flm blu: The Most Savage Film P. B. Hurst, 2008 Described by the BBC as 'one of the most significant American films ever made', *Soldier Blue* became explosively linked to real events of the Vietnam War as a result of the uncanny similarities between the U.S. Cavalry's extermination of Native Americans depicted at the film's finale and the American massacre of Vietnamese civilians at My Lai in 1968, just two years before the film was released. Drawing on primary sources and interviews with individuals associated with the production, this work solves the longstanding mystery of whether *Soldier Blue*, a picture that set a new mark in cinematic violence in 1970, deliberately echoed events in the Vietnam War. In addition, the author details the bizarre location shoot in Mexico, describes the various post-production and censorship problems encountered by the film's director and producers, and examines the circumstances in and beyond the American film industry in the late 1960s that led to the creation of such a radical and bitter film. Richly illustrated with many rare and previously unpublished photographs, the book also contains four appendices providing a complete list of cast/crew credits, a revised final budget for the film, complete reproductions of two 1971 British articles on the film and a reproduction of a *Harper's Weekly* article from 1885.

flm blu: Cinema under National Reconstruction Hye Seung Chung, 2024-11-15 *Cinema under National Reconstruction* calls for a revisionist understanding of state film censorship during successive Cold War military regimes in South Korea (1961-1988). Drawing upon primary documents from the Korean Film Archive's digitized database and framing South Korean film censorship from a transnational perspective, Hye Seung Chung makes the case that, while political oppression/repression existed inside and outside the film industry during this period, film censorship was not simply a tool for authoritarian dictatorship. Through such case studies as Yu Hyun-mok's *The Stray Bullet* (1961), Ha Kil-jong's *The March of the Fools* (1975), and Yi Chang-ho's *Declaration of Fools* (1983), the author defines censorship as a dialogical process of cultural negotiations wherein the state, the film industry, and the public fight out a battle over the definitions and functions of national cinema. In the context of Cold War Korea, one cannot fully understand or construct film history without reassessing censorship as a productive feedback system where both state regulators and filmmakers played active roles in shaping the new narrative or sentiment of the nation on the big screen.

flm blu: Film Firsts Ethan Alter, 2014-02-17 This forward-looking exploration of contemporary American film across the last 40 years identifies and examines the specific movies that changed the film industry and shaped its present and future. Since the mid-1970s, American cinema has gone through enormous changes, such as the birth of the modern summer blockbuster, the rise of the independent film industry, ongoing technological advancements in special effects, and the ever-evolving models for film distribution. Written by a professional film critic and film buff, this book tells the story of contemporary American cinema in a unique and engaging way: by examining 25 key movies that demonstrated a significant creative, technological, or business innovation that impacted the industry at large. Each chapter in this chronological survey of contemporary film is divided into two sections: *The Film*, which offers a critical overview of the film in question; and *The First*, which describes the specific innovation achieved by that film and places that achievement in the larger historical context. Two additional appendices in each chapter explore other significant

aspects of both the film and its groundbreaking nature. The broad coverage—ranging from action movies to horror films to science fiction favorites—ensures the work's appeal to all film fans.

flm blu: Composing for the Cinema Ennio Morricone, Sergio Miceli, 2013-10-10 With nearly 400 scores to his credit, Ennio Morricone is one of the most prolific and influential film composers working today. He has collaborated with many significant directors, and his scores for such films as *The Good, the Bad, and the Ugly*; *Once Upon a Time in America*; *Days of Heaven*; *The Mission*; *The Untouchables*; *Malèna*; and *Cinema Paradiso* leave moviegoers with the conviction that something special was achieved—a conviction shared by composers, scholars, and fans alike. In *Composing for the Cinema: The Theory and Praxis of Music in Film*, Morricone and musicologist Sergio Miceli present a series of lectures on the composition and analysis of film music. Adapted from several lectures and seminars, these lessons show how sound design can be analyzed and offer a variety of musical solutions to many different kinds of film. Though aimed at composers, Morricone's expositions are easy to understand and fascinating even to those without any musical training. Drawing upon scores by himself and others, the composer also provides insight into his relationships with many of the directors with whom he has collaborated, including Sergio Leone, Giuseppe Tornatore, Franco Zeffirelli, Warren Beatty, Ridley Scott, Roland Joffé, the Taviani Brothers, and others. Translated and edited by Gillian B. Anderson, an orchestral conductor and musicologist, these lessons reveal Morricone's passion about musical expression. Delivered in a conversational mode that is both comprehensible and interesting, this groundbreaking work intertwines analysis with practical details of film music composition. Aimed at a wide audience of composers, musicians, film historians, and fans, *Composing for the Cinema* contains a treasure trove of practical information and observations from a distinguished musicologist and one of the most accomplished composers on the international film scene.

