose actions and inaction had devastating consequences. 'Brilliant and sparkling . . . Reads like a thriller. I couldn't put it down' Peter Frankopan 'Vivid, detailed and utterly fascinating . . . This is political drama at its most compelling' James Holland 'Bouverie skilfully traces each shameful step to war . . . in moving and dramatic detail' Sunday Telegraph
