It is devoted exclusively to understanding and mastering techniques that work for survival in real life situations. Unfortunately, most of the current literature on so-called 'combat shooting' explores what works against paper targets. Few street-wise experts or truly contemporary articles have emerged on street survival, although deadly assaults on the police continue to occur year after year. This book can help make you survival sensitive. The techniques it emphasizes are

designed to affect the way you prepare, plan and react, to keep you alive in real situations. They are not hypotheses, but proven procedures, based on the insights of officers who have experienced gun battles and survived and on the lessons left behind by those who have died.

fop calendar chicago 2023: The War on Cops Heather Mac Donald, 2016-06-21 Violent crime has been rising sharply in many American cities after two decades of decline. Homicides jumped nearly 17 percent in 2015 in the largest 50 cities, the biggest one-year increase since 1993. The reason is what Heather Mac Donald first identified nationally as the “Ferguson effect”: Since the 2014 police shooting death of Michael Brown in Ferguson, Missouri, officers have been backing off of proactive policing, and criminals are becoming emboldened. This book expands on Mac Donald’s groundbreaking and controversial reporting on the Ferguson effect and the criminal-justice system. It deconstructs the central narrative of the Black Lives Matter movement: that racist cops are the greatest threat to young black males. On the contrary, it is criminals and gangbangers who are responsible for the high black homicide death rate. The War on Cops exposes the truth about officer use of force and explodes the conceit of “mass incarceration.” A rigorous analysis of data shows that crime, not race, drives police actions and prison rates. The growth of proactive policing in the 1990s, along with lengthened sentences for violent crime, saved thousands of minority lives. In fact, Mac Donald argues, no government agency is more dedicated to the proposition that “black lives matter” than today’s data-driven, accountable police department. Mac Donald gives voice to the many residents of high-crime neighborhoods who want proactive policing. She warns that race-based attacks on the criminal-justice system, from the White House on down, are eroding the authority of law and putting lives at risk. This book is a call for a more honest and informed debate about policing, crime, and race.

The “Bible of Law Enforcement Training” is what the 1980 first edition of Street Survival was considered throughout the profession. Street Survival II: Tactics for Deadly Force Encounters, written by Lt. Jim Glennon, Lt. Dan Marcou with the original author Chuck Remsberg, has a new, sleek, modern look. While paying homage to the original, the update includes more than 200 colored photos and diagrams and delves into the profession's many changes over the past three decades. It includes tactics, effective street communication, detecting preattack indicators, public expectations, the issue of Guardian and Warrior roles, and especially preparing for the realities of force events.

fop calendar chicago 2023: Curbing It Jeff Garlin, 2012-01-03 Now in paperback from comedian and actor Jeff Garlin—who plays Larry David’s cheerful manager on HBO’s Curb Your Enthusiasm—a year-long chronicle of his journey to reduce both his physical and carbon footprint in this laugh-out-loud self-experimental memoir. Jeff Garlin has dedicated the filming of an entire season of Curb Your Enthusiasm to completely making over his lifestyle in two major ways—by losing weight and going green. Larry David’s rooting for him. Jerry Seinfeld’s plotting against him. And his wife is just plain annoyed by everything. The hardest part of the endeavor is overcoming his food addiction—especially when craft service has a constant buffet of everything delicious you could imagine. In addition to cutting calories, Jeff accidentally falls into a love affair with pilates, sweats with Richard Simmons, and twice visits the Pritikin Longevity Center, which he says is “rehab for people who eat too much pizza.” As far as going green, Jeff has always been a big recycler, but he has a lot to learn. For example, actor Ed Begley Jr. is the guy to call if you want to reduce your environmental impact. Jeff does, and it changes everything. Hysterical, entertaining, and eye-opening, Curbing It is a comedic memoir that’s not to be missed. Previously published as My Footprint with bonus material added in this edition.

When a long-lost nephew arrives on O'Connor's doorstep looking for work, he cannot foresee the way his fragile new life will be imperiled—and how his and Doyle's fates will become fatally intertwined. In this propulsive tale of the underground war for Irish independence, the author of *The North Water* once again transports readers to a time when blood begot blood. Moving from the dirt and uproar of industrial Manchester to the quiet hills of rural Pennsylvania, *The Abstainer* is a searing novel in which two men, haunted by their pasts and driven forward by the need for justice and retribution, must fight for life and legacy.

fop calendar chicago 2023: How Did Lubitsch Do It? Joseph McBride, 2018-06-26 Orson Welles called Ernst Lubitsch (1892-1947) "a giant" whose "talent and originality are stupefying." Jean Renoir said, "He invented the modern Hollywood." Celebrated for his distinct style and credited with inventing the classic genre of the Hollywood romantic comedy and helping to create the musical, Lubitsch won the admiration of his fellow directors, including Alfred Hitchcock and Billy Wilder, whose office featured a sign on the wall asking, "How would Lubitsch do it?" Despite the high esteem in which Lubitsch is held, as well as his unique status as a leading filmmaker in both Germany and the United States, today he seldom receives the critical attention accorded other major directors of his era. *How Did Lubitsch Do It?* restores Lubitsch to his former stature in the world of cinema. Joseph McBride analyzes Lubitsch's films in rich detail in the first in-depth critical study to consider the full scope of his work and its evolution in both his native and adopted lands. McBride explains the "Lubitsch Touch" and shows how the director challenged American attitudes toward romance and sex. Expressed obliquely, through sly innuendo, Lubitsch's risqué, sophisticated, continental humor engaged the viewer's intelligence while circumventing the strictures of censorship in such masterworks as *The Marriage Circle*, *Trouble in Paradise*, *Design for Living*, *Ninotchka*, *The Shop Around the Corner*, and *To Be or Not to Be*. McBride's analysis of these films brings to life Lubitsch's wit and inventiveness and offers revealing insights into his working methods.

fop calendar chicago 2023: Augie's Quest Augie Nieto, T.R. Pearson, 2011-01-15 What happens to orphan diseases that aren't big enough profit centers for the pharmaceutical industry or get caught in the web of government funding and academic research? Augie Nieto found out in the spring of 2005: At forty-seven years old he was diagnosed with ALS. Devastated, Augie struggled with depression and attempted suicide. When he awoke from a coma, with friends and family surrounding him, his sense of faith and mission were renewed. Fast-forward one year: Augie and his wife, Lynne, were profiled as Real Heroes on the Today show. Their determination to beat the disease had already led to major overhauls in the way ALS research was conducted. In partnership with the Muscular Dystrophy Association, Augie had set up a foundation and lab to coordinate and oversee ALS research and testing across the globe. By centralizing operations and championing an entrepreneurial approach to medical research, Augie and his team accomplished remarkable results in less than two years. Part inspiration, part business innovation, Augie's Quest illustrates how one person can make a meaningful difference. Praise for Augie Nieto: George H. W. Bush, former U.S. president: Your contributions to the fitness industry are well known, and your dedication an inspiration. Lance Armstrong, seven-time Le Tour de France champion: I think it says a lot about Augie, the fact that everybody came together regardless of whether or not it's for competing gyms or competing companies that make equipment. They all say, this is one of our own; this is a guy who's committed his life to our industry and has been dealt a serious blow. We're going to be there for him, we're going to say, we're here for you and we're part of the Quest. Arnold Schwarzenegger, governor of California: Your success has been incredible. But you are so much more than just a successful businessman. You are the greatest husband, a great father, and a terrific friend. So,