flm blu: New Blood Eddie Falvey, Jonathan Wroot, Joe Hickinbottom, 2021-01-15 The taste for horror is arguably as great today as it has ever been. Since the turn of the millennium, the horror genre has seen various developments emerging out of a range of contexts, from new industry paradigms and distribution practices to the advancement of subgenres that reflect new and evolving fears. *New Blood* builds upon preceding horror scholarship to offer a series of critical perspectives on the genre since the year 2000, presenting a collection of case studies on topics as diverse as the

emergence of new critical categories (such as the contentiously named 'prestige horror'), new subgenres (including 'digital folk horror' and 'desktop horror') and horror on-demand ('Netflix horror'), and including analyses of key films such as *The Witch* and *Raw* and TV shows like *Stranger Things* and *Channel Zero*. Never losing sight of the horror genre's ongoing political economy, *New Blood* is an exciting contribution to film and horror scholarship that will prove to be an essential addition to the shelves of researchers, students and fans alike.

flm blu: *Comics and Pop Culture* Barry Keith Grant, Scott Henderson, 2019-12-13 It is hard to discuss the current film industry without acknowledging the impact of comic book adaptations, especially considering the blockbuster success of recent superhero movies. Yet transmedial adaptations are part of an evolution that can be traced to the turn of the last century, when comic strips such as "Little Nemo in Slumberland" and "Felix the Cat" were animated for the silver screen. Representing diverse academic fields, including technoculture, film studies, theater, feminist studies, popular culture, and queer studies, *Comics and Pop Culture* presents more than a dozen perspectives on this rich history and the effects of such adaptations. Examining current debates and the questions raised by comics adaptations, including those around authorship, style, and textual fidelity, the contributors consider the topic from an array of approaches that take into account representations of sexuality, gender, and race as well as concepts of world-building and cultural appropriation in comics from Modesty Blaise to Black Panther. The result is a fascinating re-imagining of the texts that continue to push the boundaries of panel, frame, and popular culture.

flm blu: *Projecting 9/11* Mary K. Bloodsworth-Lugo, Carmen R. Lugo-Lugo, 2014-10-16 *Projecting 9/11* examines sensibilities and ideologies that arose after September 11, 2001, and how these intersect with issues of race, gender, sexuality, and citizenship in contemporary mainstream films. The authors argue that the social and political project that is "9/11" can be found in most cultural artifacts produced after the date, including film. In essence, Hollywood films project the 9/11 project. The book analyzes the specific ways in which recent Hollywood films have become both powerful forces of significance and also forceful representations of reality about post-9/11 life. From films that explicitly treat subjects related to 9/11, such as *United 93* and *Extremely Loud and Incredibly Close*, to films that show post-9/11 themes in less-expected ways, such as *Eat, Pray, Love* and *World War Z*, the authors explore tensions around race, gender, and sexuality. The book examines our perceptions of reality after the events of September 11, 2001, as shown by one of the more influential means of cultural representation—Hollywood films.

