birth certificate check bd: Ztad C.D. Smith, 2018-10-27 The possibility of travel forward and backward through space-time intrigues a vast number of people. I find it curious that many believe that Back to the Future is really possible and eventually someone will implement a process/machine to do exactly that. I, on the other hand, believe that time travel through space-time is impossible and in this book, I put forward, what I consider to be, a valid proof. The expansion of the universe and ultimately the Heat Death of the Universe means that energy is continuously lost and is not recoverable. To travel through space-time it is necessary to remove energy from the universe to move forward in time or add energy to the universe to move backward in time and that is, therefore, impossible. My purpose in writing this book is to put forward a paradigm where travel in time-space, not through space-time, is possible. Where movement about in three-dimensional space does not require energy to be either removed from or added to, the universe. Professor Da-veed's accidental discovery of this paradigm forces him to take measures to avoid being taken into custody by the FBI, DHS, and NSA because he fears that the government would weaponize ZTAD and use it to dominate other countries.

birth certificate check bd: *JOURNEY TO THE CREST (OF THE CRESCENT CITY)* BARRY DAVIS, 2019-05-21 The captivating story of a young, black male growing up in New Orleans, LA in the 80s and 90s. The author provides a vivid description of how he navigated the obstacles of being raised in a poor, single-parent household. In addition, he narrates how his mom found refuge within the Jehovah's Witness religion and how he had a sexual relationship with one of the Elders in his congregation when he was a minor. More light is shed on how this religion (and many organized religions) decided to discipline this leader. He paints a very vivid story of how low his life was during and after this period because of his struggle with accepting the fact that he is gay and the fact that

his mother and no one close to him will accept this truth. After relocating from his hometown, he is faced with the horrible news of his mother's terminal illness and is challenged with caring for her with virtually no help from his family members. This story will have you take a deeper look at what faith and family means. It's a heartbreaking story that will leave you speechless at points, crying at others, and laughing in-between. It's also a beautiful story of how a young man with all of the odds stacked against him learned how to reconcile his faith/spirituality with who he is and how he learned to appreciate how blessed he is.