flm blu: *Popular Culture and the Future of Politics* Ted Gornelios, 2009 *Popular Culture and the Future of Politics: Cultural Studies and the Tao of South Park* argues that progressives should perceive the connections among media, policy, and culture beyond the limits of politics and news. With sustained analyses of groundbreaking contemporary examples of what has become known as convergence culture, Ted Gornelios brings together a wide range of media without sacrificing depth. His examples, such as *South Park*, *The Simpsons*, *The Onion*, *The Daily Show*, Chappelle's show and *The Boondocks*, are chosen for their political scope and social impact and demonstrate the ways in which what we know as politics is rapidly changing. The book's forays into established fields like feminist, race, and queer theory are combined with perspectives drawn from political economy and rhetoric to demonstrate the power of irony, humor, and cultural dissonance in modern approaches to dissonant cultural politics. *Popular Culture and the Future of Politics* approaches popular culture's treatment of events, social norms, and political shifts through three techniques by which political discourse can be reframed, negotiated, or opposed. It incorporates discussions of contemporary U.S. media policy, the structural changes incurred through the emergence of the internet, and political developments over the past decade, and suggests that contemporary popular media can combine with a self-consciously oppositional branding strategy to allow and encourage new types of activism. flm blu: *Studying Fight Club* Mark Ramey, 2012-08-14 *Fight Club* is, on one level, pop-culture phenomena and on another, a deeply philosophical and satirical exploration of modern life. David

Fincher's 1999 film (and Chuck Palahniuk's source novel) has had a huge impact on audiences worldwide leading to spoofs, homage, merchandising and numerous Internet fan sites. On initial release the film was met with wide hostility from critics who either failed to appreciate its satirical intent or believed the film failed to deliver on its satirical promise. Early in its DVD afterlife, however, a wider audience began to appreciate the film's significance and radical message. Although attracted by the film's playfulness and star wattage, however, many students struggle with its theoretical notions such as Capitalism, materialism, anarchy and so on. This is one film, which therefore merits a thoughtful and provocative analysis but also an accessible one, and Mark Ramey has provided just that.

film blu: *On the Aisle, Volume 3* Philip Morency, 2017-04-11 *On the Aisle, Volume 3* by Philip Morency *On the Aisle, Volume 3: Film Reviews* by Philip Morency is the third in the series of movie reviews written by Philip Morency. This edition contains films ranging from the years 2010 through 2012, with some periodic "oldies but goodies" mixed in. Like Philip's previous two books, *On the Aisle, Volume 3* contains brief and to-the-point movie reviews that are geared toward the average moviegoer. It is not really written from a critic's perspective, but from that of the average viewer. The reviews are simple and easy to understand. What is unique about the book is that it tells the synopsis of the film, then it gives the author's opinion of the film, and then it lets the reader decide whether or not they would like to see the film. The films are rated on a scale of 1 through 5. There are also half-star ratings, such as 3 ½ stars (VERY GOOD). The contained films are listed in alphabetical order, and for ease of reference, there is also a table of contents page. Enjoy... *On the Aisle, Volume 3*.

film blu: *Hardcore Horror Cinema in the 21st Century* James Aston, 2018-09-04 The first of its kind, this study examines the exemplars of hardcore horror--Fred Vogel's August Underground trilogy, Shane Ryan's Amateur Porn Star Killer series and Lucifer Valentine's vomit gore films. The author begins with a definition and critical overview of this marginalized subgenre before exploring its key aesthetic convention, the pursuit of realist horror. Production practices, exhibition and marketing strategies are discussed in an in-depth interview with filmmaker Shane Ryan. Audience reception is covered with a focus on fan interaction via the Internet.

film blu: *Daughters of Darkness* Kat Ellinger, 2020-05-14 Harry Kümel's cult classic *Daughters of Darkness* (1971) is a vampire film like no other. Kat Ellinger explores the film's association with fairy tales, the Gothic and fantastic tradition, as well as delving into aspects of the legend of Countess Bathory, traditional vampire lore, and much more. The book also contains new and exclusive interviews.

film blu: *Comedy Horror Movies* Laura Cremonini, 2020-03-01 Comedy horror combines elements of comedy and horror film. The comedy horror genre often crosses over with the black comedy genre. It occasionally includes horror films with lower ratings that are aimed at a family audience. The short story *The Legend of Sleepy Hollow* by Washington Irving is cited as the first great comedy-horror story. Examples of comedy horror films include: *The Comedy of Terrors*, *An American Werewolf in London*, *Beetlejuice*, *Jennifer's Body*, *Teeth*, *Nina Forever*, *Slither*, *The Evil Dead*, *Army of Darkness*, *Shaun of the Dead*, *Zombieland*, *Scary Movie* and *Idle Hands*. *Gremlins*, *ParaNorman*, and *Ghostbusters* were examples of comedy horror films aimed at a family audience. This book is the assembly of various texts that are freely available on the web, especially from Wikipedia. The next obvious question is: why buy this book? The answer: because it means you avoid having to carry out long and tedious internet searches. The topics are all linked to each other organically, and as a function of the subject and, in most cases, contain additional unpublished topics, not found on the web. Moreover, the inclusion of images completes the work so as to make it unique and unrepeatable. Contents of the book: *Comedy Horror Movies: In literature, In film*. 12 Representative Horror Comedy Films: *The Haunted House*, *The Old Dark House*, *Abbott and Costello Meet Frankenstein*, *El Castillo de los Monstruos*, *The Little Shop of Horrors*, *The Old Dark House*, *The Abominable Dr. Phibes*, *Young Frankenstein*, *Shock Treatment*, *Mr. Vampire*, *The Addams Family*. flm blu: Colouring Meaning Gill Philip, 2011-02-23 Primarily focused on idioms and other figurative phraseology, *Colouring Meaning* describes how the meanings of established phrases are enhanced, refocused and modified in everyday language use. Unlike many studies of creativity in language, this book-length survey addresses the matter at several levels, from the purely linguistic level of collocation, through its abstractions in colligation and semantic preference, to semantic prosody and connotation. This journey through both linguistic and cognitive levels involves the examination of habitual language and its exploitations, both mundane and colourful, explaining the phenomena observed in terms of current psycholinguistic research as well as corpus linguistics theory and analysis. The relationships between meaning in text and meaning in the mind are discussed at length and extensively illustrated with worked case studies to offer the reader a comprehensive overview of metaphorical and other secondary meanings as they emerge in real-world communicative situations.

You are holding the Rosetta Stone for Cage. Enjoy it.” —Paul Scheer, actor, writer and host of the *How Did This Get Made?* and *Unspooled* podcasts *Icon. Celebrity. Artist. Madman. Genius.* Nicolas Cage is many things, but love him, or laugh at him, there's no denying two things: you've seen one of his many films, and you certainly know his name. But who is he, really, and why has his career endured for over forty years, with more than a hundred films, and birthed a million memes? *Age of Cage* is a smart, beguiling book about the films of Nicolas Cage and the actor himself, as well as a sharp-eyed examination of the changes that have taken place in Hollywood over the course of his career. Critic and journalist Keith Phipps draws a portrait of the enigmatic icon by looking at—what else?—Cage’s expansive filmography. As Phipps delights in charting Cage’s films, *Age of Cage* also chronicles the transformation of film, as Cage’s journey takes him through the world of 1980s comedies (*Valley Girl*, *Peggy Sue Got Married*, *Moonstruck*), to the indie films and blockbuster juggernauts of the 1990s (*Wild at Heart*, *Leaving Las Vegas*, *Face/Off*, *Con Air*), through the wild and unpredictable video-on-demand world of today. Sweeping in scope and intimate in its profile of a fiercely passionate artist, *Age of Cage* is, like the man himself, surprising, insightful, funny, and one of a kind. So, snap out of it, and enjoy this appreciation of Nicolas Cage, national treasure.

flm blu: Fun City Cinema Jason Bailey, 2021-10-26 A visual history of 100 years of filmmaking in New York City, featuring exclusive interviews with NYC filmmakers Fun City Cinema gives readers an in-depth look at how the rise, fall, and resurrection of New York City was captured and chronicled

in ten iconic Gotham films across ten decades: *The Jazz Singer* (1927), *King Kong* (1933), *The Naked City* (1948), *Sweet Smell of Success* (1957), *Midnight Cowboy* (1969), *Taxi Driver* (1976), *Wall Street* (1987), *Kids* (1995), *25th Hour* (2002), and *Frances Ha* (2012). A visual history of a great American city in flux, *Fun City Cinema* reveals how these classic films and legendary filmmakers took their inspiration from New York City's grittiness and splendor, creating what we can now view as "accidental documentaries" of the city's modes and moods. In addition to the extensively researched and reported text, the book includes both historical photographs and production materials, as well as still-frames, behind-the-scenes photos, posters, and original interviews with Noah Baumbach, Larry Clark, Greta Gerwig, Walter Hill, Jerry Schatzberg, Martin Scorsese, Susan Seidelman, Oliver Stone, and Jennifer Westfeldt. film blu: *The Encyclopedia of Epic Films* Constantine Santas, James M. Wilson, Maria Colavito, Djoymi Baker, 2014-03-21 Soon after film came into existence, the term epic was used to describe productions that were lengthy, spectacular, live with action, and often filmed in exotic locales with large casts and staggering budgets. The effort and extravagance needed to mount an epic film paid off handsomely at the box office, for the genre became an immediate favorite with audiences. Epic films survived the tribulations of two world wars and the Depression and have retained the basic characteristics of size and glamour for more than a hundred years. Length was, and still is, one of the traits of the epic, though monolithic three- to four-hour spectacles like *Gone with the Wind* (1939) and *Lawrence of Arabia* (1962) have been replaced today by such franchises as the Harry Potter films and the Lord of the Rings trilogy. Although the form has evolved during many decades of existence, its central elements have been retained, refined, and modernized to suit the tastes of every new generation. The *Encyclopedia of Epic Films* identifies, describes, and analyzes those films that meet the criteria of the epic—sweeping drama, panoramic landscapes, lengthy adventure sequences, and, in many cases, casts of thousands. This volume looks at the wide variety of epics produced over the last century—from the silent spectacles of D. W. Griffith and biblical melodramas of Cecil B. DeMille to the historical dramas of David Lean and rollercoaster thrillers of Steven Spielberg. Each entry contains: Major personnel behind the camera, including directors and screenwriters Cast and character listings Plot summary Analysis Academy Award wins and nominations DVD and Blu-ray availability Resources for further study This volume also includes appendixes of foreign epics, superhero spectaculars, and epics produced for television, along with a list of all the directors in the book. Despite a lack of overall critical recognition and respect as a genre, the epic remains a favorite of audiences, and this book pays homage to a form of mass entertainment that continues to fill movie theaters. The *Encyclopedia of Epic Films* will be of interest to academics and scholars, as well as any fan of films made on a grand scale.

film blu: *Forgotten Heroes of Comedy* Robert Ross, 2021-09-30 In this long overdue and affectionate salute, celebrated comedy historian Robert Ross pays tribute to some of the finest, funniest and most fascinating names in comedy from both sides of the Atlantic. Monty Python's Terry Jones wrote the foreword. With the passionate input of such comics as Tim Brooke-Taylor, Hattie Hayridge, Roy Hudd, Michael Palin, Ross Noble, Chris Addison and Bernard Cribbins, Ross honours these legends of humor who, for a variety of reasons, didn't quite reach the heady heights of stardom or, once they had, couldn't cope with the pressures. Whether it is a favorite from the distant smoke-and-ale-stained world of the Music Hall like the great George Robey, or the downbeat poetry of Hovis Presley, who dropped disenchanted bombs on the late 1990s, *Forgotten Heroes of Comedy* will finally elevate them to the Hall of Fame where they belong. *Forgotten*, no longer. film blu: Hard to Watch Matthew Strohl, 2024-10-15 We've never had better access to movies than we do today. Thanks to streaming services, video-on-demand, boutique physical media, repertory theaters, and the wild frontiers of the internet, we have ready access to a huge range of titles—Hollywood classics, art films from around the world, and audacious contemporary works are all right at our fingertips. Yet, despite this embarrassment of riches, most of us gravitate to the popular and familiar, barely scratching the surface of what's available. According to philosopher Matthew Strohl, we're doing ourselves a disservice by overlooking the range of so-called "difficult" movies. *Hard to Watch* is a joyous celebration of cinema that might seem boring, pretentious, or offensive at first glance but that offers its own distinctive rewards when we give ourselves over to it. Writing with infectious enthusiasm—and a refreshing lack of condescension—Strohl discusses everything from the challenging late works of beloved directors like Terrence Malick and David Lynch to such visionary but divisive films as Alain Resnais's *Muriel*, or the *Time of Return*, Chantal Akerman's *Jeanne Dielman, 23, Quai du Commerce, 1080 Bruxelles*, and Julia Ducournau's *Titane*, evocatively showing why they're worth the time and effort to engage with, and how to get the most out of them. Whether you're a film lover looking to step up your game or just someone who's bored with Netflix, *Hard to Watch* is a brisk and accessible guide to expanding your horizons.

film blu: Media Heterotopias Hye Jean Chung, 2018-02-22 In *Media Heterotopias* Hye Jean Chung challenges the widespread tendency among audiences and critics to disregard the material conditions of digital film production. Drawing on interviews with directors, producers, special effects supervisors, and other film industry workers, Chung traces how the rhetorical and visual emphasis on seamlessness masks the social, political, and economic realities of global filmmaking and digital labor. In films such as *Avatar* (2009), *Interstellar* (2014), and *The Host* (2006)—which combine live action footage with CGI to create new hybrid environments—filmmaking techniques and seamless digital effects allow the globally dispersed labor involved to go unnoticed by audiences. Chung adapts Foucault's notion of heterotopic spaces to foreground this labor and to theorize cinematic space as a textured, multilayered assemblage in which filmmaking occurs in transnational collaborations that depend upon the global movement of bodies, resources, images, and commodities. Acknowledging cinema's increasingly digitized and globalized workflow, Chung reconnects digitally constructed and composited imagery with the reality of production spaces and

laboring bodies to highlight the political, social, ethical, and aesthetic stakes in recognizing the materiality of collaborative filmmaking.

flm blu: Views from the Streets Roberto Aspholm, 2020-02-04 Chicago has long served as a symbol of urban pathology in the public imagination. The city's staggering levels of violence and entrenched gang culture occupy a central place in the national discourse, yet remain poorly understood and are often stereotyped. *Views from the Streets* explains the dramatic transformation of black street gangs on Chicago's South Side during the early twenty-first century, shedding new light on why gang violence persists and what might be done to address it. Drawing on years of community work and in-depth interviews with gang members, Roberto R. Aspholm describes in vivid detail the internal rebellions that shattered the city's infamous corporate-style African American street gangs. He explores how, in the wake of these uprisings, young gang members have radically refashioned gang culture and organization on Chicago's South Side, rejecting traditional hierarchies and ideologies and instead embracing a fierce ethos of personal autonomy that has made contemporary gang violence increasingly spontaneous and unregulated. In calling attention to the historical context of these issues and to the elements of resistance embedded in Chicago's contemporary gang culture, Aspholm challenges conventional views of gang members as inherently pathological. He critically analyzes highly touted "universal" violence prevention strategies, depicting street-level realities to illuminate why they have ultimately failed to reduce levels of bloodshed. An unprecedented analysis of the nature and meaning of gang violence, *Views from the Streets* proposes an alternative framework for addressing the seemingly intractable issues of inequality, despair, and violence in Chicago.

flm blu: *Martial Law Melodrama* José B. Capino, 2020-01-07 Lino Brocka (1939-1991) was one of Asia and the Global South's most celebrated filmmakers. A versatile talent, he was at once a bankable director of genre movies, an internationally acclaimed auteur of social films, a pioneer of queer cinema, and an outspoken critic of Ferdinand Marcos's autocratic regime. José B. Capino examines the figuration of politics in the Filipino director's movies, illuminating their historical contexts, allegorical tropes, and social critiques. Combining eye-opening archival research with fresh interpretations of over fifteen of Brocka's major and minor works, *Martial Law Melodrama* does more than reveal the breadth of his political vision. It also offers a timely lesson about popular cinema's vital role in the struggle for democracy.

flm blu: Expressive Spaces in Digital 3D Cinema Owen Weetch, 2016-09-26 This book puts forward a more considered perspective on 3D, which is often seen as a distracting gimmick at odds with artful cinematic storytelling. Owen Weetch looks at how stereography brings added significance and expressivity to individual films that all showcase remarkable uses of the format. *Avatar*, *Gravity*, *The Hole*, *The Great Gatsby* and *Frozen* all demonstrate that stereography is a rich and sophisticated process that has the potential to bring extra meaning to a film's narrative and themes. Through close reading of these five very different examples, *Expressive Spaces in Digital 3D Cinema* shows how being sensitive to stereographic manipulation can nuance and enrich the critical appreciation of

stereoscopic films. It demonstrates that the expressive placement of characters and objects within 3D film worlds can construct meaning in ways that are unavailable to 'flat' cinema.
